**Looking Backward** Derek L. Phillips, 2014-07-14 When social reformers blame the current ills of Western culture on the loss of community they often evoke an ideal past in which societies were characterized by shared values respect for tradition commitment to the common good and similar attributes Communitarians assert that community was prominent in the past and argue that reclaiming the role community formerly played is necessary to counter the negative effects of individualism and liberal thinking Considering the relevance of community for our moral and political life today Derek Phillips offers the first thorough critique of the historical often nostalgic claims that underlie dominant versions of communitarian philosophy Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Strange New Land** Peter H. Wood, 1996-04-25 For Africans who survived the trans Atlantic journey and were forced to disembark at one of the many ports along the coast of Britain s North American colonies what lay before them was indeed a strange new land Although forms of bondage had existed in West and Central Africa long before the trans Atlantic slave trade began human beings were rarely the main commodity at the marketplace Here in the modern world the enslaved African was inspected assessed auctioned bought sold bartered and treated in any manner the owner saw fit Slaves did not always cooperate They fought and ran away or made the business of commercial farming more difficult by not working efficiently In spite of their condition and despite different ethnic backgrounds and languages enslaved Africans forged a strong sense of community The Africans learned the English language and made it their own They learned Christianity and transformed it Others held fast to Islam or combined their own spiritual beliefs with the faith of their masters And all around them they heard talk of liberty and freedom of the rights of man Not surprisingly many enslaved Africans embraced the idea of liberty as a fundamental right and some even petitioned colonial administrators insisting on that right But the majority simply stole themselves and headed to Northern cities where slavery was less visible and where they might blend in more easily Strange New Land explores the history of slavery and the struggle for freedom before the United States became a nation Beginning with the colonization of North America it documents the transformation of slavery from a brutal form of indentured servitude to a full blown system of racial domination More importantly it surveys black social and cultural life illustrating just how such a diverse group of people from

the shores and hinterlands of West and Central Africa became a community in North America that survives and flourishes today
