#### The Peninsular War A New History:

The Peninsular War Charles Esdaile, 2015-03-17 A stunning look at Napoleon s early nineteenth century campaign across the Iberian Peninsula from historian Charles Esdaile Drawing on first hand accounts of the conflict Esdaile paints an indelible picture of the cruelties of Napoleonic warfare His vigorous writing comprehensive analysis and even handed judgments make this an indispensable treatment of one of the watersheds of European history Publishers Weekly At the end of the eighteenth century Spain remained one of the world's most powerful empires Thanks to a long period of enlightened absolutism Portugal too was prosperous But by 1808 everything had changed Portugal was under occupation and ravaged by famine disease economic problems and political instability Spain had imploded and worse was to come For the next six years the Iberian Peninsula for three centuries a byword for religious and military aggression became itself the helpless victim of others suffering perhaps over a million deaths while troops from all over Europe tore it to pieces Charles Esdaile s brilliant new history of the Peninsular War makes plain the scope of the tragedy and its far reaching effects especially the poisonous legacy that produced the Spanish civil war of 1936 1939 Portugal suffered unparalleled disaster with casualties that have no comparison in its history For Britain the Peninsular War became the arena in which the redcoats of first Moore and then Wellington created one of her great national epics For Britain it was also the war that established a dazzlingly powerful military machine that both never lost a battle and became the first invading army to set foot on the soil of Napoleonic France The Peninsular War tells this compelling terrible story for a new generation with all the detail color and painstaking research for which Charles Esdaile has become famous It is a monumental work of military history that has all the great military set pieces but never loses sight of the people of Spain and Portugal and the suffering they endured This is a classic work of history that will set the standard for all that will come after it I found myself consuming it like a devouring flame It is brilliant indispensable and challenging I suspect this will become the standard work on the Peninsula War and it certainly deserves to be Bernard Cornwell Well written and featuring rational conclusions based on solid research it is highly recommended Lt Col Charles M Minyard Library Journal Wellington's History of the Peninsular War Stuart Reid, 2019-05-30 An historic account of the Peninsula War written by the man leading forces against the French Arthur Wellesley 1st Duke of Wellington Though pressed many times to write about his battles and campaigns the Duke of Wellington always replied that people should refer to his published dispatches Yet Wellington did in effect write a history of the Peninsular War in the form of four lengthy memoranda summarizing the conduct of the war in 1809 1810 and 1811 respectively These lengthy accounts demonstrate Wellington's unmatched appreciation of the nature of the war in Spain and Portugal and relate to the operations of the French and Spanish forces as well as the Anglo Portuguese army under his command Unlike personal diaries or journals written by individual soldiers with their inevitably limited knowledge Wellington was in an unparalleled position to provide a comprehensive overview of the war Equally the memoranda were written as the war unfolded not tainted with the

knowledge of hindsight providing a unique contemporaneous commentary Brought together by renowned historian Stuart Reid with reports and key dispatches from the other years of the campaign the result is the story of the Peninsular War told through the writings of the man who knew and understood the conflict in Iberia better than any other These memoranda and dispatches have never been published before in a single connected narrative Therefore Wellington's History of the Peninsular War 1808 1814 offers a uniquely accessible perspective on the conflict in the own words of Britain's greatest general History of the Peninsular War (Complete) Sir Charles William Chadwick Oman, Robert Southey, I am not the heir of Louis XIV I am the heir of Charlemagne wrote Napoleon in one of those moments of epigrammatic self revelation which are so precious to the students of the most interesting epoch and the most interesting personality of modern history. There are historians who have sought for the origins of the Peninsular War far back in the eternal and inevitable conflict between democracy and privilege there are others who accepting the Emperor's own version of the facts have represented it as a fortuitous development arising from his plan of forcing the Continental System upon every state in Europe To us it seems that the moment beyond which we need not search backward was that in which Bonaparte formulated to himself the idea that he was not the successor of the greatest of the Bourbons but of the founder of the Holy Roman Empire It is a different thing to claim to be the first of European monarchs and to claim to be the king of kings Louis XIV had wide reaching ambitions for himself and for his family but it was from his not very deep or accurate knowledge of Charlemagne that Napoleon had derived his idea of a single imperial power bestriding Europe of a monarch whose writ ran alike at Paris and at Mainz at Milan and at Hamburg at Rome and at Barcelona and whose vassal princes brought him the tribute of all the lands of the Oder the Elbe and the middle Danube There is no need for us to trace back the growth of Napoleon's conception of himself as the successor of Charlemagne beyond the winter of 1805 6 the moment when victorious at Austerlitz and master for the first time of Central Europe he began to put into execution his grandiose scheme for enfeoffing all the realms of the Continent as vassal states of the French Empire He had extorted from Francis of Austria the renunciation of his meagre and time worn rights as head of the Holy Roman Empire because he intended to replace the ancient shadow by a new reality The idea that he might be Emperor of Europe and not merely Emperor of the French was already developed though Prussia still needed to be chastised and Russia to be checked and turned back on to the ways of the East It was after Austerlitz but before Jena that the foundations of the Confederation of the Rhine were laid 5 and that the Emperor took in hand the erection of that series of subject realms under princes of his own house which was to culminate in the new kingdom of Spain ruled by Joseph Napoleon the First By the summer of 1806 the system was already well developed the first modest experiment the planting out of his sister Eliza and her insignificant husband in the duchy of Lucca and Piombino was now twelve months old There had followed the gift of the old Bourbon kingdom of Naples to Joseph Bonaparte in February 1806 and the transformation of the Batavian Republic into Louis Bonaparte's kingdom of Holland in June The Emperor's brother in law Joachim Murat had

