The Perilous Quest Image Myth And Prophecy In The Narratives Of Victor Hugo:

The Perilous Quest Richard B. Grant,1968 Character and Meaning in the Novels of Victor Hugo Isabel Roche,2007

While Victor Hugo's lasting appeal as a novelist can in large part be attributed to the unforgettable characters that he created, character has been paradoxically the most criticized and least understood element of his fiction. Character and Meaning in the Novels of Victor Hugo provides readers with a deeper understanding of the complexities and nuances that characterize both Hugo's novel writing and the nineteenth century French novel and will thus appeal to the specialist and non specialist alike.

The Later Novels of Victor Hugo Kathryn M. Grossman,2012-03-29 This study places the last three novels of Hugo's maturity *Les Travailleurs de la mer* 1866 *L'Homme qui rit* 1869 and *Quatrevingt-Treize* 1874 within the context of his artistic development after the success of *Les Misérables* 1862, thereby illuminating the shift from a poetics of harmony to one of transcendence.

Victor Hugo and the Visionary Novel Victor Brombert,1984 Victor Brombert reassesses in a modern perspective the power and originality of Hugo's work and provides a new interpretation of Hugo's narrative art as well as a synthesis of his poetic and moral vision. The twenty-eight drawings by Hugo reproduced in this book are further testimony to the visionary nature of Hugo's imagination.

James Hiddleston,2017-12-02 This study of Victor Hugo's work aims to uncover the diversity, the thematic and narrative singularity and the shifting ironies and resistance to interpretative closure of his writing. Novels examined include *Notre-Dame de Paris*, *Les Misérables*, *Les Travailleurs de la Mer*, *Quatre-vingt-treize* and *L'Homme qui rit*. The 11 essays in the volume bring together various critical approaches from French, British and American scholars in an attempt to provide a new point of departure and to provoke discussion of Victor Hugo's novels. This publication marks the bicentenary of Hugo's birth in 1802.

LES CONTEMPLATIONS of Victor Hugo Suzanne Nash,2015-03-08 Victor Hugo's work presents the reader with a paradox nowhere more apparent than in the collection of more than 150 lyric poems entitled *Les Contemplations*. Although he insisted upon structural unity, his complex artistic creations often seem disordered and digressive. Suzanne Nash examines this contradiction and she proposes here a new approach to *Les Contemplations* that reveals how it may be read as a unified allegory of Hugo's understanding of the creative process. The author's reading heightens the subtleties of individual poems by placing them within the context of the collection. She clarifies the poet's use of rhetorical devices and illuminating *Les Contemplations* as a metapoetic creation shows how it can serve as a guide to Hugo's other works. The first two chapters present evidence of Hugo's narrative intention, place his work within an allegorical tradition and describe the structure of the allegory. One poem, *Pasteurs et troupeaux*, is analyzed as a paradigm for the whole and a single theme, that of the opoldine as sacrificial muse and figure for poetic language, is traced through the six books. The author demonstrates Hugo's narrative purpose in his use of rhetorical forms and examines, according to the predominance of themes, images and technical devices, the

Victor Hugo in Exile William VanderWolk,2006 This book examining these two works and the nonfictional Napoleon le petit argues that through such texts Hugo can be seen as an important historian of his time a polemicist and prophet whose version of past events and vision of the future proved to be more lasting than those accepted during the empire BOOK JACKET The Rise of Modern Mythology, 1680-1860 Burton Feldman,Robert D. Richardson,2000-04-22 A book on modern mythology The Impersonal Sublime Suzanne Guerlac,1990 The question of the sublime which links the idea of aesthetic force with rhetorical impact and moral law has been an important topic in discussion of eighteenth and nineteenth century art and the shift between them This book argues that the sublime is equally important in understanding the shift from romanticism to modernism later in the century The author studies the work of three French authors conventionally considered pivotal figures in the trajectory from romanticism to modernism Hugo father of romanticism Baudelaire precursor of symbolist modernism and Lautreamont hero of post modernism She traces this literary historical as Hugo s Quatre vingt treize and L Homme qui rit Baudelaire s Spleen de Paris and Petits poemes en prose and Lautreamont s Chants de Maldoror and Poesies all seen from a perspective of the aesthetics of the sublime This perspective is developed through analyses of the treatises on the sublime by Longinus Boileau Burke and Kant *Victor Hugo* Bradley Stephens,2019-02-11 Victor Hugo is an icon of French culture He achieved immense success as a poet dramatist and novelist and he was also elected to both houses of the French Parliament Leading the Romantic campaign against artistic tradition and defying the Second Empire in exile he became synonymous with the progressive ideals of the French Revolution His state funeral in Paris made headlines across the world and his breadth of appeal remains evident today not least thanks to the popularity of his bestseller Les Mis rables and its myriad theatrical and cinematic incarnations This biography the first in English for more than twenty years provides a concise but comprehensive exploration of Hugo s monumental body of work within the context of his dramatic life Hugo wrestled with family tragedy and personal misgivings while being pulled into the turmoil of the nineteenth century from the fall of Napoleon s Empire to the rise of France s Third Republic Throughout these

