**The Patient Griselda Myth** Madeline Rüegg, 2019-06-04 From the 14th until the 19th century the last novella of Boccaccio's Decameron also known as the Griselda story has been translated and adapted countless times in many European languages This story's success can be explained by considering it a myth and analysing how this myth engages with contemporary discourses such as the definition of the ideal wife the querelle des femmes the socio political consequences of social exogamy and tyranny

**The Evolution of the Patient Woman** Grace Annelyse McCarthy, 2015 English literary tradition contains a progression of the character Patient Griselda through narratives by Geoffrey Chaucer John Phillips and Thomas Dekker Little critical attention has been paid to Patient Griselda stories and much of the criticism contextualizes or dismisses Patient Griselda rather than engaging in close reading of the character Each successive storyteller produced and reproduced a slightly different Patient Griselda for their generation however and examining the evolution of Patient Griselda allows specific differences in the narratives to come to light These key narrative differences suggest a strong argument for Thomas Dekker's The Pleasant Comedy of Patient Grissil as the most immediate Griselda source for Shakespeare's The Winter's Tale Scholars have largely ignored the Patient Griselda influences in The Winter's Tale What little scholarship has been done on this topic attempts to connect Shakespeare's Griselda story elements to Chaucer The similarities between Dekker's Griselda and Shakespeare's play however are too significant to ignore Within The Winter's Tale are elements from Dekker's Griselda story which exist nowhere else in the English literary tradition of Patient Griselda These elements include instances of the words patient and patience close parallels between characters as well as similar narrative and plot structures

*Time and Gender on the Shakespearean Stage* Sarah Lewis, 2020-09-24 This book analyses the cultural and theatrical intersections of early modern temporal concepts and gendered identities Through close readings of the works of Shakespeare Middleton Dekker Heywood and others across the genres of domestic comedy city comedy and revenge tragedy Sarah Lewis shows how temporal tropes are used to delineate masculinity and femininity on the early modern stage and vice versa She sets out the ways in which the temporal constructs of patience prodigality and revenge as well as the dramatic identities that are built from those constructs and the experience of playgoing itself negotiate a fraught opposition between action in the moment and delay in the duration This book argues that looking at time through the lens of gender and gender through the lens of time is crucial if we are to develop our understanding of the early modern cultural construction of both

**Jane Eyre's Fairytale Legacy at Home and Abroad** Abigail Heiniger, 2016-03-02 Exploring the literary microcosm inspired by Brontë's debut novel Jane Eyre's Fairytale Legacy at Home and Abroad focuses on the nationalistic stakes of the mythic and fairytale paradigms that were incorporated into the heroic female bildungsroman tradition Jane Eyre Abigail Heiniger argues is a heroic changeling

indebted to the regional pre Victorian fairy lore Charlotte Bront heard and read in Haworth an influence that Bront repudiates in her last novel *Villette* While this heroic figure inspired a range of female writers on both sides of the Atlantic Heiniger suggests that the regional aspects of the changeling were especially attractive to North American writers such as Susan Warner and L M Montgomery who responded to *Jane Eyre* as part of the Cinderella tradition Heiniger contrasts the reactions of these white women writers with that of Hannah Crafts whose *Jane Eyre* influenced *The Bondswoman's Narrative* rejects the Cinderella model Instead Heiniger shows Crafts creates a heroic female bildungsroman that critiques fairytale narratives from the viewpoint of the obscure oppressed workers who remain forever outside the tales of wonder produced for middle class consumption Heiniger concludes by demonstrating how Bront's middle class American readers projected the self rise ethic onto *Jane Eyre* mirroring the novel in nineteenth century narratives of American identity formation

Stories from Famous Ballads Grace Greenwood (pseud. [i.e. Sarah Jane Clarke, afterwards Lippincott.]), 1872      **Stories from famous ballads, by Grace Greenwood** Sara Jane Lippincott, 1872      He Knew She was Right Jane Nardin, 1989

Trollope's mother wife and a friend he loved platonically most of his life provided him three very different views of the Victorian woman And according to Jane Nardin they were responsible for the dramatic shift in his treatment of women in his novels This is the first book in Sandra Gilbert's *Ad Feminam* series to examine a male author Nardin initially analyzes the novels Trollope wrote from 1855 to 1861 in which male concerns are central to the plot and women are angelic heroines submissive and self sacrificing Even the titles of his novels written during this period are totally male oriented *The Three Clerks* *Doctor Thorne* and *The Bertrams* all refer to men Shortly after meeting Kate Field Trollope wrote *Orley Farm* which refers to the estate an angry woman steals from her husband and which marks a change in the attitudes toward women evident in his novels His next four books *The Small House at Allington* *Rachel Ray* *Can You Forgive Her* and *Miss Mackenzie* prove that women's concerns had become central in his writing Nardin examines specific novels written from 1861 to 1865 in which Trollope with increasing vigor subverts the conventional notions of gender that his earlier novels had endorsed Nardin argues that his novels written after 1865 and often recognized as feminist are not really departures but merely refinements of attitudes Trollope exhibited in earlier works

**The Story of Griselda** Giovanni Boccaccio, 1909      *Renaissance Clothing and the Materials of Memory* Ann Rosalind Jones, Peter Stallybrass, 2000

During the late sixteenth century fashion first took on the sense of restless change in contrast to the older sense of fashioning or making As fashionings clothes were perceived as material forms of personal and social identity which made the man or woman In *Renaissance Clothing and the Materials of Memory* Jones and Stallybrass argue that the making and transmission of fabrics and clothing were central to the making of Renaissance culture Their examination explores the role of clothes as forms of memory transmitted from master to servant from friend to friend from lover to lover This 2001 book offers a close reading of literary texts paintings textiles theatrical documents and ephemera to reveal how clothing and textiles were crucial to the making and unmaking of concepts of status

gender sexuality and religion in the Renaissance The book is illustrated with a wide range of images from portraits to embroidery

**Tudor and Stuart Consorts** Aidan Norrie,Carolyn Harris,J. L. Laynesmith,Danna R. Messer,Elena Woodacre,2022-07-20 This book examines the lives and tenures of all the consorts of the Tudor and Stuart monarchs of England between 1485 and 1714 as well as the wives of the two Lords Protector during the Commonwealth The figures in Tudor and Stuart Consorts are both incredibly familiar especially the six wives of Henry VIII and exceedingly unfamiliar such as George of Denmark the husband of Queen Anne These innovative and authoritative biographies recognise the important role consorts played in a period before constitutional monarchy in addition to correcting popular assumptions that are based on limited historical evidence the chapters provide a fuller picture of the role of consort that goes beyond discussions of exceptionalism and subversion This volume and its companions reveal the changing nature of English consortship from the Norman Conquest to today

The Subject of Tragedy (Routledge Revivals) Catherine Belsey,2014-06-17 First published in 1985 The Subject of Tragedy takes the drama of the sixteenth and seventeenth centuries as the starting point for an analysis of the differential identities of man and woman Catherine Belsey charts in a range of fictional and non fictional texts the production in the Renaissance of a meaning for subjectivity that is identifiably modern The subject of liberal humanism self determining free origin of language choice and action is highlighted as the product of a specific period in which man was the subject to which woman was related
