Political Conditionality Georg Sorensen, 2013-11-05 Political conditionality involves the linking of development aid to certain standards of observance of human rights and liberal democracy in recipient countries Although this may seem to be an innocent policy it has the potential to bring about a dramatic change in the basic principles of the international system putting human rights first means putting respect for individuals and rights before respect for the sovereignty of states

China and Japan in the Asia-Pacific Regional Economic Cooperation Yong Deng, 1995

China And The World Samuel S Kim, 2018-02-02 As the postwar international system continues its dramatic transformation the fundamental question of what role China will play is becoming increasingly central Contributors to the volume focus on the developments of the post Tiananmen years addressing the issues raised by China s expanding and increasingly complex relationships with a rapidly changing global environment They consider such questions as What is the principal challenge of post Tiananmen foreign policy How will China cope with the call for a more peaceful equitable democratic and ecological world order How has the nexus between China and the world changed in this transition period and why What are the implications for China s future and for the future of the rest of the world Combining a broad theoretical framework with specific case studies this text tackles themes that have long puzzled Westerners Seeking the often elusive sources of Chinese foreign policy the contributors assess the relative influences of domestic and foreign factors in shaping policy goals They also examine the changes and continuities that have characterized Chinese foreign relations over the years identifying the patterns underlying

China's interactions with the major global actors and its policies on specific international issues. Special attention is paid to the word deed and at times word word disjuncture in Chinese foreign relations with several chapters probing the discrepancies between rhetoric and reality policy pronouncements and policy performance and intent and outcome. The human rights component of China's foreign policy and China's foreign policy options for the last decade of the century are also discussed. New to this revised and updated edition of *China and the World* are discussions concerning Chinese foreign policies and international relations theories the relationship between China and the Third World and China's environmental diplomacy.

The Great Wall and the Empty Fortress Andrew J. Nathan, Robert S. Ross, 1998. Many see China and the United States on the path to confrontation. The Chinese leadership violates human rights norms. It maintains a harsh rule in Tibet spars aggressively with Taiwan and is clamping down on Hong Kong. A rising power with enormous assets, China increasingly considers American interests an obstacle to its own. But the authors argue the United States is the least of China's problems. Despite its sheer size, economic vitality and drive to upgrade its military forces, China remains a vulnerable power crowded on all sides by powerful rivals and potential foes. As it has throughout its history, China faces immense security challenges and their sources are at and within China's own borders. China's foreign policy is calibrated to defend its territorial integrity against antagonists who are numerous, near and strong. The authors trace the implications of this central point for China's relations with the United States and the rest of the world.

China in Africa Sabella O. Abidde, Tokunbo A.

Ayoola, 2021-02-03. This book examines Sino-African relations and their impact on Africa. It argues that Africa's relationship with China has had a profound impact on key sectors in Africa: economic and political development, the media, infrastructural development, foreign direct investments, loans, debt, peonage and international relations. The authors also analyze the imperialist and neo-colonialist implications of this relationship and discuss the degree to which the relationship is beneficial to Africa.

In the Eyes of the Dragon Yong Deng, Fei-Ling Wang, 2000-01-01. Presenting new and invaluable Chinese perspectives on international relations in general and Beijing's foreign policy in particular, this work offers the first balanced and thoroughly researched analysis by Chinese scholars. Drawing on original Chinese sources and interviews, *In the Eyes of the Dragon* explores Chinese views on sovereignty, national interest, security, multilateralism, international human rights, nuclear nonproliferation, Taiwan and the United States. Illuminating how China views the post-Cold War world and its place therein, the contributors enhance our understanding of the nationalist sentiments driving the PRC's foreign policy and elevate the debate over China to a higher, more sophisticated and productive level.

China's African Challenges Sarah Raine, 2013-10-18. China's relations with African nations have changed dramatically over the past decade. African oil now accounts for more than 30% of China's oil imports and China is Africa's second largest single country trading partner as well as a leading lender and infrastructure investor on the continent. Yet these developments are bringing challenges not only for Africa and the West but for China as well. This book examines these challenges considering Africa as a testing ground both

for Chinese companies going global and for a Chinese government that is increasingly having to deal with issues beyond its shores and immediate control. What does China need to do to protect and develop its African engagements against a backdrop of mounting African expectations, concerns from Western actors in Africa and the rival presence of other emerging actors? How sustainable is the momentum that China has established in its African ventures? China's adaptations to the challenges it is facing in Africa are examined and assessed, as are the implications of these changes for China, Africa and the West. China's African engagements are certainly changing Africa, but could they also be changing China?

Multidimensional Diplomacy of Contemporary China Jean-Marc F. Blanchard, Simon Shen, 2012-07-10

Since the end of the Cold War, the new Chinese leadership generation has had to promulgate new guiding principles for handling global diplomacy, which acknowledges China's new position. Given the dramatic changes in the international system and its domestic economic success, for the growing China, its rise idea on the global stage. China in the 21st century faces a mixture of old and new challenges, including terrorism, hegemonism and authoritarianism. While Deng Xiaoping combined Taoism, an ancient Chinese philosophy, into Taoist diplomacy in response to the hostile international position after the Tiananmen Incident, China's foreign policy keeps changing, and the multidimensional diplomacy adopted by China can be seen as a consistent theme in Chinese foreign policy in the 21st century. *Multidimensional Diplomacy of Contemporary China* attempts to examine the origins, guiding principles and sequential outcomes of China's multidimensional diplomacy in the 21st century, working under the flag of peaceful development, harmonious international order and global responsibility. The contributions are grouped into three sections. The first discusses the theoretical foundations of multidimensional diplomacy. The second section turns the analytical focus to China's immediate neighbors in East Asia, and at last, the book will go beyond the immediate neighborhood of China to the global community. These essays explore China's dealings with the countries of Africa, the Gulf and the South Pacific, and provide other in-depth analyses on China's foreign policy towards Pakistan, Russia and Japan. This book seeks to significantly shape the knowledge and thinking about China's global interactions in the 21st century.

The Red Star and the Crescent James Reardon-Anderson, 2018-04-01

The Red Star and the Crescent provides an in-depth and multi-disciplinary analysis of the evolving relationship between China and the Middle East. Despite its increasing importance, very few studies have examined this dynamic, deepening and multi-faceted nexus. James Reardon-Anderson has sought to fill this critical gap. The volume examines the big picture of international relations, then zooms in on case studies and probes the underlying domestic factors on each side. Reardon-Anderson tackles topics as diverse as China's security strategy in the Middle East, its military relations with the states of the region, its role in the Iran nuclear negotiations, the Uyghur question, and the significance and consequences of the Silk Road strategy. A comprehensive study of the changing forces driving one of the world's most important strategic, economic and cultural relationships.

India's Ocean David Brewster, 2014-03-26

Sutter, 2012-01-26 This comprehensive introduction to Chinese foreign relations examines the opportunities and limits China faces as it seeks growing international influence Tracing the record of twists and turns in Chinese foreign relations since the end of the Cold War Robert G Sutter provides a nuanced analysis that shows that despite its growing power Beijing is hampered by both domestic and international constraints Newly revised this edition features more extensive treatment of China's role in the international economy and greater discussion of its relations with the developing world Overall Sutter's balanced and thorough assessment shows China's leaders exerting more influence in world affairs but remaining far from dominant Facing numerous contradictions and trade offs they move cautiously as they deal with a complex global environment
