The Peoples Republic Of China Red Star Of The East:

The People's Republic of China Jane Werner Watson,1976 A geographic historic and social survey of the People's Republic of China China, a Multimedia Guide Mary Robinson Sive,1982 People's Republic of China, Volumes I and II Frank N. Pieke,2023-12-31 This title was first published in 2002 This two volume set collects in a conveniently accessible form the most influential articles by leading authorities in the study of China It provides an international reference work combined with an authoritative introduction by the editor **The Bloomsbury Handbook of North Korean Cinema** Travis Workman,Dong Hoon Kim,Immanuel Kim,2025-01-23 This first handbook on North Korean cinema contests the assumption that North Korean film is unwatchable in terms of both quality and accessibility refusing to reduce North Korean cinema to political propaganda and focusing on its aesthetic forms and cultural meanings Since its founding in 1948 the Democratic People's Republic of Korea North Korea has played diverse roles a Cold War communist threat to the US the other half of a divided nation to South Korea an ally to the Soviet Union and China one model for anti colonialism to national liberation movements an exotic political and cultural anomaly in the era of globalization This handbook provides a solid and diverse foundation for the expanding scholarship on North Korean cinema It is also a road map for connecting this field to broader issues in film and media studies film history affect and ideology genre and transnational cinema cultures By connecting the worlds of North Korean cinema to broader questions in global cinema studies this book explores the complexity of a national cinema too often reduced to a single image **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1977 To Rule Eurasia's Waves Geoffrey F. Gresh,2020-10-27 The first book to weave Eurasia together through the perspective of the oceans and seas Eurasia's emerging powers India China and Russia have increasingly embraced their maritime geographies as they have expanded and strengthened their economies military capabilities and global influence Maritime Eurasia a region that facilitates international commerce and contains some of the world's most strategic maritime chokepoints has already caused a shift in the global political economy and challenged the dominance of the Atlantic world and the United States Climate change is set to further affect global politics With meticulous and comprehensive field research Geoffrey Gresh considers how the melting of the Arctic ice cap will create new shipping lanes and exacerbate a contest for the control of Arctic natural resources He explores as well the strategic maritime shifts under way from Europe to the Indian Ocean and Pacific Asia The race for great power status and the earth's changing landscape Gresh shows are rapidly transforming Eurasia and thus creating a new world order Religion as Securitization in Central and Eastern Europe András Máté-Tóth,Kinga Povedák,2024-09-18 Religion as Securitization in Central and Eastern Europe examines the significance of securitization theory as a reference point in understanding current religious socio cultural and political processes in Central and Eastern Europe CEE It explores contemporary social processes and discourses on security linked to religion and religious institutions CEE has experienced many confluences of security issues

with religious interpretations and world views For instance the international refugee and migration crisis could not be separated from the counterpoint between Christianity and Islam in political discussions Similarly the debates on LGBT family recognition and the traditional family model are inseparable from the Christian family as a reference point The security needs of the region are particularly acute trigger points which can be instrumentalized by political power In other words the threat sensitivities of collective identity make the region particularly well suited to being a focus of securitization both from the host side and from the discourses that are enforced from above In this volume the authors approach the validity of securitization in relation to religion and religion itself as securitization from a broader perspective They show not only what religious facts and aspects have become threatening in the process of securitization but also that the function of religion in the CEE region can be described and understood primarily as securitization This unique collection of studies offers a comprehensive theoretical and methodological approach while the case studies are drawn from more than seven countries in the region by leading scholars The book will be of interest to scholars from a wide range of disciplines including political science history anthropology and religious studies It will also function as an important introductory work for students to this specific area of research

The Impact of China's Belt and Road Initiative Jeremy Garlick, 2019-11-15 This book merges macro and micro level analysis of the Belt and Road Initiative BRI to dissect China's aim in creating an integrated Eurasian continent through this single mega project BRI has been the source of much interest and confusion as established frameworks of analysis seek to understand China's intentions behind the policy China's international activity in the early 21st century has not yet been successfully theorised by IR scholars because of a failure to satisfactorily encompass its complexity In addition the mix and match syncretism of the Chinese approach to foreign policy has been under emphasised or omitted in many analyses Bringing together complexity thinking and analytic eclecticism to assess the degree to which this scheme can transform international relations Garlick critically examines this large scale interconnectivity project and its potential impacts The book will be of interest to scholars and practitioners in the field of international relations and China studies including academics policy makers and diplomats around the world

China, Taiwan and the Offshore Islands Thomas E. Stolper, 2017-09-29 First published in 1985 this book is about an important episode and two of its sequels in Beijing's long struggle to achieve two goals by force if necessary First to prevent the US from detaching

Taiwan from China and establishing Taiwan as a universally recognized separate and independent country as Russia and the Soviet Union were able to detach and establish Outer Mongolia and second to end the Chinese Civil War by bringing Taiwan under the rule of Beijing and the Chinese Communist Party

The North Korean Revolution, 1945-1950 Charles K. Armstrong,2013-05-15

North Korea despite a shattered economy and a populace suffering from widespread hunger has outlived repeated forecasts of its imminent demise Charles K Armstrong contends that a major source of North Korea s strength and resiliency as well as of its flaws and shortcomings lies in the poorly understood origins of its system of government He examines the genesis of the Democratic People s Republic of Korea DPRK both as an important yet rarely studied example of a communist state and as part of modern Korean history North Korea is one of the last redoubts of unreformed Marxism Leninism in the world Yet it is not a Soviet satellite in the East European manner nor is its government the result of a local revolution as in Cuba and Vietnam Instead the DPRK represents a unique indigenization of Soviet Stalinism Armstrong finds The system that formed under the umbrella of the Soviet occupation quickly developed into a nationalist regime as programs initiated from above merged with distinctive local conditions Armstrong s account is based on long classified documents captured by U S forces during the Korean War This enormous archive of over 1 6 million pages provides unprecedented insight into the making of the Pyongyang regime and fuels the author s argument that the North Korean state is likely to remain viable for some years to come
