Appreciating the Art of Television Ted Nannicelli,2016-09-13 Contemporary television

has been marked by such exceptional programming that it is now common to hear claims that TV has finally become an art. In *Appreciating the Art of Television* Nannicelli contends that televisual art is not a recent development but has in fact existed for a long time. Yet despite the flourishing of two relevant academic subfields the philosophy of film and television aesthetics there is little scholarship on television in general as an art form. This book aims to provide scholars active in television aesthetics with a critical overview of the relevant philosophical literature while also giving philosophers of film a particular account of the art of television that will hopefully spur further interest and debate. It offers the first sustained theoretical examination of what is involved in appreciating television as an art and how this bears on the practical business of television scholars, critics, students and fans, namely the comprehension, interpretation and evaluation of specific televisual artworks.

Approaches to Art Ferdinanda Florence, 2014-08-18 Written to engage and inspire, this unique text addresses the why of art to move students beyond learning and into a place of caring about artistic choices, periods and styles. Each chapter helps to build the next progressively, making the case for art's value and meaning.

The Aesthetic Appreciation of Nature Malcolm Budd, 2003-01-09 The aesthetics of nature has over the last few decades become an intense focus of philosophical reflection as it has been ever more widely recognised that it is not a mere appendage to the aesthetics of art. Just as nature offers aesthetic experiences beyond the reach of art, so the aesthetics of nature raises issues not contained within the philosophy of art. Malcolm Budd presents four interlinked essays addressing all the main problems about the aesthetics of nature. These include how the aesthetic appreciation of nature should be understood, the character of an aesthetic response to nature, what kinds of aesthetic experience nature affords and what kinds of aesthetic judgement it is amenable to, the aesthetic significance of intrusions by humanity into nature, whether aesthetic judgements about nature can be objectively true, the doctrine of positive aesthetics with respect to nature, the aesthetic significance of knowledge of nature and in particular whether scientific knowledge is necessary for serious aesthetic appreciation of nature and the correct model for the appropriate aesthetic appreciation of nature. *The Aesthetic Appreciation of Nature* also includes a comprehensive exposition and examination of the thoughts of the greatest philosopher to make a substantial contribution to the subject, Immanuel Kant, and an encyclopaedic critical survey of much of the most significant recent literature. Scholars and students of aesthetics will find valuable resources here and much to think about.
