Writing his rediscovery of the American objectivists in *Disappearances* and his encounters with the visual arts in *Fragments from Cold Subsequent* **Detecting Texts** Patricia Merivale, Susan Elizabeth Sweeney, 2011-06-07 Although readers of detective fiction ordinarily expect to learn the mystery's solution at the end there is another kind of detective story the history of which encompasses writers as diverse as Poe Borges Robbe Grillet Auster and Stephen King that ends with a question rather than an answer The detective not only fails to solve the crime but also confronts insoluble mysteries of interpretation and identity As the contributors to *Detecting Texts* contend such stories belong to a distinct genre the metaphysical detective story in which the detective hero's inability to interpret the mystery inevitably casts doubt on the reader's similar attempt to make sense of the text and the world *Detecting Texts* includes an introduction by the editors that defines the metaphysical detective story and traces its history from Poe's classic tales to today's postmodernist experiments In addition to the editors contributors include Stephen Bernstein Joel Black John T Irwin Jeffrey T Nealon and others

Beckett's Words David Kleinberg-Levin, 2015-07-30 At stake in this book is a struggle with language in a time when our old faith in the redeeming of the word and the word's power to redeem has almost been destroyed Drawing on Benjamin's political theology his interpretation of the German Baroque mourning play and Adorno's critical aesthetic theory but also on the thought of poets and many other philosophers especially Hegel's phenomenology of spirit Nietzsche's analysis of nihilism and Derrida's writings on language Kleinberg Levin shows how because of its communicative and revelatory powers language bears the utopian promise of happiness the idea of a secular redemption of humanity at the very heart of which must be the achievement of universal justice In an original reading of Beckett's plays novels and short stories Kleinberg Levin shows how despite inheriting a language damaged corrupted and commodified Beckett redeems dead or dying words and wrests from this language new possibilities for the expression of meaning Without denying Beckett's nihilism his picture of a radically disenchanted world Kleinberg Levin calls attention to moments when his words suddenly ignite and break free of their despair and pain taking shape in the beauty of an austere yet joyous lyricism suggesting that after all meaning is still possible **The Cambridge Companion to Beckett** John Pilling, 1994-03-17 The world fame of Samuel Beckett is due to a combination of high academic esteem and immense popularity An innovator in prose fiction to rival Joyce his plays have been the most influential in modern theatre history As an author in both English and French and a writer for the page and the stage Beckett has been the focus for specialist treatment in each of his many guises but there have been few attempts to provide a conspectus view This book first published in 1994 provides thirteen introductory essays on every aspect of Beckett's work some paying particular attention to his most famous plays e.g. *Waiting for Godot* and *Endgame* and his prose fictions e.g. the trilogy and *Murphy* Other essays tackle his radio and television drama his theatre directing and his poetry followed by more general issues such as Beckett's bilingualism and his relationship to the philosophers Reference material is provided at the front and back of the book

Paul Auster and the Influence of Maurice Blanchot

María Laura Arce, 2016-04-11 Poet writer and filmmaker Paul Auster is one of the great contributors to American postmodern literature. Influenced by authors like Poe and the hardboiled detective stories of the 1950s, Auster's novels represented a new genre of anti-detective fiction in which the case itself loses direction and is overshadowed by existential questions. Analyzing three of his novels: *Ghosts* (1986), *The Music of Chance* (1990), and *Mr. Vertigo* (1994), this critical study explores the intertextual relationship between Auster's work and the oeuvre of French writer and critic Maurice Blanchot. The author explores Auster's work as a fictionalization of Blanchot's concept of inspiration and the construction of imaginary space. *Deleuze's*

Literary Clinic Aidan Tynan, 2012-05-15 The first book-length study of Deleuze's critical and clinical project and the conceptualisations of health and illness he developed over the course of his career.

The Ideal Real Paul Davies, 1994 In *The Ideal Real*, Paul Davies argues that Beckett saw this potential self emerging in the world of imagination and symbol, especially in this age where language alone has come to be seen as the vehicle of education and the determiner of identity.

Beckett Before Godot John Pilling, 2004-07-29 A leading Beckett scholar and editor of the *Cambridge Companion to Beckett*, offers a coherent critical account of Beckett's earliest years.

Not One of Them in Place Norman Finkelstein, 2012-02-01 *Not One of Them in Place* is the first book to examine the ways in which Jewish belief, thought, and culture have been shaped and articulated in modern American poetry. Based on the idea that recent American poetry has gravitated between two traditions—romantic and symbolist on the one hand, modernist and objectivist on the other—Norman Finkelstein provides a theoretical framework for reading the Jewish American canon as well as close readings of well-known and less established poets, including Allen Ginsberg, Charles Reznikoff, Louis Zukofsky, Harvey Shapiro, Armand Schwerner, Hugh Seidman, and Michael Heller. *Not One of Them in Place* presents this poetry in a clear and nuanced style, paying equal attention to its historical and its aesthetic dimensions.

Gatekeepers William Marling, 2016-03-15 The romantic idea of the writer as an isolated genius has been discredited, but there are few empirical studies documenting the role of gatekeeping in the literary process. How do friends, agents, editors, translators, small publishers, and reviewers—not to mention the changes in technology and the publishing industry—shape the literary process? This matrix is further complicated when books cross cultural and language barriers: that is, when they become part of world literature. *Gatekeepers* builds on the work of Pierre Bourdieu, Randall Collins, James English, and Mark McGurl, describing the multi-layered gatekeeping process in the context of World Literature after the 1960s. It focuses on four case studies: Gabriel García Márquez, Charles Bukowski, Paul Auster, and Haruki Murakami. The two American authors achieved remarkable success overseas owing to canny gatekeepers; the two international authors benefited tremendously from well-curated translation into English. Rich in archival materials, correspondence between authors, editors, and translators, and publishing industry analyses, interviews with publishers and translators, and close readings of translations, this study shows how the process and production of literature depends on the

larger social forces of a given historical moment William Marling also documents the ever increasing Anglo centric dictate on the gatekeeping process World literature the book argues is not so much a republic of letters as a field of chance on which the conversation is partly bracketed by historic events and technological opportunities *Poetics Journal Digital Archive* Lyn Hejinian,Barrett Watten,2015-02-25 The highly influential Poetics Journal whose ten issues were published between 1982 and 1998 contributed to the surge of interest in the practice of poetics Edited by internationally recognized poet critics Lyn Hejinian and Barrett Watten the journal presents major conversations and debates and invites readers to expand on the critical and creative engagements they represent This archive re presents virtually all the articles originally published in Poetics Journal organized alphabetically by author and in searchable form It features indexes by contributors keywords and volume The writing that appeared in Poetics Journal reflects the development of a range of creative and critical approaches in avant garde poetry and art over two decades In making this content newly available the editors hope to preserve the generative enthusiasm for innovative writing and art it represents while encouraging new uses and contexts A Guide to Poetics Journal is also available see <http://www.upne.com/0819571205.html> for more information **Annual Supplement to the Catalogue of the Library of Parliament in Alphabetical and Subject Order** Canada.
