Paris to the Pyrenees David Downie, 2021-11-15 Part adventure story part cultural history this enjoyably offbeat travelogue explores the phenomenon of the spiritual pilgrimage Booklist Driven by curiosity wanderlust and health crises Downie and his wife walk across Paris on the old pilgrimage route Rue Saint Jacques then trek about 750 miles south to Roncesvalles Spain The eccentric route would take 72 days on Roman roads and The Way of Saint James the 1 100 year old pilgrimage network leading to the sanctuary of Saint James the Greater in Spain It is best known as El Camino de Santiago de Compostela The Way for short The object of any pilgrimage is an inward journey manifested in a long reflective walk For Downie the inward journey meets the outer one More than 20 000 pilgrims take the highly commercialized Spanish route annually but few cross France Downie had a goal to go from Paris to the Pyrenees on age old trails making the pilgrimage in his own maverick way Pilgrims Society and Public Diplomacy, 1895-1945 Stephen Bowman, 2018-02-01 Drawing on rich archival research this book explores how the elite network of the Pilgrims Society whose members included J P Morgan and Andrew Carnegie attempted to influence the Anglo American relationship in the days before it became special The Three Cities: Lourdes, Rome and Paris Emile Zola, 2016-08-25 BEFORE perusing this work it is as well that the reader should understand M Zola s aim in writing it and his views as distinct from those of his characters upon Lourdes its Grotto and its cures A short time before the book appeared M Zola was interviewed upon the subject by his friend and biographer Mr Robert H Sherard to whom he spoke as follows Lourdes came to be written by mere accident In 1891 I happened to be travelling for my pleasure with my wife in the Basque country and by the Pyrenees and being in the neighbourhood of Lourdes included it in my tour I spent fifteen days there and was greatly struck by what I saw and it then occurred to me that there was material here for just the sort of novel that I like to write a novel in which great masses of men can be shown in motion un grand mouvement de foule a novel the subject of which stirred up my philosophical ideas It was too late then to study the question for I had visited Lourdes late in September and so had missed seeing the best pilgrimage which takes place in August under the direction of the Peres de la Misericorde of the Rue de l Assomption in Paris the National Pilgrimage as it is called These Fathers are very active enterprising men and have made a great success of this annual national pilgrimage Under their direction thirty thousand pilgrims are transported to Lourdes including over a thousand sick persons So in the following year I went in August and saw a national pilgrimage and followed it during the three days which it lasts in addition to the two days given to travelling After its departure I stayed on ten or twelve days working up the subject in every detail My book is the story of such a national pilgrimage and is accordingly the story of five days It is divided

into five parts each of which parts is limited to one day      *The Gold Star Mother Pilgrimages of the 1930s* John W. **The Paris Metro** Susan L. Plotkin, 2000-12 The metro may be a mere hundred years old but it tells a tale of France twenty times as long The story begins in the fifth century BC when wild Celtic tribes roamed the countryside of Gaul Then Julius Caesar imposed a Roman rule that lasted five hundred years and forced the Celts to settle down All that seems like only yesterday to a Frenchman because those Celts and Romans are close friends to every reader of the French comic book series Asterix Asterix and his fellow Celts live quite happily in a small fortified enclave in Brittany in northwestern France Their idyllic primitive existence is occasionally intruded upon by those nasty Roman conquerors but the Celts always manage to get the best of the Romans despite great odds Al sia M tro Line 4 The Battle of Al sia 52 BC is the oldest event commemorated in the Paris Metro The Celtic warrior Vercing torix managed to unite competing tribes against the Romans in one last attempt to save Gallic independence It was not an easy task It was difficult to live with let alone lead these autonomous quarrelsome groups Vercing torix planned to wage hit and run guerrilla warfare to starve the Romans into defeat by destroying the crops in their path as they penetrated deeper into Gaul in pursuit of the pesky Celts In the town of Bourges the local population refused to allow the destruction of their wheat a fatal mistake Caesar descended on the town and confiscated it for his hungry troops With renewed energy the Romans gave chase The Celts retreated to a high plateau called Al sia where they were quickly surrounded by Caesar s forces The table was now turned Caesar built a fortification around Al sia twelve and a half miles in circumference It consisted of a double row of spikes one facing inward and the other outward which prevented both escape and the re provisioning of the rebels The Celts had only a month s worth of provisions but somehow they held out for two by which time the men were famished and exhausted Vercing torix surrendered Few lives had been lost in battle but countless numbers died of starvation Vercing torix was imprisoned in Rome where six years later when he was all but forgotten Caesar had him strangled to death Both the Celts who lost and the Romans who won have contributed much to French culture so it s a tricky thing for the French to say whether Al sia was a victory or a defeat One thing is clear in real life the Celts did not always win In the end it was most likely the mountains of horse manure that gave birth to the Paris Metro During the last quarter of the 19th century Paris did not lack the means of transport What it patently lacked was a transportation system There were competing omnibus lines trams trains and private conveyances all overlapping most taking roundabout routes throughout the city hindering one

another and certainly hindering business Forty lines of horse drawn omnibuses traversed Paris in 1870 and ten thousand horses were required to pull them The maintenance of the horses ate up fifty percent of the entire company budget Each omnibus held about 20 passengers half of them riding on top of the carriage By the turn of the century the omnibuses carried as many as forty people each still with many sitting on the carriage roof The roads were made of cobblestones or wood planks or sometimes just hardened mud there were no shock absorbers on the carriages and the stench from the horse manure was overwhelming One hundred million passengers used the omnibuses that year probably half of them holding perfumed handkerchiefs to their noses to ward off the stench
