The Oxford History Of The American People Volume Two 1789 1877:

The Oxford History of the American People, V. 2 Samuel Eliot Morison, 1972 *Colonial Americans at Work* Herbert A. Applebaum, 1996 *Colonial Americans at Work* is a study of the work and occupations of the inhabitants of British North America from the time of the founding of the colonies in Virginia and Massachusetts up to the Revolutionary War. The book examines the work ethics of various groups, classes, and genders as well as the social and economic environments in which they carried on their work. The book is broad in scope, dealing with farmers, artisans, laborers, wage workers, women, Indians, indentured servants, seamen, merchants, professionals, and traders. The American Work Ethic and the Changing Work Force Herbert Applebaum, 1998-06-25 A major force in American society, the work ethic has played a pivotal role in U.S. history, affecting cultural, social, and economic institutions. But what is the American work ethic? Not only has it changed from one era to another, but it varies with race, gender, and occupation. Considering such diverse groups as Colonial craftsmen, slaves, 19th-century women, and 20th-century factory workers, this book provides a history of the American work ethic from Colonial times to the present. Tracing both continuities and differences, the book is divided into sections on the Colonial era, the 19th century, and the 20th century, and includes chapters on both major occupational groups such as farmers, factory workers, laborers, and gender, racial, and ethnic minorities. This approach, which covers all major groups in U.S. history, enables the reader to discern how the work ethic applied to different occupational and ethnic groups over time. The book subjects the work ethic to an analysis based on historical, sociological, economic, and anthropological perspectives and provides an analysis of current thinking about how the work ethic applied to various groups and classes in different historical periods. *John C. Calhoun and the Roots of War* Teresa Noel Celsi, Thomas A. Durwood, 1991 A biography of the senator from South Carolina who fought for the South's interests and to keep the institution of slavery.

The Oxford History of Historical Writing Stuart Macintyre, Juan Miguashca, Attila Pók, 2011-10-27 Volume 4 of *The Oxford History of Historical Writing* offers essays by leading scholars on the writing of history globally from 1800 to 1945. Divided into four parts, it first covers the rise, consolidation, and crisis of European historical thought and the professionalization and institutionalization of history. The chapters in Part II analyze how historical scholarship connected to various European national traditions. Part III considers the historical writing of Europe's Offspring: the United States, Canada, South Africa, Australia, New Zealand, Mexico, Brazil, and Spanish South America. The concluding part is devoted to histories of non-European cultural traditions: China, Japan, India, South East Asia, Turkey, the Arab world, and Sub-Saharan Africa. This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world. This volume aims at once to provide an authoritative survey of the field and especially to provoke cross-cultural comparisons. Triumph H. W. Crocker, 2023-10-10 Updated from its original publication over 20 years ago, a sweeping and often epic history of the Catholic Church. *Triumph* H.W.
