The Other Victorians A Study Of Sexuality And Pornography In Mid Nineteenth Century England:

The Other Victorians Steven Marcus, 2017-07-12 Taking as his point of departure the authors the audience and the texts of Victorian writings on sex in general and of Victorian pornography in particular Steven Marcus offers a startling and revolutionary perspective on the underside of Victorian culture The subjects dealt with in *The Other Victorians* are not only those to have been shocking in the Victorian period The way these subjects were regarded and the way our notions of the Victorians continue to change as the efforts of contemporary scholarship restore them to their full historical dimensions are matters today of some surprise and wonder Making use for the first time of the extensive collection of Victoriana at the Kinsey Institute for Sex Research Marcus first examines the writings of Dr William Acton who may be said to represent the official views of sexuality held by Victorian society and of Henry Spencer Ashbee the first and most important bibliographer scholar of pornography He then turns to the most significant work of its kind from the period the eleven volume anonymous autobiography *My Secret Life* There follows an analysis of four pornographic Victorian novels an analysis that throws an oblique but fascinating light on the classics of Victorian literature and a review of the odd flood of Victorian publications devoted to flagellation The book concludes with a chapter propounding a general theory of pornography as a sociological phenomenon With the publication of *The Other Victorians* understanding of this period took a giant stride forward Most of the writers and writings discussed by Marcus belong to Victorian sub literature rather than to literature proper in this way the work remains connected to a consideration of the exotic sub literature A brilliantly written book in its own right this work transformed the study of the Victorian period as did no other [THE OTHER VICTORIANS STEVEN MARCUS, 1966](#) [The Other Victorians](#) Steven Marcus (Rapporteur), 1975 [The Other Victorians](#) Steven Marcus, 2009 *The Routledge History of Sex and the Body* Sarah Toulalan, Kate Fisher, 2013-03-20 The Routledge History of Sex and the Body provides an overview of the main themes surrounding the history of sexuality from 1500 to the present day The history of sex and the body is an expanding field in which vibrant debate on for instance the history of homosexuality is developing This book examines the current scholarship and looks towards future directions across the field The volume is divided into fourteen thematic chapters which are split into two chronological sections 1500 1750 and 1750 to present day Focusing on the history of sexuality and the body in the West but also interactions with a broader globe these thematic chapters survey the major areas of debate and discussion Covering themes such as science identity the gaze courtship reproduction sexual violence and the importance of race the volume offers a comprehensive view of the history of sex and the body The book concludes with an afterword in which the reader is invited to consider some of the tensions problems and areas deserving further scrutiny Including contributors renowned in their field of expertise this ground breaking collection is essential reading for all those interested in the history of sexuality and the body **Narrating Empire and Domesticity in Neo-Victorian Fiction** Marlena Tronicke, 2025-05-12 Fiction classified as neo Victorian has steadily emerged as a crucial mode of British cultural

production It is no coincidence that this most recent Victorian renaissance is taking shape in a climate of widespread empire nostalgia with imperial colonial legacies being relegated to a distant elsewhere In its critical re visitations of the nineteenth century neo Victorianism has the potential to intervene in this often selective memory of Britain s imperial past Nevertheless systematic re readings of empire have so far played a comparatively minor role in neo Victorian scholarly debate This monograph addresses this lacuna by examining how neo Victorianism negotiates constructions of empire in conjunction with the domestic Drawing on a range of neo Victorian novels as well as their Victorian intertexts and bringing these into dialogue with postcolonial theory it asks how neo Victorian fiction engages with perpetuates or subverts Victorian imaginaries of urban British centres in opposition to remote imperial margins It examines why domesticity broadly understood as ideologically charged concepts of family home and belonging based on formations of gender sexuality and class can never be constituted independently of empire In addition the book raises questions regarding neo Victorianism s larger potentiality of narrating empire suggesting that it is precisely the disorienting moments that constitute a characteristically neo Victorian mode of exploring the entanglements of empire and domesticity
