Illustrated. [With a Portrait.]**. Matthew BLAIR, 1907 **The Paisley Thread Industry and the Men WHO Created It** Matthew Blair, 1907 **Mill Girls and Strangers** Wendy M. Gordon, 2012-02-01 In the nineteenth century mill towns of Preston England Lowell Massachusetts and Paisley Scotland there were specific demands for migrant and female labor and potential employers provided the necessary respectable conditions in order to attract them Using individual accounts this innovative and comparative study examines the migrants lives by addressing their reasons for migration their relationship to their families the roles they played in the cities to which they moved and the dangers they met as a result of their youth gender and separation from family Gordon details both the similarities and differences in the women s migration experiences and somewhat surprisingly concludes that they became financially independent rather than primarily contributors to a family economy Tariff Information Surveys Tariff Commission, 1927 The Development of the West of Scotland 1750-1960 Anthony Slaven, 2013-11-05 The economic and social problems of modern Scotland are at the centre of current debate about regional economic growth social improvement and environmental rehabilitation In this book as relevant today as when it was first published in 1975 Anthony Slaven argues that the extent and causes of these problems are frequently underestimated thus making development policies less than fully effective The major economic and social weaknesses of the west of Scotland are shown to be rooted in the regions former strengths The author demonstrates how although the region and its people have resisted change a thriving and self reliant nineteenth century economy based on local resources and manpower has given way in the present century to vanishing skills

and products unemployment and social deprivation Since 1945 economic and social planning has helped to improve the situation although many difficulties remain Seen in the historical perspective provided by this revealing study the present industrial problems of the west of Scotland and their remedies become clearer Mr Slaven argues that the older industries deserve more help for without this he believes the ineffectiveness of development policies is likely to be perpetuated This book was first published in 1975

Financing Cotton Steven Toms,2020 This book links the world of finance directly to the fate of the cotton and textile industry long a metaphor for the rise and fall of Britain as a manufacturing economy for the first time The cotton and textile industry at the centre of the industrial revolution has long been a metaphor for the rise and fall of Britain as a manufacturing economy This book links the world of finance directly to the fate of the cotton and textile industry for the first time Using a unique underlying data set drawn from financial business records of over 100 cotton and textile manufacturing firms based in Lancashire and ranging from the late eighteenth to the twenty first century Financing Cotton analyses the dynamics of industrial capitalism by uncovering the interaction between financial systems and technological development and innovation It offers new perspectives on business practices and their evolution as well as decisions taken by entrepreneurs managers and employees The book broadly investigates five questions how and why were individual firms profitable and what happened to these profits how did the firms financial structure and performance influence their attitudes to employment regulation what were the effects of financial networks and institutions on the characteristics of the first and second phase of industrialisation how did the financial system enable or stifle entrepreneurship and investment in new technology and finally why did consolidation and industrial restructuring offer survival options for some firms but not for others
