Onur Yildirim

The Armenian Question 1914-1923:

The Armenian Question, 1914-1923 Kemal Öke, 1988 Investigates the nature of the Armenian Question which erupted in the Ottoman Empire during the 19th century Evaluates the phenomena from the viewpoint of international relations Concludes that the efforts of the Ottoman both towards modernization and becoming a nation proved to be useless in overcoming the counter cultural opposition in the Armenians and in integrating them into the main social structure The Treatment of Armenians in the Ottoman Empire, 1915-1916 James Bryce Bryce (Viscount), James Bryce, Arnold Toynbee, 2000

The Armenian Massacres in Ottoman Turkey Guenter Lewy, 2005-11-30 Avoiding the sterile was it genocide or not debate this book will open a new chapter in this contentious controversy and may help achieve a long overdue reconciliation of Armenians and Turks **The Armenian Issue and the Jews** Sedat Laçiner, Ibrahim Kaya, 2002 **The History of the**

Armenian Genocide Vahakn N. Dadrian, 2003 Dadrian a former professor at SUNY Geneseo currently directs a genocide study project supported by the Guggenheim Foundation The present study analyzes the devastating wartime destruction of the Armenian population of the Ottoman Empire as the cataclysmic culmination of a historical process involving the progressive Turkish decimation of the Armenians through intermittent and incremental massacres In addition to the excellent general bibliography there is an annotated bibliography of selected books used in the study Annotation copyright by Book News Inc Portland OR **The Armenians** Razmik Panossian, 2006-05-27 The Armenians traces the evolution of

Armenia and Armenian collective identity from its beginnings to the Armenian nationalist movement over Gharabagh in 1988 Applying theories of national identity formation and nationalism Razmik Panossian analyzes different elements of Armenian identity construction and argues that national identity is modern predominantly subjective and based on a political sense of belonging Yet he also acknowledges the crucial role of history art literature religious practice and commerce in preserving the national memory and shaping the cultural identity of the Armenian people Panossian explores a series of landmark events among them Armenians first attempts at liberation the Armenian renaissance of the nineteenth century the 1915 genocide of the Ottoman Armenians and Soviet occupation He shows how these influences led to a multilocal evolution of Armenian identity in various places in and outside of Armenia notably in diasporan communities from India to Venice Today these numerous identities contribute to deep divisions and tensions within the Armenian nation the most profound of which is the cultural divide between Armenians residing in their homeland and those who live in the United States Canada the Middle East and elsewhere Considering the diversity of this single nation Panossian questions the theoretical assumption that nationalism must be homogenizing Based on extensive research conducted in Armenia and the diaspora including interviews and translation of Armenian language sources The Armenians is an engaging history and an invaluable comparative study

Imperialism, Evangelism and the Ottoman Armenians, 1878-1896 Jeremy Salt, 2013-10-31 First Published in 1993 This book is about the Armenians but it is also about the diplomats missionaries and politicians whose interests and involvement

helped to create the Armenian question in the last quarter of the nineteenth century It is also about public opinion and particularly the religious and racial biases that were usually carried into any discussion of Ottoman affairs **Britain's Levantine Empire, 1914-1923** Daniel-Joseph MacArthur-Seal,2021 Britain's Levantine Empire 1914-1923 tells a unique history of the impact of British soldiers and government policy on the Eastern Mediterranean during the First World War and its aftermath The Armenian Genocide Hamo B. Vassilian,1992 Political Uses of the Past Giovanni Levi,Jacques Revel,2014-04-08 This work addresses political and historiographical uses of history A group of leading historians and thinkers discuss questions of collective identity and representation in relation to the fluctuating concept of Past and its changing relevance Among the topics are Greek historiographical questions Balkan history the Armenian problem and the Palestine historical narrative *Reigns of Terror* Patricia Marchak,2003-11-10 Marchak departs significantly from mainstream explanations of genocide rejecting racism as a fundamental cause and disputing a wide range of other explanations that cite racist and religious ideologies perception of threat authoritarianism and unique historical circumstances as primary causes She argues that while these variables may be contributing factors states move toward human rights crimes because their governments can no longer sustain a particular social hierarchy Reasons for their paralysis may be economic environmental demographic or purely political In an attempt to re-establish the former status quo they turn against groups low on the hierarchical scale some of which may be defined in ethnic terms If governments come into power as revolutionary forces they may commit such crimes in order to establish a new social hierarchy Other necessary but insufficient conditions for state crimes include the military capacity for committing mass murder the creation of ideology that justifies such action and the failure of independent institutions such as the mass media and universities to counter ideological and military forces *Reigns of Terror* is highly accessible and aimed at an audience of senior undergraduates graduate students and faculty in the social sciences as well as a more general reading public concerned about the many state sponsored crimes against humanity still occurring in the world *After Evangelicalism* Kevin N. Flatt,2013-07-01 At a time when Canadians were arguing about the merits of a new flag the birth control pill and the growing hippie counterculture the leaders of Canada's largest Protestant church were occupied with turning much of English Canadian religious culture on its head In *After Evangelicalism* Kevin Flatt reveals how the United Church of Canada abruptly reinvented its public image by cutting the remaining ties to its evangelical past Flatt argues that although United Church leaders had already abandoned evangelical beliefs three decades earlier it was only in the 1960s that rapid cultural shifts prompted the sudden dismantling of the church's evangelical programs and identity Delving deep into the United Church's archives Flatt uncovers behind the scenes developments that led to revolutionary and controversial changes in the church's evangelistic campaigns educational programs moral stances and theological image Not only did these changes evict evangelicalism from the United Church but they helped trigger the denomination's ongoing numerical decline and decisively changed Canada's religious landscape