been made Grand Duke of Berg in March his sister Pauline Duchess of Guastalla in the same month It cannot be doubted that his eve was already roving all round Europe marking out every region in which the system of feudatory states could be further extended At the ill governed realms of Spain and Portugal it is certain that he must have taken a specially long glance He had against the house of the Bourbons the grudge that men always feel against those whom they have injured He knew that they could never forgive the disappointed hopes of 1799 nor the murder of the Duc d Enghien however much they might disguise their sentiments by base servility What their real feelings were might be guessed from the treacherous conduct of their kinsmen of Naples whom he had just expelled from the Continent The Bourbons of Spain were at this moment the most subservient and the most ill used of his allies Under the imbecile guidance of his favourite Godoy Charles IV had consistently held to the league with France since 1795 and had thereby brought down untold calamities upon his realm Nevertheless Napoleon was profoundly dissatisfied with him as an ally The seventy two million francs of subsidies which he was annually wringing from his impoverished neighbour seemed to him a trifle The chief gain that he had hoped to secure when he goaded Spain into war with England in 1804 had been the assistance of her fleet by whose aid he had intended to gain the control of the narrow seas and to dominate the Channel long enough to enable him to launch his projected invasion against the shores of Kent and Sussex But the Spanish navy always more formidable on paper than in battle had proved a broken reed The flower of its vessels had been destroyed at Trafalgar There only remained in 1806 a few ships rotting in harbour at Cadiz Cartagena and Ferrol unable even to concentrate on account of the strictness of Collingwood's blockade Napoleon was angry at his ally s impotence and was already reflecting that in hands more able and energetic than those of Charles IV Spain might give aid of a very different kind In after years men remembered that as early as 1805 he had muttered to his confidants that a Bourbon on the Spanish throne was a tiresome neighbour too weak as an ally yet dangerous as a possible enemy For in spite of all the subservience of Charles IV the Emperor believed and believed quite rightly that a Bourbon prince must in his heart loathe the unnatural alliance with the child of the Revolution But in 1806 Bonaparte had an impending war with Prussia on his hands and there was no leisure for interfering in the affairs of the Peninsula Spain he thought could wait and it is improbable that he had formulated in his brain any definite plan for dealing with her The Cambridge History of the Napoleonic Wars: Volume 2, Fighting the Napoleonic Wars Bruno Colson, Alexander Mikaberidze, 2023-03-02 The Napoleonic Wars saw almost two decades of brutal fighting Fighting took place on an unprecedented scale from the frozen wastelands of Russia to the rugged mountains of the Peninsula from Egypt's Lower Nile to the bloody battlefield of New Orleans Volume II of The Cambridge History of the Napoleonic Wars provides a comprehensive guide to the Napoleonic Wars and weaves together the four strands military naval economic and diplomatic that intertwined to make up one of the greatest conflicts in history Written by a team of the leading Napoleonic scholars this volume provides an authoritative and comprehensive analysis of why the nations went to war the challenges they faced and how the wars were funded and
