The Performing Self:

The Performing Self Richard Poirier, 1992 *The Performing Self* Richard Poirier, 1971 **The Performing Self** Robert Paine, 1971 *Viator* Robert L. Benson, 1986 *Performing Exile, Performing Self* Y. Meerzon, 2012-04-05 This book examines the life and art of those contemporary artists who by force or by choice find themselves on other shores It argues that the exilic challenge enables the migr artist to re establish new artistic devices new laws and a new language of communication in both his everyday life and his artistic work *Integrative Performance Experience* Bryon, 2014-04-24 Integrative Performance serves a crucial need of 21st century performers by providing a transdisciplinary approach to training Its radical new take on performance practice is designed for a climate that increasingly requires fully rounded artists The book critiques and interrogates key current practices and offers a proven alternative to the idea that rigorous and effective training must separate the disciplines into discrete categories of acting singing and dance Experience Bryon s Integrative Performance Practice is a way of working that will profoundly shift how performers engage with their training conditioning and performance disciplines It synthesizes the various elements of performance work in order to empower the performer as they practice across disciplines within any genre style or aesthetic Theory and practice are balanced throughout using Regular box outs introducing the work s theoretical underpinnings through quotes case studies and critical interjections A full program of exercises ranging from training of specific muscle groups through working with text to more subtle structures for integrative awareness and presence This book is the result of over twenty years of practice and research working with interdisciplinary artists across the world to produce a training that fully prepares performers for the demands of contemporary performance and all its somatic emotive and vocal possibilities *The Consumption Reader* David B. delivers a personal creative narration combining reflections and emotions in relation to self and performance. Instead of being an attempt to undervalue or challenge the accepted notions of style within academic research, it promotes a freedom of expression which allows greater fluidity between the researcher, the performer and the writer. **Performing Arousal** Julia Listengarten, Yana Meerzon, 2021-12-16 Shortlisted for the 2023 TaPRA Edited Collection Prize. This book considers arousal as a mode of theoretical and artistic inquiry to encourage new ways of staging and examining bodies in performance across artistic disciplines, modern history and cultural contexts. Looking at traditional drama and theatre but also visual arts, performance activism and arts-based community engagement, this collection draws on the complicated relationship between arousing images and the frames of their representability to address what constitutes arousal in a variety of connotations. It examines arousal as a project of social, scientific, cultural and artistic experimentation and discusses how our perception of arousal has transformed over the last century. Probing what arouses in relation to the ethics of representation, the book investigates the connections between arousal and pleasures of voyeurism, underscores the political impact of aroused bodies and explores how arousal can turn the body into a mediated object. Structural Idealism Douglas Mann, 2006-01-01 Do we determine our actions or are our actions ruled by the structure of our society Does our culture create us or do we create our culture Within history and social theory there is a fundamental division of opinion between those who explain human action by considering the intentions reasons and motives of individuals and those who use broader social structures Structural Idealism presents a theory of social and historical explanation which argues that idealists such as Hegel who champion human agency and materialists such as Marx who support social structure have grasped but part of a larger truth The book contends that we have to explain human actions simultaneously by both the ideas human actors bring to a situation and the way in which previous actions have created social structures that condition those ideas Through this realization we can see how all forms of knowledge from the historical roots of modern philosophy to today's popular culture both condition and are conditioned by structural ideals This book challenges our perception of how cultures and ideals are formed and shows that while structural ideals allow people to co operate as they work toward goals their own or those of their community these images of perfection so easily accepted as the unalterable structure of our society can be changed and are changed by individuals Structural Idealism asks us to think beneath the surface of our society and will be of special interest to philosophers sociologists historians and cultural theorists

Approaches to Interpersonal Communication Kathryn Carter, Mick Presnell, 1994-05-24 The authors fill two contemporary needs 1 they provide a collection of essays that raises theoretical and methodological issues in the study of interpersonal communication relevant to all researchers in this area of study and 2 they present a general approach to interpersonal communication that has gained wide acceptance among practitioners and educators but has been under represented by advanced research texts *At the Interface* , 2004-01-01 In a world increasingly characterised by perpetual re invention through the dynamic flows of capital persons and ideas understanding change and transformation is an imperative The purpose of this book is a first step in a project to engage the dynamics of transformation at the interface of culture and politics through contextualisation reflection and a sharing of intellectual resources Bringing together the work of academics from a range of disciplines who share an overarching aim to map such transformations the volume covers themes

ranging from popular culture the Internet to film and cinema Casting a contemporary gaze on cultural phenomena the contributors all seek to trace trajectories of change and continuity from within their own specific field using a range of approaches from theoretical reflection to empirical case studies Of general interest to students of the humanities and social sciences and of particular interest for students of cultural studies and communication at all levels this volume constitutes a unique opportunity to reflect on recent transformations but also on the persistence of certain cultural and political practices
