## **The Architecture Of British Transport In The Twentieth Century:**

The Architecture of British Transport in the Twentieth Century Julian Holder, Steven Parissien, 2004 Published for the Paul Mellon Centre for Studies in British Art      **London's Great Railway Stations** Oliver Green, 2021-12-07 A lavish photographic history of all the key railway stations of London for transport buffs and anyone interested in the rich history of London      **Model Britain** David Lund, 2024-10-22 Throughout the twentieth century architectural models served as the miniature playgrounds in which the future of Britain's built environment was imagined and in drawing from the evidence provided by those models today this book considers how architects planners and civil engineers thought about that future by presenting a history of yesterday's dreams of tomorrow told through architectural models Focused not on the making of architectural models but rather the optimistic and utopian visions they were made to communicate this book examines the possible futures put forward by 120 models made by Thorp the oldest and most prolific firm of architectural modelmakers in Britain in order to reveal a century of evolving ideas about how we might live work relax and move From depictions of unbuilt city masterplans to those of seemingly ordinary shopping centres and motorways the models featured trace a progression of the architectural social political technological and economic influences that shaped the design of Britain's buildings transport infrastructure and its towns and cities during a century of relentless change Illustrated with over 130 photographs this book will appeal to academics and historians as well as anyone with an interest in architectural models and the history of Britain's twentieth century built environment      Interwar Gavin Stamp, 2024-03-07 A FINANCIAL TIMES BOOK OF THE YEAR 2024 A Country Life Architecture Book to Read in 2025 Elegant erudite and entertaining a superbly detailed picture of an architectural era The Times A magnificent monument in itself to a fine architectural writer Simon Heffer Telegraph British architecture between the wars is most famous for the rise of modernism the flat roofs clean lines and concrete of the Isokon flats in Hampstead and the Penguin Pool at London Zoo but the reality was far more diverse As the modernists came of age and the traditionalists began to decline there arose a rich variety of styles and tastes in Britain and across the empire a variety that reflected the restless zeitgeist of the years before the Second World War At the time of his death in 2017 Gavin Stamp one of Britain's leading architectural critics was at work on a deeply considered account of British architecture in the interwar period correcting what he saw as the skewed view of earlier historians who were unable to see past modernism Beginning with a survey of the modern movement after the armistice Interwar untangles the threads that link lesser known movements like the Egyptian revival with the enduring popularity of the Tudorbethan to chronicle one of Britain's most dynamic architectural periods The result is more than an architectural history it is the portrait of a changing nation As an account of the period that still shapes much of Britain's towns and cities Gavin Stamp's final work is the definitive history of British architecture between the Great War and the Blitz      *Cold War Kitchen* Ruth Oldenziel, Karin Zachmann, 2011-01-21 The kitchen as political symbol and material reality in the cold war years Richard Nixon and Nikita Khrushchev's famous

kitchen debate in 1958 involved more than the virtues of American appliances Both Nixon and Khrushchev recognized the political symbolism of the modern kitchen the kind of technological innovation represented in this everyday context spoke to the political system that produced it The kitchen connects the big politics of politicians and statesmen to the small politics of users and interest groups Cold War Kitchen looks at the kitchen as material object and symbol considering the politics and the practices of one of the most famous technological icons of the twentieth century Defining the kitchen as a complex technological artifact as important as computers cars and nuclear missiles the book examines the ways in which a range of social actors in Europe shaped the kitchen as both ideological construct and material practice These actors from manufacturers and modernist architects to housing reformers and feminists constructed and domesticated the technological innovations of the postwar kitchen The home became a mediation junction in which women users and others felt free to advise producers from the consumer s point of view In essays illustrated by striking period photographs the contributors to Cold War Kitchen consider such topics as Soviet consumers ambivalent responses to the American dream kitchen argued over by Nixon and Khrushchev the Frankfurter K che a European modernist kitchen of the interwar period and its export to Turkey when its designer fled the Nazis and the British state subsidized kitchen design so innovative that it was mistaken for a luxury American product The concluding essays challenge the received wisdom of past interpretations of the kitchen debate

*The Themed Space* Scott A. Lukas, 2007-01-01 The Themed Space Locating Culture Nation and Self is the first edited collection focused on the subject of the themed space Twelve authors address a range of themed spaces including restaurants casinos theme parks and other spaces like airports and virtual reality ones The text is organized into four sections theming as authenticity theming as nation theming as person and theming as mind

**The experience of suburban modernity** Michael John Law, 2014-12-01 The experience of suburban modernity looks at the history of the London suburbs in the interwar years It shows that contrary to those accounts that portray suburbia as static and boring these suburbs were in fact at the heart of the adoption of private transport and new mobilities Wealthier middle class suburbanites enjoyed driving at speed on new arterial roads visiting roadhouses for a transgressive night out taking five shilling flights from the local airport and joining cycling and motorcycle clubs All this fun came at a price for some in the form of thousands of deaths in road accidents plane crashes on suburban housing and in the despoiling of the countryside through road development This book will be welcomed by academics and students working in suburban studies historical geography and interwar British history and can also be enjoyed by anyone interested in the history of London

