Published in 1997 Routledge is an imprint of Taylor Francis an Informa company *The International Politics of Eurasia: v. 9: The End of Empire? Comparative Perspectives on the Soviet Collapse* S. Frederick Starr, Karen Dawisha, 2016-09-16 First Published in 1997 This book is the ninth in a series of ten volumes produced by the Russian Littoral Project The project shares the conviction that the transformation of the former Soviet republics into independent states demands systematic analysis of the determinants of the domestic and foreign policies of the new countries The series of volumes is intended to provide a basis for comprehensive scholarly study of these issues This volume was shaped by the author's view that future scholarship about the post Soviet world requires both specialized research and broad gauge studies that carefully juxtapose the breakup of the Soviet empire with the transformation of other multinational empires *Weimar Culture* Peter Gay, 2001-12-17 A study of German culture between the two wars this book brilliantly traces the rise of the artistic literary and musical culture that bloomed ever so briefly in the 1920s amid the chaos of Germany's tenuous post World War I democracy and crashed violently in the wake of Hitler's rise to power Includes a new Introduction 16 illustrations **Politics of Ideocracy** Jaroslaw Piekalkiewicz, Alfred Wayne Penn, 1995-01-01 Explains why and how ideocratic and totalitarian governments emerge establish themselves evolve eventually collapse and disintegrate or transform themselves into new ideocracies **Why Didn't the Press Shout?** Robert Moses Shapiro, 2003 This book brings together contributions by thirty scholars of journalism and history who look at what was reported about the Holocaust in the press of more than a dozen countries and languages The studies examine the news media in America England and the Soviet Union in Nazi Germany and Fascist Italy in the Vatican in occupied countries like Romania Hungary Greece and Poland and in Palestine under the British Mandate By and large the news media in the Allied countries neglected the story while those in Nazi dominated countries treated news related to the Holocaust in a wholly tendentious way Thus the press for a variety of reasons did not cover the Holocaust one of the central events of the twentieth century As this book thoroughly demonstrates it was perhaps the greatest ethical professional and political failure of the news media during World War II If the press had been more responsible and had informed the public in the West early enough and thoroughly enough the history of the Holocaust might have been different and millions of victims might have survived Published in association with Yeshiva University Press *Totalitarian and Authoritarian Regimes* Juan José Linz, 2000 Originally a chapter in the Handbook of Political Science this analysis develops the fundamental distinction between totalitarian and authoritarian systems It emphasizes the personalistic lawless non ideological type of authoritarian rule the author calls the sultanistic regime **La quiebra de las democracias** Juan J. Linz, 2021-09-09 La presente obra de Juan J Linz 1926 2013 uno de los nombres más sobresalientes de las ciencias sociales del siglo XX aborda el fenómeno de la crisis de las democracias y el ascenso de los regímenes autoritarios en el marco de la Europa de entreguerras con especial interés por los casos históricos de la Alemania de Weimar y la II República española Obra de importancia capital para la renovación de los estudios sobre los desafíos de las democracias contemporáneas Linz responde

a las tesis deterministas que interpretaban la quiebra de las democracias como un fenómeno predeterminado por el estallido de la Gran Depresión subrayando la importancia de las variables específicamente políticas que explican el hundimiento de los sistemas parlamentarios en el periodo de entreguerras Prólogo de Juan Francisco Fuente ***Prophet of Community*** Eugene Lunn, 2023-11-10 Gustav Landauer literary critic mystical philosopher and left wing activists was Germany's major anarchist thinker at the beginning of the twentieth century In this full scale intellectual biography Lunn depicts the evolution of Landauer's social thought a rich terrain within which to examine afresh some intellectual crosscurrents of the Wilhelmian era Landauer's work in the various circles and movements of his social milieu after 1900 including anarchist youth movement expressionist and Zionist groups reveal a convergence of volkisch and communitarian ideas with libertarian forms of socialist democracy The study of this kind of romantic socialism in revolt against both industrial modernity and authoritarian government highlights the inadequacy of viewing volkisch themes exclusively in terms of Nazi roots What emerges from this study is the appeal of antiauthoritarian and communitarian ideas for middle class Left intellectuals dissatisfied with the official Social Democratic Party In the light of the tragic failures of democratic and socialist forces to gain middle class support during the Weimar Republic and of the Nazis antidemocratic uses of Gemeinschaft this earlier search for a communitarian democracy gains in importance This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 ***Ruling Oneself Out*** Ivan Ermakoff, 2008-04-21 ***Ruling Oneself Out*** develops a sociological theory to account for collective abdications of power such as those of the German Reichstag in 1933 and the French parliament in 1940 **Canadian Conservative Political Thought** Lee Trepanier, Richard Avramenko, 2023-03-24 This book corrects an imbalance in Canadian political literature through offering a conservative account of Canadian political thought Across 15 chronologically organized chapters and with a mixture of established and rising scholars the book offers an investigation of the defining features and characteristics of Canadian conservative political thought asking what have Canadian conservative political thinkers and practitioners learned from other traditions and in turn what have they contributed to our understanding of conservative political thought today Rather than its culmination Canadian Conservative Political Thought will be the beginning of conservative political thought's recovery and will spark debates and future research The book will be a great resource for courses on Canadian politics history political philosophy and conservatism Canadian Studies and political theory **The Great Escape** Kati Marton, 2006-10-17 Extravagantly praised by critics and readers this stunning story by bestselling author Kati Marton tells of the breathtaking journey of nine extraordinary men from Budapest to the New World what they experienced along their dangerous route and how they changed America and the world This is the unknown chapter of World War II the tale of nine

men who grew up in Budapest's brief Golden Age then driven from Hungary by anti-Semitism fled to the West especially to the United States and changed the world These nine men each celebrated for individual achievements were part of a unique group who grew up in a time and place that will never come again Four helped usher in the nuclear age and the computer two were major movie myth makers two were immortal photographers and one was a seminal writer The Great Escape is a groundbreaking poignant American story and an important untold chapter of the tumultuous last century
