The People Have The Floor History Of The Interparliamentary Union:

The People Have the Floor Yefime Zarjevski,1989 **National Parliaments as a Global Institution** Pertti

Alasuutari,2025-01-10 Countries all over the world make decisions of national and international importance in a national parliament Today for a country to have a national parliament is a global norm but this has only been the case for the last few hundred years The development of this remarkable uniformity has seen national parliaments become a global institution National Parliaments as a Global Institution scrutinizes how the current world order comprising national legislatures evolved how parliaments work and how they form a global network or field for the transfer of ideas and information It highlights the remarkably similar structures and practices of national parliaments all around the world with even the opening words of a session replicating those of other parliaments and the four sacred principles that define national parliaments as an institution national sovereignty parliamentary immunity the national interest or common good and the sanctity of fellow parliamentarians By considering national parliaments as a global institution Pertti Alasuutari explores how legislatures symbolize sanctify and naturalize the nation state as the component part of world society **The Emergence of**

International Society in the 1920s Daniel Gorman,2012-08-20 Chronicling the emergence of an international society in the 1920s Daniel Gorman describes how the shock of the First World War gave rise to a broad array of overlapping initiatives in international cooperation Though national rivalries continued to plague world politics ordinary citizens and state officials found common causes in politics religion culture and sport with peers beyond their borders The League of Nations the turn to a less centralized British Empire the beginning of an international ecumenical movement international sporting events and audacious plans for the abolition of war all signaled internationalism s growth State actors played an important role in these developments and were aided by international voluntary organizations church groups and international networks of academics athletes women pacifists and humanitarian activists These international networks became the forerunners of international NGOs and global governance **The Actors of Postnational Rule-Making** Elaine Fahey,2015-07-16 Despite

its centrality to academic discussions of power and influence there is little consensus in legal scholarship over what constitutes an actor in rule making This book explores the range of actors involved in rule making within European Union law and Public International law and focuses especially on actors that are often overlooked by formative and doctrinal approaches Drawing together contributions from many scholars in various fields the book examines such issues as the accommodation of new actors in the process of postnational rule making the visibility or covertness of actors within the process and the role of social acceptance and legitimacy in postnational rule making In its endeavour to render and examine the work and effect of actors often side lined in the study of postnational rule making this book will be of great use and interest to students and scholars of EU law international law and socio legal studies **The Ideal of Parliament in**

Europe since 1800 Remieg Aerts,Carla van Baalen,Henk te Velde,Margit van der Steen,Marie-Luise Recker,2019-11-30 This

edited collection explores the perceptions and memories of parliamentarianism across Europe examining the complex ideal of parliament since 1800 Parliament has become the key institution in modern democracy and the chapters present the evolution of the ideal of parliamentary representation and government and discuss the reception and value of parliament as an institution It is considered both as a guiding concept a Leitidee as well as an ideal an Idealtypus The volume is split into three sections The establishment of parliament in the nineteenth century and the transfer of parliamentary ideals models and practices are described in the first section based on the British and French models The second part explores how the high expectations of parliamentary democracy in newly established states after the First World War gradually started to subside into dissatisfaction Finally the last section attests to its resilience after the Second World War demonstrating the strength of the ideal of parliament and its power to incorporate criticism Examining the history of parliament through concepts and ideals this book traces a transnational European exchange of models routines and discourse Parliamentary Dimensions of Regionalization and Globalization O. Costa, C. Dri, S. Stavridis, 2013-05-20 The end of the Cold War has seen an international proliferation of parliamentary bodies of all types and at all levels How can this process of parliamentarization be assessed and under what conditions do these institutions operate This book explores how regional integration and globalization are developing from a parliamentary perspective Democracy and Development R.C. Bhardwaj, K. Vijayakrishnan, 2018-10-26 Published in 1998 The question of whether democracy and development are allies or adversaries has long been debated and with the triumph of the democratic spirit worldwide the relationship between democracy and development has once again come to attract much attention globally The collapse of the Soviet Union and the developments in Eastern Europe led to considerable rethinking in political circles on the efficacy of the economic policies pursued in those countries and the long term viability of political systems prevalent there Elsewhere several newly industrialized countries are striving to consolidate their gains though there are differing perceptions of whether their politics conform to the classical framework of democracy or not In a remarkable turn around some other countries have initiated measures for economic reforms and structural adjustment setting aside their earlier approaches towards economic management In short the last decades of this millennium have witnessed meaningful efforts worldwide on forging a new partnership between democracy and development In February 1996 the Commonwealth Parliamentary Association jointly organized a conference entitled Parliamentary Democracy and Development Allies or Adversaries with the Wilton Park an international agency of the British Commonwealth and Foreign Office in Wilton House West Sussex United Kingdom The week long conference brought together parliamentarians diplomats administrators political scientists economists and specialists from all over the world The participants shared their views and experiences on diverse aspects of the main theme This publication presents an essentially parliamentary perspective on the correlation between democracy and development based on the discussions at the Wilton Park conference and in the light of current thinking on the subject matter The British Peace Movement 1870-1914 Paul Laity, 2002-01-03 This is the first

detailed scholarly study of the late Victorian and Edwardian peace movement the campaigns of which made a significant impact on political debate especially during the Franco Prussian War 1870-1 the Bulgarian Atrocities campaign 1876-8 Britain's conflict in Egypt 1882 the South African War 1899-1902 and the intensifying international crisis before 1914 The movement's activists included Richard Cobden Herbert Spencer Keir Hardie J A Hobson and Norman Angell Among the first to benefit from the opening of the Peace Society Archive the book focuses on the specialized associations at the heart of the peace movement Paul Laity identifies the existence of different programmes for the achievement of a just permanent peace and offers a new interpretation of the reaction of peace campaigners to war in 1914 At the same time his book makes an important and original contribution to the history of popular politics and political ideas in Britain

