The shifting focus of the Armenian Cause

The issue of the Armenian Genocide did not manifest any regular political expression until the late 1960s. The Armenian Cause, as it has come to be known (*Hai Tahd* in Western Armenian, *Hai Dahit* in Eastern Armenian), followed mass demonstrations in particular in 1965. That was the 50th year marking the arrest of notable Armenians in Istanbul on April 24, which heralded the massacres and deportations that followed

NAREK SEFERIAN,
Researcher

Surprisingly, rather little place is given to Soviet Armenia in 1965, running contrary to the anti-national policies of the USSR. It did not take long for communities within the engaged Armenian diaspora to take on the mantle of genocide recognition as their primary cause d'être.¹

At that time, an Armenian genocide was a non-integer for the Turkey's Westermanned. No such thing happened, according to the official line. The past Armenian presence in Anatolia and whatever remained of the once-great empire was strongly suppressed. Genocide denial, in fact, encompassed the denial of any Armenian cultural heritage in Turkey. Revisionist nationalism was still the anatomy of the country, after all -- including for the Armenian population. April 24, 1965, also saw a public event in Istanbul, led by a former parliamentarian of Armenian background, Ben Tazian. On that day, around 25-30 Armenians placed wreaths at the memorial to Atatürk and the revolution in Taksim Square, drawing huge commemorations in communities elsewhere in the

world to "the 50th anniversary of the unpleasant events that took place during Ottoman times."²

Until the 1990s, then, it was recognition and recognition alone that was the primary agenda item for the organized Armenian diaspora. Having authoritative bodies -- most often national legislatures -- pass resolutions recognizing the massacres as a genocide and calling on Turkey to do the same was considered a success for relatively small community groups in which entire operations were often being run by a handful of dedicated, volunteer individuals.

Distinct from parliamentary resolutions, Armenian Studies had begun to grow as a separate discipline in the Western world even before 1965, reaching beyond its niche among scholars of the Near East or Middle East or Oriental Studies.³ Many areas of interest in Armenian Studies later overlapped with Diaspora Studies and, still later, the study of genocide or comparative studies of genocides. Over the course of the past three or four decades, Armenian and Turkish points of view have spread in the academic realm as well, far away from legislatures or desks of high-level officials in capitals around the world.⁴

The Karabakh Conflict Between Armenia and Azerbaijan M. Hakan Yavuz, Michael M. Gunter, 2022-11-29 This book focuses on Post Soviet ethnic conflicts and Russia s involvement in them In light of its significant importance for general ethnic conflict specifically the post Soviet Caucasus along with the most recent war just fought over the area from September November 2020 this book appropriately argues that it is time to reconsider Karabakh This project deals with the historical social and political aspects of the Karabakh issue regarding its origins development and the current status of the conflict subsequent to the war in the autumn of 2020 Thus the main themes will

stress these points as well as the importance of the Karabakh issue for the future by considering its precedents and implications for other secessionist wars This book also explores how such wars begin and end the international legal precedents of self determination versus territorial integrity its implications for post Soviet developments and conflicts and the latest successful weapons developments lessons from the recent war involving drones among others such as Azerbaijan s rich oil reserves

The Armenians David Marshall Lang, Christopher J. Walker, 1987-02-01 The Hidden Holocaust During the course of the First World War considerably over a million Armenians were slaughtered in one of the most horrific but least known genocides of recent history The then government of Ottoman Turkey made a decision to liquidate their Armenian Christian subjects as a people Armenian conscripts in the Ottoman armies were starved beaten and machine gunned Armenian intellectuals were murdered In Armenian villages men were taken away and shot while their women and children were rounded up and forced to walk southwards into the deserts where many collapsed and died of hunger and exhaustion The survivors were then incarcerated in open air concentration camps from which few emerged alive All of this has been recorded in documents and individual memoirs There can be no doubt that the genocide took place with full government knowledge and approval But even today the present Turkish government denies the reality of the Armenian genocide and has erased it from official Turkish history Yet for the Armenian people it is essential that the facts of their sufferings are recognized and their claims acknowledged The Armenians is one of the few accessible accounts of this little known episode But more than this it gives an overview of past Armenian history and culture the present situation of the Armenian diaspora around the world and prospects for the future Written by David M Lang and Christopher J Walker two leading writers on the Armenian situation this new edition of this classic report also refers to the acute contemporary problems for Armenians in Lebanon and Iran as well as continuing repression in Turkey An important report on an exceptional and cohesive minority group which should be read by all those concerned with human rights and history as well as the Armenian people wherever they live
