Gelernter, 2001 Presents a history of American architecture from the first civilizations in America to the present *The Mental Life of the Architectural Historian* Gevork Hartoonian, 2014-08-11 Starting with the question concerning the discursive formation of architectural history the chapters compiled in this book attempt to re read the historiography of early modern architecture from the point of view of the theoretical work produced since the post war era Central to the objectives of the argument are the ways in which firstly architectural history differs from the traditions of art history and secondly that the historical narrative works its autonomy through theoretical representation the discursive flow of which is interrupted by the historian's urge to support arguments with references to buildings texts drawings and historical events The historians discussed in this volume are those regularly addressed by most critics revisiting modern architectural history Individual chapters are dedicated to N Pevsner H R Hitchcock and S Giedion an economy of selection that is formative for a critical understanding of the canon established by these historians Themes such as periodization autonomy and time are discussed and the coda of the final chapter expands on the scope of critical historiography popularised by Kenneth Frampton and Manfredo Tafuri *American Architecture* Dell Upton, 2019-02 [A Concise History Of American Architecture](#) Leland Roth, 1980-10-15 0 06 430158 3 Understanding Architecture Its Elements History and Meaning **The Routledge Companion to Contemporary Architectural History** Duanfang Lu, 2023-07-31 The Routledge Companion to Contemporary Architectural History offers a comprehensive and up to date knowledge report on recent developments in architectural production and research Divided into three parts Practices Interrogations and Innovations this book charts diversity criticality and creativity in architectural interventions to meet challenges and enact changes in different parts of the world through featured exemplars and fresh theoretical orientations The collection features 29 chapters written by leading architectural scholars and highlights the reciprocity between the historical and the contemporary research and practice and disciplinary and professional knowledge Providing an essential map for navigating the complex currents of contemporary architecture the Companion will interest students academics and practitioners who wish to bolster their understanding of built environments **Material Culture in America** Helen Sheumaker, Shirley Wajda, 2007-11-07 The first encyclopedia to look at the study of material culture objects images spaces technology production and consumption and what it reveals about historical and contemporary life in the United States Reaching back 400 years Material Life in America An Encyclopedia is the first reference showing what the study of material culture reveals about American society revelations not accessible through traditional sources and methods In nearly 200 entries the encyclopedia traces the history of artifacts concepts and ideas industries peoples and cultures cultural productions historical forces periods and styles religious and secular rituals and traditions and much more Everyone from researchers and curators to students and general readers will find example after example of how the objects and environments created or altered by humans reveal as much about American life as diaries documents and texts **America by Design** Spiro Kostof, 1987 **Writing Architectural History** Aggregate

Architectural History Collaborative, 2021-12-14 Over the past two decades scholarship in architectural history has transformed moving away from design studio pedagogy and postmodern historicism to draw instead from trends in critical theory focusing on gender race the environment and more recently global history connecting to revisionist trends in other fields With examples across space and time from medieval European coin trials and eighteenth century Haitian revolutionary buildings to Weimar German construction firms and present day African refugee camps Writing Architectural History considers the impact of these shifting institutional landscapes and disciplinary positionings for architectural history Contributors reveal how new methodological approaches have developed interdisciplinary research beyond the traditional boundaries of art history departments and architecture schools and explore the challenges and opportunities presented by conventional and unorthodox forms of evidence and narrative the tools used to write history

*Architects of an American Landscape* Hugh Howard, 2022-01-25 A dual portrait of America's first great architect Henry Hobson Richardson and her finest landscape designer Frederick Law Olmsted and their immense impact on America As the nation recovered from a cataclysmic war two titans of design profoundly influenced how Americans came to interact with the built and natural world around them through their pioneering work in architecture and landscape design Frederick Law Olmsted is widely revered as America's first and finest parkmaker and environmentalist the force behind Manhattan's Central Park Brooklyn's Prospect Park Biltmore's parkland in Asheville dozens of parks across the country and the preservation of Yosemite and Niagara Falls Yet his close friend and sometime collaborator Henry Hobson Richardson has been almost entirely forgotten today despite his outsized influence on American architecture from Boston's iconic Trinity Church to Chicago's Marshall Field Wholesale Store to the Shingle Style and the wildly popular open plan he conceived for family homes Individually they created much beloved buildings and public spaces Together they married natural landscapes with built structures in train stations and public libraries that helped drive the shift in American life from congested cities to developing suburbs across the country The small reserved Olmsted and the passionate Falstaffian Richardson could not have been more different in character but their sensibilities were closely aligned In chronicling their intersecting lives and work in the context of the nation's post war renewal Hugh Howard reveals how these two men created original all American idioms in architecture and landscape that influence how we enjoy our public and private spaces to this day

**French Encounters with the American Counterculture, 1960-1980** Caroline Maniaque Benton, 2011 It is normally asserted that French architects looked to North America for technical lessons in the development of modern architecture in the 1960s but that the French cultural environment was generally hostile to American ideas This book includes interv