The Routledge Handbook of Parliamentary Administrations Thomas Christiansen, Elena Griglio, Nicola Lupo, 2023-05-31 The Routledge Handbook of Parliamentary Administrations brings together an international multidisciplinary group of contributors providing a systematic and comprehensive analysis of parliamentary administrations Including chapters on the administrations of national parliaments in every member state of the European Union in most of the EU candidate countries and in key liberal democracies around the world this book represents a uniquely broad ranging resource Each national system is treated in a consistent manner with authors providing relevant facts figures and critical analysis according to a common framework Additionally it provides coverage of transnational parliamentary administrations in different regions around the globe and includes a number of cross cutting chapters addressing key issues of relevance for a better understanding of parliamentary administrations such as the potential for politicisation professionalisation digitalisation or Europeanisation with the comparative analysis of different national experiences This handbook will enable readers to better comprehend the role and influence of parliamentary administrations and in doing so will enhance our understanding of their importance for the effective functioning of representative democracy more generally The Routledge Handbook of Parliamentary Administrations constitutes a unique tool and prime reference for any researcher scholar or practitioner working in the area of parliamentary and legislative studies governance democracy public policy and administration as well as more widely to European studies general political science and comparative politics Chapters 1 2 and 4 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

International Law and History Ignacio de la Rasilla, 2021-01-21 This interdisciplinary exploration of the modern historiography of international law invites a diverse assessment of the indissoluble unity of the old and the new in the most global of all legal disciplines The study of the history of international law does not only serve a better understanding of how international law has evolved to become what it is and what it is not Its histories which rethink the past in the present also influence our perception of contemporary matters in international law and our understandings of how they may potentially unfold This multi-perspectival enquiry into the

dominant modes of international legal history and its fundamental debates may also help students of both international law and history to identify the historical approaches that best suit their international legal historical perspectives and best address their historical and legal research questions

Parliamentary Institutions in Regional and International Governance Andrea Cofelice, 2018-09-25 This volume offers an original and theoretically grounded conceptualization and measurement of international parliamentary institutions and their role in ensuring the accountability of regional international organizations Through a comparative analysis of the establishment evolution institutional organization oversight and policymaking functions of 22 parliamentary institutions mainly from European African and Latin American regional international organizations the book serves a twofold purpose First it allows assessment of the extent to which parliamentary institutions have measurable influence on the outcome of regional organizations decision making processes Second drawing on the literature on new institutionalism and comparative regionalism the volume investigates the conditions under which the influence of parliamentary institutions is expected to grow thus advancing the understanding of the variation and development of this poorly explored type of international institution The book is aimed at scholars of global governance international organization and comparative regionalism and will also be of interest to parliamentarians and parliamentary practitioners from national and international institutions

Parliamentary Diplomacy in European and Global Governance Stelios Stavridis, Davor Jancic, 2017-02-06 In Parliamentary Diplomacy in European and Global Governance 27 experts from all over the world analyse the fast expanding phenomenon of parliamentary diplomacy Through a wealth of empirical case studies the book demonstrates that parliamentarians and parliamentary assemblies have an increasingly important international role The volume begins with parliamentary diplomacy in Europe because the European Parliament is one of the strongest autonomous institutional actors in world politics The study then examines parliamentary diplomacy in relations between Europe and third countries or regions Mexico Turkey Russia the Mediterranean before turning attention to the rest of the world North and South America Asia Africa and Australia This pioneering volume confirms the worldwide nature and salience of parliamentary diplomacy in contemporary global politics

Bulletin of the Inter-parliamentary Union, 1998 **A New World Order** Anne-Marie Slaughter, 2009-02-09 Global governance is here but not where most people think This book presents the far reaching argument that not only should we have a new world order but that we already do Anne Marie Slaughter asks us to completely rethink how we view the political world It s not a collection of nation states that communicate through presidents prime ministers foreign ministers and the United Nations Nor is it a clique of NGOs It is governance through a complex global web of government networks Slaughter provides the most compelling and authoritative description to date of a world in which government officials police investigators financial regulators even judges and legislators exchange information and coordinate activity across national borders to tackle crime terrorism and the routine daily grind of international interactions National and international judges and regulators can also work closely

together to enforce international agreements more effectively than ever before These networks which can range from a group of constitutional judges exchanging opinions across borders to more established organizations such as the G8 or the International Association of Insurance Supervisors make things happen and they frequently make good things happen But they are underappreciated and worse underused to address the challenges facing the world today The modern political world then consists of states whose component parts are fast becoming as important as their central leadership Slaughter not only describes these networks but also sets forth a blueprint for how they can better the world Despite questions of democratic accountability this new world order is not one in which some world government enforces global dictates The governments we already have at home are our best hope for tackling the problems we face abroad in a networked world order *The Birth of the New Justice* Mark Lewis,2014-02 A history of the attempts to introduce international criminal courts and new international criminal laws after World War I to repress aggressive war war crimes terrorism and genocide

Inter-parliamentary Bulletin ,1993 Restraining Power Through Institutions Alexandru Grigorescu,2023 This book explores the emergence change and consolidation of institutional restraints on power It argues that combining the traditional focus on efforts to acquire power with the Lockean focus on restraining power offers a more complete depiction of international politics and shifts focus away from the actions of a handful of powerful states **The Advocate of Peace** ,1895 **Advocate of Peace and Universal Brotherhood** ,1910 Includes the Annual report of the American Peace Society

Encyclopedia of the United Nations and International Agreements: G to M Edmund Jan Osmańczyk,2003 This thoroughly revised and updated edition is the most comprehensive and detailed reference ever published on United Nations The book demystifies the complex workings of the world s most important and influential international body
