The Art Of Benin:

The Art of Benin Nigel Barley, 2010 When the Portuguese made the first European contact with the west African kingdom of Benin in the late fifteenth and early sixteenth centuries the kingdom was experiencing a golden age Its authority on the Guinea Coast was expanding through military conquests and during the sixteenth century it became a leading power in the region and a major trade partner for European merchants Benin remained an influential independent state and a major political and economic power on the coast though with periods of both decline and prosperity until its conquest by the British in 1897 The arrival in Europe of the treasures from Benin produced an enormous sensation causing a re evaluation of and new appreciation for African art This sumptuous photographic book showcases a series of specially taken photographs of key pieces in the British Museum s collection It opens with an introduction to the kingdom court and culture of Benin which is followed by thematic sections including kingship ceremony women Europeans and animals Throughout stunning photographs of the works are featured alongside close up details

Benin Armand Duchâteau, 1994 The ancient kingdom of Benin lies in the tropical rain forest of West Africa in present day Nigeria During its classical age from the fourteenth to the nineteenth century it produced one of the continent s most glorious artistic legacies To reflect the splendor of the royal court the Oba king commissioned highly skilled artisans to create rare and beautiful works of cast brass and carved ivory These included human and animal figures relief plaques elephant tusks pendants bracelets life size commemorative heads of Obas and queen mothers and ceremonial objects to adorn the royal palace and the altars honoring Obas of the past The exquisite brass heads were intended to function as objects celebrating ancestors as war trophies and as focal points for sacrificial ceremonies This volume presents a superb selection of artifacts from the Museum für Völkerkunde in Vienna home to one of the world s foremost collections of Benin art Most of these artifacts were acquired at the end of the last century when the influx of Benin objects into Europe after the destruction of Benin City caused a sensation among art experts and caught the interest of museum representatives and private collectors Of the more than one hundred works reproduced here in full color the majority have never been seen as a group in the U S Most celebrated are the cast brass sculptures including the two figures of dwarfs which have no parallel in sub Saharan Africa A history of the kingdom of Benin up to the British punitive expedition of 1897 provides insight into the politics and culture of one of Africa s greatest civilizations Further chapters discuss the court hierarchy the art of brasscasting the art of Benin and its symbolism and the history of the Benin Collection in Vienna To interpret the rich symbolism in Benin art the book furnishes detailed analyses of the works that are reproduced In his description of myths and ritual observances the author presents a fascinating cosmology in which animals were assigned magical and medicinal powers and the Oba was seen as an intermediary between the earth and the world of spirits

The Art of Status Jelena Subotić,2025-06-26 An illuminating exploration of the relationship between the restitution of looted art global status and the international construction of national cultural heritage Why is art restitution a matter of politics How does the artwork displayed in national museums reflect the international status of the state that owns it Why do some states agree to return looted art and

others resist National art collections have long been a way for states to compete with each other for status prestige and cultural worth in international society In many former imperial nations however these collections include art looted during imperial expansions and colonial occupations While this was once a sign of high international standing the markers of such status particularly in the context of art have since significantly changed A new international legal and normative architecture governing art provenance developed after World War II and became institutionalized in the 1990s and 2000s Since then there have been national and global social movements demanding the return of looted art This shift has established not only that looting is wrong but more importantly that restitution is morally right As a result of this reframing of what it means to own art an artifact's historical provenance has become a core element of its value and the search for provenance and demands for restitution a direct threat to state status The same objects that granted states high international status now threaten to provoke status decline In *The Art of Status* Jelena Suboti examines this relationship between the restitution of looted art and international status with a focus on the Parthenon Elgin Marbles the Benin Bronzes and a collection of paintings looted during the Holocaust that are now housed at the Serbian National Museum Suboti tells the story of these artworks how they were looted how they ended up on display in national museums and how the art restitution disputes have unfolded While these cases are different in terms of their historical context of looting and ownership claims the movements for their restitution and resistance to it illustrate the larger questions of how national cultural heritage is internationally constructed and how it serves states desire for international status and prestige An in depth and nuanced account of art restitution disputes *The Art of Status* illuminates the shifting political significance of art on the international stage from ownership to restitution
