**The People's Reformation** Lorna Jane Abray, 1985-01-01      The German People and the Reformation R. Po-chia Hsia, 1988 In the past scholars tended to treat the Reformation as a chapter in the history of ideas emphasizing the thought of the major reformers and the changes in Christian doctrine Today however more and more historians are asking how the revolution in theology affected the lives of ordinary men and women Aware that religious faith is part of the larger cultural and material universe of early modern Europeans these scholars have exploited hitherto neglected sources in an attempt to reconstruct the people's Reformation The twelve essays commissioned for this collection represent the broad spectrum of recent scholarship in the social history of the German Reformation Historians from various countries offer a panorama of different methodological approaches and thematic concerns Some of the essays represent original research others address current historiographical debates still others offer concise syntheses of recently published monographs including seminal works in German The essays are centered around four themes cities and the Reformation the transmitting of the Reformation in print ritual and song women and the family and lastly the impact of the Reformation on education and other aspects of lay culture Back cover

Biographies of a Reformation Martin Christ, 2021-05-07 Biographies of a Reformation Religious Change and Confessional Coexistence in Upper Lusatia c 1520 1635 investigates how religious coexistence functioned in six towns in the multiconfessional region of Upper Lusatia in Western Bohemia Lutherans and Catholics found a feasible modus vivendi through written agreements and regular negotiations This meant that the Habsburg kings of Bohemia ruled over a Lutheran region Lutherans and Catholics in Upper Lusatia shared spaces objects and rituals Catholics adopted elements previously seen as a firm part of a Lutheran confessional culture Lutherans too were willing to incorporate Catholic elements into their religiosity Some of these overlaps

were subconscious while others were a conscious choice This book provides a new narrative of the Reformation and shows that the concept of the urban Reformation where towns are seen as centres of Lutheranism has to be reassessed particularly in towns in former East Germany where much work remains to be done It shows that in a region like Upper Lusatia which did not have a political centre and underwent a complex Reformation with many different actors there was no clear confessionalization By approaching the Upper Lusatian Reformation through important individuals Martin Christ shows how they had to negotiate their religiosity resulting in cross confessional exchange and syncretism *The Imaginative World of the Reformation* Peter Matheson,2000 Views the Reformation as it appeared in pamphlets and sermons woodcuts and paintings poetry and song correspondence and contours of daily life *A Beautiful Ending* John Jeffries Martin,2022-01-01 An award winning historian s revisionary account of the early modern world showing how apocalyptic ideas stimulated political religious and intellectual transformations A masterful synthesis of the prognostications of faith knowledge and politics on a global stage Martin s book illuminates one of the enduring themes that shaped the medieval and early modern world Paula E Findlen Stanford University In this revelatory immersion into the apocalyptic messianic and millenarian ideas and movements that created the modern world John Jeffries Martin performs a kind of empathic time travel entering into the psyche spirituality and temporalities of a cast of historical actors in profound moments of discovery He argues that religious faith Christian Jewish and Muslim did not oppose but rather fostered the making of a modern scientific spirit buoyed along by a providential view of history and nature and a deep conviction in the coming End of the World Through thoughtful attention to the primary sources Martin re reads the Renaissance excavating a religious foundation at the core of even the most radical empirical thinking Familiar icons like Ibn Khald n Columbus Isaac Luria and Francis Bacon emerge startlingly fresh and newly gleaned agents of a history formerly untold and of a modern world made in the image of its imminent end

*Communities and Conflict in Early Modern Colmar* Peter George Wallace,1995 From 1575 to 1730 the citizens of the Alsatian Imperial city of Colmar were divided between Protestant and Catholic communities plagued by chronic warfare and ultimately subjugated by the kingdom of France Drawing on a rich collection of serial archival sources Wallace reconstructs the collective biography of 6 700 civic officials merchants artisans and agricultural workers in order to examine the local impact of confessionalization in a religiously mixed town the effect of warfare on the economic interdependence of town and country and the tensions between French absolutism and traditional civic political culture Economic historians scholars of the Reformation and students of French and German history will find many valuable insights in this multifaceted analysis

