understandings of southeastern Labrador Departing from the conventional view that coastal Labrador has distinct Inuit and non Inuit regions he argues that the coast should be viewed as a continuum of Inuitness Encounters unravels the social implications of the region s complex mercantile fishery describes how twentieth century military and resource development have impacted Labrador s seasonal economy and suggests that Newfoundland continues to use Labrador as a colony Kennedy uses field research he conducted in 2013 to describe the origins current economies and future challenges of the region s tiny villages Although he is a strong supporter of Aboriginal land claims Kennedy explores the impact of identity politics in the region showing how land claims based solely on geography can unintentionally create inequities Drawing on decades of field and archival research Kennedy demonstrates how Aboriginal politics are transforming society in southeastern Labrador empowering local people to overcome the stigmas of history and finally acknowledge their Inuit ancestry   The Archaeology of North Pacific Fisheries Madonna L.