Challenging readers to see the Canadian religious crisis of the 1960s as involving more than just Quebec's Quiet Revolution

After Evangelicalism unveils the transformation of one of Canada's most prominent social institutions Diplomacy and Displacement Onur Yildirim, 2007-05-07 This study presents a comprehensive balanced and factually grounded narrative of the Turco Greek Exchange of Populations as a historic event that has been the subject of much distortion in the historiographical traditions of nationalist lore in Greece and Turkey as well as in scholarly publications of various sorts elsewhere over the span of the past eighty years Diplomacy and Displacement contributes to the general literature on the Exchange by incorporating into the broader picture the Turkish dimension of the event particularly the Turkish side of the decision making process and the episode of the Muslim refugees that have been left outside the scope of the research agenda thereby breaking up the established notion of the Exchange skewed towards the Greek side It thus sheds doubt on the success paradigm attributed to this event By adopting a people centered approach to the Lausanne Treaty and its consequences the book offers a critique of official versions of the story and encourages people to consider policy decisions together with their huge and often devastating implications for the lives of ordinary people **Absolute Destruction** Isabel V. Hull, 2013-02-15 In a book that is at once a major contribution to modern European history and a cautionary tale for today Isabel V Hull argues that the routines and practices of the Imperial German Army unchecked by effective civilian institutions increasingly sought the absolute destruction of its enemies as the only guarantee of the nation's security So deeply embedded were the assumptions and procedures of this distinctively German military culture that the Army in its drive to annihilate the enemy military did not shrink from the utter destruction of civilian property and lives Carried to its extreme the logic of military necessity found real security only in extremities of destruction in the silence of the graveyard Hull begins with a dramatic account based on fresh archival work of the German Army's slide from administrative murder to genocide in German Southwest Africa 1904-7 The author then moves back to 1870 and the war that inaugurated the Imperial era in German history and analyzes the genesis and nature of this specifically German military culture and its operations in colonial warfare In the First World War the routines perfected in the colonies were visited upon European populations Hull focuses on one set of cases Belgium and northern France in which the transition to total destruction was checked if barely and on another Armenia in which military necessity caused Germany to accept its ally's genocidal policies even after these became militarily counterproductive She then turns to the Endkampf 1918 the German General Staff's plan to achieve victory in the Great War even if the homeland were destroyed in the process a seemingly insane campaign that completes the logic of this deeply institutionalized set of military routines and practices Hull concludes by speculating on the role of this distinctive military culture in National Socialism's military and racial policies Absolute Destruction has serious implications for the nature of warmaking in any modern power At its heart is a warning about the blindness of bureaucratic routines especially when those bureaucracies command the instruments of mass death Iran at the Paris Peace Conference Philip

Grobien,2024-06-27 The end of the Qajar era in Iran despite the accepted narrative of decline was in fact an occasion of modern and forward thinking nationalism Iran developed an imperial nationalism which was informed by its experiences under British and Russian hegemony and the absorption of Western modern ideas and practices and which now looked towards a future as a sovereign and independent state within the foundational framework of its previous Empire Emboldened by post WWI notions of self determination and the development of international institutions devoted to peace Iran spearheaded its new found diplomacy by sending a delegation to the peace talks in Paris in 1919 This book shows how Iran s immediate post war diplomacy came about the conduct of Iran s delegation to Paris frustrations with the Anglo Persian Agreement and ultimately how Iran s progress became the victim of British imperialism Throwing a spotlight on an under researched period of Iranian history it will be of interest to readers of Iranian history and those interested in the Paris Peace Conference of 1919

No Easy Fix Patricia Marchak,2008-03-26 The UN has adopted a responsibility to protect mandate for humanitarian intervention in civil wars but there is no institutional basis for carrying out that mandate Patricia Marchak argues that unless would be interveners have an understanding of local issues agents who speak local languages and a military force fully prepared to undertake both peaceful and military missions on short notice UN and other attempts to intervene are unlikely to succeed While UN sponsored international criminal courts have been successful in obliging leaders to accept responsibility for their actions during bitter internal wars Marchak argues that they may not be the best means of bringing truth and reconciliation to survivors Based on the principle of individual responsibility they are not designed to deal with collective crimes against humanity and genocide nor are they good instruments for dealing with the breakdown of societies Bringing together her own field interviews documentary material and secondary sources Marchak critically assesses the recent history of international interventions and criminal prosecutions She examines three cases in detail Cambodia Rwanda and the former Yugoslavia in its current forms of Bosnia and Serbia considers their international context prior to and during internal wars and argues that each case has to be understood in its own context and history there is no common pattern and no easy fix that could mend broken societies after the wars *No Easy Fix* is of interest to anyone concerned with how the international community deals with civil wars that involve serious crimes against humanity

Islamic Identity and Development Ozay Mehmet,2002-09-11 Turkey and Malaysia two countries on the Islamic periphery are often not included in discussions of Islamic reassertion and identity Yet both have been at the forefront of modernization and development and are exposed to a rising trend of Islamic revival which discloses a deep psychological identity crisis In *Islamic Identity and Development* Ozay Mehmet examines this identity crisis in the wider context of the Islamic dilemma of reconciling nationalism with Islam He sees the Islamic revival primarily as a protest movement concentrated among urban migrant settlements where uneven post war growth has upset the traditional Islamic order He argues that Islamic societies must move towards greater openness and an organic relationship between rulers and ruled In particular Mehmet suggests

the need for a public policy that is not only responsive to material human needs but which also satisfies the ethical preconditions of the Islamic social contract
