The Animal Mind James L. Gould, Carol Grant Gould, 1999 In this volume James and Carol Gould go in search of the animal mind Taking a fresh look at the evidence on animal capacities for perception thought and language the Goulds show how scientists attempt to distinguish actions that go beyond the innate or automatically learned They provide captivating beautifully illustrated descriptions of a number of clever and curious animal behaviors some revealed to be more or less preprogrammed some seemingly proof of a well developed mental life

Inside the Animal Mind George Page, 2001-08-02 In the bestselling tradition of *When Elephants Weep* and *Dogs Don t Lie About Love* *Inside the Animal Mind* is a groundbreaking exploration of the nature and depth of animal intelligence While in the past scientists have refused to acknowledge that animals have anything like human intelligence a growing body of research reveals otherwise We ve discovered ants that use leaves as tools to cross bodies of water woodpecker finches that hold twigs in their beaks to dig for grubs and bonobo apes that can use sticks to knock down fruit or pole vault over water Not only do animals use tools some also display an ability to learn and problem solve Based on the latest scientific and anecdotal evidence culled from animal experts in the labs and the field *Inside the Animal Mind* is an engrossing look at animal intelligence cognitive ability problem solving and emotion George Page originator and host of the long running PBS series *Nature* offers us an informed entertaining and humanistic investigation of the minds of predators and scavengers birds and primates rodents and other species Illustrated with twenty four black and white photographs the book is the companion to the three part hour long show of the same name hosted by Page

Animal Mind Margaret Floy Washburn, 2019 *The Animal Mind* Margaret Floy Washburn, 2017-09-16 Excerpt from *The Animal Mind* A d104 Book of Comparative Psychology The advance of comparative psychology during the past nine years has been remarkable In preparing a second edition of this book I have tried to include every newly discovered fact of the first importance but the literature is now so extensive that in order to keep the bibliography within reasonable limits I have had to exercise more selection than I did in preparing the bibliography for the first edition For like reasons the text of the book does not enter so fully into detail in describing the results of a particular investigation as was possible when the material at hand was so much less in amount More than half the book has been completely rewritten including the chapters on Vision on Spatially Determined Reactions and on The