Form Follows Fun Bruce Peter, 2013-05-13 Authoritative and readable this excellent text illustrated by a unique pictorial record of period architecture surveys and examines how and why the architecture of pleasure related to the stylistic and ideological concerns of modernism in 1930s Britain Responding to the current interest in modernism and packed with a substantial archive of high quality photographs and other documentation it relates the professional entrepreneurial and institutional

infrastructures affecting the pleasure industry's architectural development and appearance in 1930s A broad range of building through which the general public first experienced Modernism are covered including commercial holiday camps cinemas and greyhound racing stadia municipal and governmental projects zoos seaside pavilions concert halls and imperial and international exhibitions Arguing that the responses to modernism through the architecture of pleasure were conditioned by wider debates about the role of design in relation to high and mass culture this book is an ideal resource for all those interested in architectural history and design in Britain between the wars *The Edwardian Sense* Morna O'Neill, Michael Hatt, 2010 This is the twentieth in a series of occasional volumes devoted to studies in British art published by the Yale Center for British Art and the Paul Mellon Centre for Studies in British Art and distributed by Yale University Press Book Jacket Aerial Life Peter Adey, 2010-09-29 NOMINATED AND SHORT LISTED FOR THE SURVEILLANCE STUDIES BOOK PRIZE 2011 This theoretically informed research explores what the development and transformation of air travel has meant for societies and individuals Brings together a number of interdisciplinary approaches towards the aeroplane and its relation to society Presents an original theory that our societies are aerial societies or aerealities and shows how we are both enabled and threatened by aerial mobility Features a series of detailed international case studies which map the history of aviation over the past century from the promises of early flight to World War II bombing campaigns and to the rise of international terrorism today Demonstrates the transformational capacity of air transport to shape societies bodies and individual identities Offers startling historical evidence and bold new ideas about how the social and material spaces of the aeroplane are considered in the modern era Industrial Britain Hubert J. Pragnell, 2021-07-08 A fascinating insight into Britain's industrial past as evidenced by its buildings richly illustrated with intricate line drawings Industrial Britain goes far beyond the mills and machine houses of the Industrial Revolution to give an engaging insight into Britain's industrial heritage It looks at the power stations and monumental bridges of Britain including the buildings and engineering projects associated with the distribution of manufactured goods docks canals railways and warehouses The gasworks Temples of mass production The mill Warehouse and manufactory Dock and harbour buildings Water power and water storage Waterways canals and rivers The railway age Breweries and oast houses Markets and exchanges The twentieth century industry on greenfield sites It's a story of industrial development but also a story of its ultimate decline As manufacturing has been increasingly replaced by services new uses have been found for at least some of the country's great industrial buildings Not least as containers for art and heritage such as the Bankside Power Station Tate Modern and Salts Mill Other buildings featured are still used as originally intended today such as Smithfield Market in London and the Shepherd Neame brewery in Faversham Illustrated throughout with over 200 original line drawings Industrial Britain is a celebration of industrial architecture and its enduring legacy Britain Revealed Diana Cordea, 2021-12-31 Why do Brits call their flag a Jack How did the leek become a symbol of Wales Does the Tube run 24/7 Who was the Widow of Windsor Can you take part in a

coronation What was a Greenwood marriage Was the Giant's Causeway built by an Irish giant Which British literary figures won the Nobel Prize for Literature How can you register a record in the Guinness Book of Records What is the emergency phone number in the UK Providing well organised material on the UK's history geography literature royalty and society Diana Cordeas Britain Revealed is a condensed and easy to read book about all things British It is an excellent user friendly reference for prospective visitors to the UK Anglophiles or readers wishing to know and understand popular British culture Most importantly Britain Revealed is aimed at teachers of English as a foreign language who wish to make their English and optional classes more exciting The plethora of information provided in this comprehensive teaching aid can be adapted to various levels of language proficiency and can be used in various classroom activities Focusing on essential questions concerning British culture and civilisation this volume is also attractive to learners who will thus have the opportunity of brushing up on their English in a versatile and practical way

Aeromobilities Saulo Cwerner, Sven Kesselring, John Urry, 2009-01-13 Aeromobilities is a collection of essays that tackle in many different ways the growing importance of aviation and air travel in our hypermobile globalized world Providing a multidisciplinary focus on issues ranging from global airports to the production of airspace from airline work to helicopters and from movement in airports to software systems Aeromobilities seeks to enhance our understanding of space time and mobility in the age of mass air travel From Sao Paulo to Sydney Aeromobilities draws on local experiences of airspaces to generate theory and research that are global in scope It is the first book of its kind bringing together a wide range of theoretical and methodological approaches to aviation and air travel in the social sciences and humanities while emphasizing the central role of aeromobilities in contemporary social relations In a world where virtually every aspect of social life is touched upon in one way or another by the complex global network of airline flows with its large passenger aircraft and iconic international airports Aeromobilities provides innovative analyses of some of the most fundamental and influential mobility networks of our time

