The Color of Culture Daniel H. Krymkowski,2021-01-15 Utilizing written sources as well as nationally representative survey data Daniel H Krymkowski analyzes the extent and causes of African American underrepresentation in the cultural realms of golf hiking hunting and fishing water sports winter sports classical music painting and sculpture ballet and the theater African American participation significantly lags behind that of non Hispanic whites in all of these areas and it is not due to an aversion to these types of activities Rather as Krymkowski shows its primary sources are racial ethnic socioeconomic differences as well as historic and contemporary discrimination both overt and subtle These causes are rooted in the systemic racism that continues to plague the United States The lack of opportunity to participate in such cultural forms deprives African Americans of aesthetic experiences that are central to the human condition and it has implications for both health and the accumulation of cultural and social capital Krymkowski also explores current efforts to increase African

American representation in these areas of culture and discusses the benefits of doing so **Success on the Spectrum**
