The Angelics:

The 30 Trials of Ix and the Angels Mark Durant,2004-09-16 The 30 Trials of Ix and the Angels follows Ix Pantheos from his awakening in a ruined castle through his travels to the moon the sun and beyond carried along by the songs of thirty angels as they initiate him into the mysteries of consciousness and the nature of existence The answer seemingly found and the journey apparently nearing its end Ix then finds that he must suffer the destruction of his former self and face a new struggle to hold onto all that was revealed to him Born of a series of meditations performed by the author and utilizing an eclectic mix of various world religious and occult philosophies the story is a surreal journey into the depths of the mind echoing Ix s own quest to redeem both himself and mankind While it stands alone as an engaging read for those unacquainted with the various schools of inquiry that comprise the fertile field within which it took root it retains that symbolism which may prove insightful to like minded readers who find themselves treading its obscure paths All the Angels in the Bible Herbert Lockyer,2015-02-27 Your faith will be powerfully strengthened as you gain insight into the nature of angels and discover the purpose of their ministry Begun by the beloved preacher Herbert Lockyer Sr and finished by his son this clear detailed and eye opening volume examines every angelic encounter in the Bible 192 pages softcover from Hendrickson *Troubling The Angels* Patricia A Lather,Christine S Smithies,2018-03-14 Educator Patti Lather and psychologist Chris Smithies observed and chronicled support groups for women diagnosed with HIV Whether black Latina poor or middle class the women in these groups share the common bond of living with HIV AIDS and they describe how it affects their lives in terms full of practical reality and moving poignancy as they fight the disease accept reflect live and die with and in it **The Stars and the Angels, Or The Natural History of the Universe and Its Inhabitants** ,1858

Light from the Angels Hallie Deering,1997-06-01 Angelic Technology Manifesting on Earth Now those who could not attend the Angel Academy in person have a unique opportunity to learn about major metaphysical topics from the Angels themselves *Light From the Angels* discusses difficult subjects in the angels own precise easy to understand language Many formidable concepts that have been hazy for most students of metaphysics will suddenly become crystal clear and meaningful as the angels deftly show you how life s intricate complex puzzle pieces fit easily together Whether you are a professional healer a channel a psychic or just simply interested in advanced metaphysics the Divine Mother and the Rose Angels will take you by the hand and lead you down exciting new pathways of self discovery and adventure Their methods for inner transformation are practical appealing and enlightening you owe it to yourself to make them a permanent part of your spiritual life *The Revolt of the Angels* Anatole France,2016-02-10 The Human Spirit in His Quest for Knowledge I sought out the laws which govern nature solid or ethereal and after much pondering I perceived that the Universe had not been formed as its pretended Creator would have us believe I knew that all that exists exists of itself and not by the caprice of Iahveh that the world is itself its own creator and the spirit its own God Henceforth I despised Iahveh for his imposture and I

hated him because he showed himself to be opposed to all that I found desirable and good liberty curiosity doubt Anatole France The Revolt of the Angels Arcade a guardian angel of the lowest rank seeks knowledge and falls out of Heaven because of it He meets other fallen beings who plot to dethrone God Maurice is the human who Arcade should be guarding and he wants his guardian angel back But is he ready to face the truth This book has been professionally formatted for e readers and contains a bonus book club leadership guide and discussion questions We hope you ll share this book with your friends neighbors and colleagues and can t wait to hear what you have to say about it **Wrestling the Angel** Terryl L.

Givens,2014-10-03 Wrestling the Angel is the first in a two part study of the foundations of Mormon thought and practice The book traces the essential contours of Mormon thought as it developed from Joseph Smith to the present Terryl L Givens one of the nation s foremost scholars of Mormonism offers a sweeping account of the history of Mormon belief revealing that Mormonism is a tradition still very much in the process of formation *The Angel Babies* V Clive Alando Taylor,2015-03-25

The Angel Babies is really and truly the story of humanity set against the backdrop and told through the trials of the Angels of the Celestial and Empyreans Heavens But I suppose it also translates on a much higher and grander level of understanding as I also feel that this story very much ties together the complex relationships and beliefs that can separate us all but can also equally tie us together within a common thread if not a higher power Then at least let me say love for want of better attribute with which to identify with as it is in this the definitive and final chapter of the Angel Babies whereupon our angels are found to be at the beginning and yet the end of time with which to know and to examine their true purpose and potential in life With everything that they have now they finally came to know hinges upon a black hole and the truth of all totality concerning their Timespell which could inevitably deliver them to salvation or even their own demise and destruction It is into coming to terms with what most of us ordinary people of the world would do for an ultimate explanation of all in calling God As much as I have had many an interest in prophetic and religious and spiritual text I have always for some reason tried to apply my spiritual attainments to become concerned and attuned to the Book of Revelations especially as I believe that if I did not at least attempt to try to tackle the themes and narrative set out in this apocalyptic vision then I myself would not be doing humanity or mankind any real service or commitment to unlock the potentiality of holistic creativity and the imagination of the human spirited nature which we all seem so easily to possess and yet are limited in its usage So I only pray and hope that this story may shed some light upon this and grant us some bearing upon reading and discovering the world as I have come to know it with the Angel Babies **The Glories of the Holy Angels** Henri-Marie Boudon,2020-05-07

The power of the Angels is incredible one alone of these blessed spirits being able to defeat millions of armed men nay the whole world put together We are told in the Book of Kings that an Angel slew in one night 85 000 of the Assyrians the enemies of the people of God They can make the winds blow the rain fall the thunder roar they can raise tempests cause earthquakes give abundance and famine cure and inflict all sorts of maladies and operate many other things almost in a

minute parts of the game while others wax poetic about its players and plays Many trace the beginnings of the civil rights movement in part to the Major Leagues decision to integrate and the words and phrases of the game for example pinch hitter and out in left field have become common in our everyday language From AARON HENRY onward this book covers all of what might be called the cultural aspects of baseball as opposed to the number rich statistical information so widely available elsewhere Biographical sketches of all Hall of Fame players owners executives and umpires as well as many of the sportswriters and broadcasters who have won the Spink and Frick awards join entries for teams owners commissioners and league presidents Advertising agents drafts illegal substances minor leagues oldest players perfect games retired uniform numbers superstitions tripleheaders and youngest players are among the thousands of entries herein Most entries open with a topical quote and conclude with a brief bibliography of sources for further research The whole work is exhaustively indexed and includes 119 photographs

The Mammoth Book of Angels & Demons Paula Guran,2013-05-16 Despite our tendency to think of the demonic as evil and the angelic as good our own legends don t always bear this out Angels can be the incarnation of light and salvation but they can also fall Satan himself is a fallen angel Demons can be truly demonic but these unearthly creatures can also on occasion lend humankind a hand Temptation can lead to revelation supernatural messengers who bring true justice may not be welcomed and beings seeking redemption can be blind to mortal needs Stories from world renowned authors of science fiction and fantasy including Neil Gaiman George R R Martin and Joyce Carol Oates and rising stars portray angels in all their glory demons at their most dreadful and a surprising variety of modern interpretations of ancient myth

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