**Reconstruction** Neal Shasore, Jessica Kelly, 2023-02-23 Commendation the Colvin Prize 2023 Society of Architectural Historians of Great Britain Reconstruction explores the impact of the First World War on the built environment examining the immediate and longer term aftermath of the Great War on the architecture of Britain and the British Empire during the interwar years While much attention has been paid by historians to post war architectural reconstruction after 1945 the earlier developments of the interwar period 1919 1939 have been comparatively overlooked This volume reveals how the architectural developments of this period not only provided important foundations for what happened after 1945 they are also of real significance in their own right Sixteen essays written by leading and emerging scholars bring together new and diverse approaches to the period a period of reconstruction fraught with the challenges of modernity and democratisation The collection considers the complex effects of reconstruction on design discourse practice and professionalism and deals with the full spectrum of

architectural styles and approaches privileging neither Modernism nor traditional styles like the neo Georgian It brings to the fore social and political histories of the built environment and makes important postcolonial interventions into the architectural history of British Imperialism at home and in its far reaches in Cairo South Africa Australia and India **The Architects' Journal** ,2005-03 **The Life of the Automobile** Steven Parissien,2014-05-13 The Life of the Automobile is the first comprehensive world history of the car The automobile has arguably shaped the modern era more profoundly than any other human invention and author Steven Parissien examines the impact development and significance of the automobile over its turbulent and colorful 130 year history Readers learn the grand and turbulent history of the motor car from its earliest appearance in the 1880s as little more than a powered quadricycle and the innovations of the early pioneer carmakers The author examines the advances of the interwar era the Golden Age of the 1950s and the iconic years of the 1960s to the decades of doubt and uncertainty following the oil crisis of 1973 the global mergers of the 1990s the bailouts of the early twenty first century and the emergence of the electric car This is not just a story of horsepower and performance but a tale of extraordinary people of intuitive carmakers such as Karl Benz Sir Henry Royce Giovanni Agnelli Fiat Andr Citro n and Louis Renault of exceptionally gifted designers such as the eccentric Ohio born Chris Bangle BMW and of visionary industrialists such as Henry Ford Ferdinand Porsche the Volkswagen Beetle and Gene Bordinat the Ford Mustang among numerous other game changers Above all this comprehensive history demonstrates how the epic story of the car mirrors the history of the modern era from the brave hopes and soaring ambitions of the early twentieth century to the cynicism and ecological concerns of a century later Bringing to life the flamboyant entrepreneurs shrewd businessmen and gifted engineers that worked behind the scenes to bring us horsepower and performance The Life of the Automobile is a globe spanning account of the auto industry that is sure to rev the engines of entrepreneurs and gearheads alike **Building Britannia** Steven Parissien,2023-11-16 An ambitious history of Britain told through the stories of twenty five notable structures from the Iron Age fortification of Maiden Castle in Dorset to the Gherkin Building Britannia is a chronicle of social political and economic change seen through the prism of the country s built environment but also a sequence of closely observed studies of a series of intrinsically remarkable structures some of them beautiful or otherwise imposing some of them more coldly functional all of them with richly fascinating stories to tell Steven Parissien tells both a national story tracing how a growing sense of British nationhood was expressed through the country s architecture and also examines how these structures were used by later generations to signpost mythologise or remake British history Rubbing shoulders with some expected building choices the Roman baths at Aquae Sulis the early Gothic splendour of Lincoln Cathedral and the Tudor jewel that is Little Moreton Hall are some striking inclusions that promise to open doors into what will be for many readers less familiar areas of social history these include The Briton s Protection a Regency pub close in Manchester city centre and the Edwardian Baroque Electric Cinema in Notting Hill one of the country s oldest working cinemas Thus as well

as identifying the relevance of certain iconic structures to the unfolding of the national story Building Britannia finds fascination and meaning in the everyday and the disregarded      *Twentieth-Century Britain* Kenneth O. Morgan, 2000-08-10 First published as part of the best selling The Oxford Illustrated History of Britain Kenneth Morgan's Very Short Introduction to Twentieth Century Britain examines the forces of consensus and of conflict in twentieth century Britain The account covers the trauma of the First World War and the social divisions of the twenties fierce domestic and foreign policy debates in the thirties the impact of the Second World War for domestic transformation popular culture and the loss of empire the transition from the turmoil of the seventies to the aftermath of Thatcherism and the advent of New Labour Throughout cultural and artistic themes are woven into the analysis along with the distinct national experiences of Scotland Wales and Ireland The profound tension that shook the United Kingdom are juxtaposed against equally deep forces for stability cohesion and a sense of historic identity ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable      **The English Buildings Book** Philip Wilkinson, Peter Ashley, 2006 This is the most comprehensive single volume on English architecture for the general reader It is a visual cornucopia and a tribute to the diversity of the English built environment which is among the richest and most diverse in the world Over 700 buildings are described and illustrated and they range from the architectural icons to the less noticeable but equally fascinating buildings of England's towns and villages
