The Art Of Florence1995 Calendar:

Calendar Bryn Mawr College,1891 *Imagining the Human Condition in Medieval Rome* Kristin B. Aavitsland,2017-07-05 The first monograph on the Vita Humana cycle at Tre Fontane this book includes an overview of the medieval history of the Roman Cistercian abbey and its architecture as well as a consideration of the political and cultural standing of the abbey both within Papal Rome and within the Cistercian order Furthermore it considers the commission of the fresco cycle the circumstances of its making and its position within the art historical context of the Roman Duecento Examining the unusual blend of images in the Vita Humana cycle this study offers a more nuanced picture of the iconographic repertoire of medieval art Since the discovery of the frescoes in the 1960s the iconographic programme of the cycle has remained mysterious and an adequate analysis of the Vita Humana cycle as a whole has so far been lacking Kristin B Aavitsland covers this gap in the scholarship on Roman art circa 1300 and also presents the first interpretative discussion of the frescoes that is up to date with the architectural investigations undertaken in the monastery around 2000 Aavitsland proposes a rationale behind the conception of the fresco cycle thereby providing a key for understanding its iconography and shedding new light on thirteenth century Cistercian culture *Art in Renaissance Italy* John T. Paoletti,Gary M. Radke,2005 *Art in Renaissance Italy* sets the art of that time in its context exploring why it was created and in particular looking at who commissioned the palaces and cathedrals the paintings and the sculptures **Who's who in American Art 1995 - 96 21st Ed** Reed Reference Publishing,1995 Biografisch woordenboek waarin een overzicht wordt gegeven van kunstenaars uit de Verenigde Staten van Amerika Canada en Mexico **The Publishers Weekly** ,1895 Monuments and Memory in Early Modern England Peter Sherlock,2008 This book is a study of the material culture of memory in sixteenth and seventeenth century England in the form of monuments to the dead By interpreting messages of their images and inscriptions it explores how early modern people wanted to be remembered *Annual Bibliography of Modern Art* Museum of Modern Art (New York, N.Y.). Library,1996 Vernacular Theology Eliana Corbari,2013-01-30 This book examines the audiences and languages of Dominican sermons in late medieval Italy It is a thorough analysis of how Latin theological culture interacted with popular religious devotion In particular it assesses the role of vernacular theology Eliana Corbari defines vernacular theology as a form of theology that is based neither on a Latin scholastic model nor a monastic one It is a third dimension of theology which was accessible to the laity and in particular women through their attendance at sermons and the reading of vernacular devotional works in this case medieval Italian treatises and sermons Through painstaking manuscript work Corbari makes an excellent contribution to sermon studies gender studies medieval theology and codicology She demonstrates that Dominican friars preached to an active contingent of laywomen usually members of confraternities who not only attended these sermons but re read them and also disseminated them through book production to the wider Florentine community **The Culture Broker** Margaret Leslie Davis,2007-08-20 Murphy recognized and supported the social and cultural revolution under way

during the tumultuous 1960s and influenced the power elite to accept changing values and to promote diversity Davis's account brings to light the influence of L.A.'s powerful families and chronicles the mixed motives behind large public endeavors Channeling more than one billion dollars into the city's arts and educational infrastructure Franklin Murphy elevated Los Angeles to a vibrant world class city positioned for its role in the new era of global trade and cross cultural arts

BOOK JACKET The International Who's Who of Women 2002 Elizabeth Sleeman, 2001 Over 5 500 detailed biographies of the most eminent talented and distinguished women in the world today *Shadow Agents of Renaissance War* Stephen Bowd, Sarah Cockram, John Gagné, 2025-10-01 Who were the shadow agents of Renaissance war In this pioneering collection of essays scholars use new archival evidence and other sources including literature artworks and other non textual material to uncover those men women children and other animals who sustained war by means of their preparatory auxiliary infrastructural or supplementary labour These shadow agents worked in the zone between visibility and invisibility often moving between civilians and soldiers and their labour was frequently forced This volume engages with a range of important debates including the relationship between war and state formation the military revolution or transformation of early modern military force the nature of human and non human agency gender and war civilian protection and expulsion and espionage and diplomacy The focus of the volume is on Italy but it includes studies of France and England and the editors place these themes in a broader European context with the aim of supporting and stimulating research in this field *The World of Plants in Renaissance Tuscany* Cristina Bellorini, 2016-09-13 In the sixteenth century medicinal plants which until then had been the monopoly of apothecaries became a major topic of investigation in the medical faculties of Italian universities where they were observed transplanted and grown by learned physicians both in the wild and in the newly founded botanical gardens Tuscany was one of the main European centres in this new field of inquiry thanks largely to the Medici Grand Dukes who patronised and sustained research and teaching whilst also taking a significant personal interest in plants and medicine This is the first major reconstruction of this new world of plants in sixteenth century Tuscany Focusing primarily on the medical use of plants this book also shows how plants while maintaining their importance in therapy began to be considered and studied for themselves and how this new understanding prepared the groundwork for the science of botany More broadly this study explores how the New World's flora impacted on existing botanical knowledge and how this led to the first attempts at taxonomy **"Sexualities, Textualities, Art and Music in Early Modern Italy "** Linda L. Carroll, 2017-07-05 Taking as axiomatic the concept that artistic output does not simply reflect culture but also shapes it the essays in this interdisciplinary collection take a holistic approach to the cultural fashioning of sexualities drawing on visual art theatre music and literature in sacred and secular contexts Although there is diversity in disciplinary approach the interpretations and readings offered in each essay have a historical basis Approaching the topic from the point of view of both visual and auditory media this volume paints a comprehensive picture of artists' challenges to erotic boundaries and

contributes to new historicizing thinking on sexualities Collectively the essays demonstrate the role played by artistic production visual arts literature theatre and music in fashioning policing and challenging early modern sexual boundaries and thus help to identify the ways in which the arts contributed to both the disciplining and the exploration of a range of sexualities

Our Dogs, Our Selves, 2016-09-12 The ubiquity of references to dogs in medieval and early modern texts and images must at some level reflect their actual presence in those worlds yet scholarly consideration of this material is rare and scattered across diverse sources This volume addresses that gap bringing together fifteen essays that examine the appearance meaning and significance of dogs in painting sculpture manuscripts literature and legal records of the period reaching beyond Europe to include cultural material from medieval Japan and Islam While primarily art historical in focus the authors approach the subject from a range of disciplines and with varying methodology that ultimately reveals as much about dogs as about the societies in which they lived Contributors are Kathleen Ashley Jane Carroll Emily Cockayne John Block Friedman Karen M Gerhart Laura D Gelfand Craig A Gibson Walter S Gibson Nathan Hofer Jane C Long Judith W Mann Sophie Oosterwijk Elizabeth Carson Pastan Donna L Sadler Alexa Sand and Janet Snyder Piranesi Unbound Carolyn Yerkes, Heather Hyde Minor, 2020-09 Layers by Heather Hyde Minor Lost and found by Carolyn Yerkes Pages by Carolyn Yerkes Dedicated and sent by Heather Hyde Minor Bound by Heather Hyde Minor Sold by Carolyn Yerkes