*Reading Catechisms, Teaching Religion* Lee Palmer Wandel,2015-10-14 Reading Catechisms Teaching Religion makes two broad arguments First the sixteenth century witnessed a fundamental transformation in Christians Catholic and

Evangelical conceptualization of the nature of knowledge of Christianity and the media through which that knowledge was articulated and communicated Christians had shared a sense that knowledge might come through visions images liturgy catechisms taught that knowledge of Christianity began with texts printed on a page Second codicil catechisms sought not simply to dissolve the material distinction between codex and person but to teach catechumens to see specific words together as texts The pages of catechisms were visual they confound precisely that constructed modern bipolarity word image or conversely that modern bipolarity obscures what sixteenth century catechisms sought to do *Conflicting Visions of Reform* Miriam Usher Chrisman,1996 Cultural and textual analysis of 300 German propaganda pamphlets reveals lay people responding to the Protestant Reformation They urge changes based on the perceptions and aspirations of their social class supporting their proposals by personal interpretations of the Bible *Reformations Compared* Henry A. Jefferies,Richard Rex,2024-03-21 Offers comparative perspectives and fresh insights into the unfolding of the Reformation across the whole of Europe *Oedipus and the Devil* Lyndal Roper,2013-03-01 This bold and imaginative book marks out a different route towards understanding the body and its relationship to culture and subjectivity Amongst other subjects Lyndal Roper deals with the nature of masculinity and femininity **Europe's Reformations, 1450-1650** James D. Tracy,2006-03-23 In this widely praised history noted scholar James D Tracy offers a comprehensive lucid and masterful exploration of early modern Europe s key turning point Establishing a new standard for histories of the Reformation Tracy explores the complex religious political and social processes that made change possible even as he synthesizes new understandings of the profound continuities between medieval Catholic Europe and the multi confessional sixteenth and seventeenth centuries This revised edition includes new material on Eastern Europe on how ordinary people experienced religious change and on the pluralistic societies that began to emerge Reformation scholars have in recent decades dismantled brick by brick the idea that the Middle Ages came to an abrupt end in 1517 Martin Luther s Ninety five Theses fitted into an ongoing debate about how Christians might better understand the Gospel and live its teachings more faithfully Tracy shows how Reformation era religious conflicts tilted the balance in church state relations in favor of the latter so that the secular power was able to dictate the doctrinal loyalty of its subjects Religious reform Catholic as well as Protestant reinforced the bonds of community while creating new divisions within towns villages neighborhoods and families In some areas these tensions were resolved by allowing citizens to profess loyalty both to their separate religious communities and to an overarching body politic This compromise a product of the Reformations though not willed by the reformers was the historical foundation of modern pluralistic society Richly illustrated and elegantly written this book belongs in the library of all scholars students and general readers interested in the origins events and legacy of Europe s Reformation **Bound Choice, Election, and Wittenberg Theological Method** Robert Kolb,2017-01-01 Galvanized by Erasmus teaching on free will Martin Luther wrote *De servo arbitrio* or *The Bondage of the Will* insisting that the sinful human will could not turn itself

to God In this first study to investigate the sixteenth century reception of De servo Robert Kolb unpacks Luther s theology and recounts his followers ensuing disputes until their resolution in the Lutheran churches 1577 Formula of Concord

**Religious War and Religious Peace in Early Modern Europe** Wayne P. Te Brake,2017-01-11 Religious War and Religious Peace in Early Modern Europe presents a novel account of the origins of religious pluralism in Europe Combining comparative historical analysis with contentious political analysis it surveys six clusters of increasingly destructive religious wars between 1529 and 1651 analyzes the diverse settlements that brought these wars to an end and describes the complex religious peace that emerged from two centuries of experimentation in accommodating religious differences Rejecting the older authoritarian interpretations of the age of religious wars the author uses traditional documentary sources as well as photographic evidence to show how a broad range Europeans from authoritative elites to a colorful array of religious dissenters replaced the cultural unity and purity of late medieval Christendom with a variable and durable pattern of religious diversity deeply embedded in political legal and cultural institutions