twists of fate he sensed a natural order of collapse and renewal This unending cycle of creation shaped his ideas about freedom and roused his imagination which he channeled into his prolific writing and other outlets like drawing As Bradley Stephens argues such creative intellectual vigor suggests that Hugo was too restless to sit comfortably on the pedestal of literary greatness Hugo's was a mind as revolutionary as the time in which he lived **Les Misérables** Victor Hugo, 1994 Les Misérables is a magisterial work which is rich in both character portrayal and meticulous historical description site accessed 03 06 2013 <http://www.booktopia.com.au/les-miserables-victor-hugo-prod9781853260858.html> **Les Misérables and Its Afterlives** Kathryn M. Grossman, Bradley Stephens, 2016-03-09 Exploring the enduring popularity of Victor Hugo's Les Misérables this collection offers analysis of both the novel itself and its adaptations In spite of a mixed response from critics Les Misérables instantly became a global bestseller Since its successful publication over 150 years ago it has traveled across different countries cultures and media giving rise to more than 60 international film and television variations numerous radio dramatizations animated versions comics and stage plays Most famously it has inspired the world's longest running musical which itself has generated a wealth of fan made and online content Whatever its form Hugo's tale of social injustice and personal redemption continues to permeate the popular imagination This volume draws together essays from across a variety of fields combining readings of Les Misérables with reflections on some of its multimedia afterlives including musical theater and film from the silent period to today's digital platforms The contributors offer new insights into the development and reception of Hugo's celebrated classic deepening our understanding of the novel as a work that unites social commentary with artistic vision and raising important questions about the cultural practice of adaptation **To Kill a Text** Ilinca Sarifopol-Johnston, 1995 Ilinca Zarifopol-Johnston's book traces the covert manifestations of Hugo's romantic notion of the novel through later French and English realism arguing that the anachronistic traces of past literary periods are always at work defining the aims of the present no matter how radical a new departure it seems or tries to be Victor Hugo's Les Misérables and the Novels of the Grotesque Karen Masters-Wicks, 1994 This important study focuses on the novels of Victor Hugo one of the most well known French authors of the nineteenth century Through close readings of his most celebrated narratives Les Misérables and Notre Dame de Paris his juvenilia *Han d Islande* *Bug Jargal* and *Le Dernier jour d'un condamné* and his later fiction *Les Travailleurs de la mer* *L'Homme qui rit* and *Quatrevingt-treize* the author breaks new ground in her elaboration of the problem of the grotesque esthetic between Hugo's novels and his romantic manifesto of 1827 the *Préface de Cromwell* in which he argues for inclusion of the grotesque as an esthetic part of the new romantic drama This modern esthetic of contrast thus becomes the point of departure from which his narrative springs It is the cornerstone of the differentiation between romantic and classical literature Hugo takes as his starting point the breakdown of all esthetic codes and creates a new framework for reading literature that is a romanticism of overcodified deformations *The Hunchback of Notre-Dame* Victor Hugo, 1993 Theatre program Encyclopedia of the Novel Paul

Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world. Entries on individual writers assess the place of that writer within the development of the novel form, explaining why and in exactly what ways that writer is important. Similarly, an entry on an individual novel discusses the importance of that novel, not only from analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre. A wide range of topic entries explore the history, criticism, theory, production, dissemination, and reception of the novel. A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world.

History in the Text Sandy Petrey, 1980 The title of this study, *History in the Text*, is an oxymoronic phrase, and by this the main focus of the book is clear immediately. On the other hand, there still remains the question to what extent text and history are comparable. The author of this volume tries to answer this by discussing the famous novel of Victor Hugo, *Quatrevingt-Treize*, against the background of the French Revolution.
