Iris Chang, 2012-01 Relates an account of the 1937 massacre of 250 000 Chinese civilians in Nanking by the invading Japanese military a carnage for which the Japanese government has never admitted responsibility **FDR and High Treason at Pearl Harbor** Charles Sprinkles, Nhan Thanh Thi Nguyen Sprinkles, 2024-07-25 Charles Sprinkles uses recently declassified documents to argue that President Franklin D Roosevelt knew about Pearl Harbor before it happened Pearl Harbor is a fallacy that needs to be corrected American s have been taught in schools that this was a surprise sneak attack by the Imperial Japanese government on the United States Navy and Army at Pearl Harbor nothing could be further from the truth FDR help orchestrate and instigate the attack by the Imperial Japanese Navy on Pearl Harbor in 1941 There was more than enough information that passed before FDR eyes from 1933 to 1941 that showed that Japan was going to attack the United States in Hawaii and just how weak the United States defenses were at Pearl Harbor Important information was ignored such as the war games at Pearl Harbor in 1932 and 38 the book Winged Defense by General William Mitchell in 1925 exam question for cadets to graduate the Imperial Japanese Naval Academy How would you conduct a surprise attack on Pearl Harbor which FDR knew about the Panay Incident and the Nan King Massacre all the intercepted codes that said Japan was going to attack Pearl Harbor and yet FDR did nothing to stop Japan After the war there was an investigation into the attack on Pearl Harbor however all the information had been classified and could not be released to investigate in the late 1940 s This is not the case today **Yangtze River Gunboats**

Dorwart's History of the Office of Naval Intelligence, 1865-1945 Jeffery Dorwart, 2019-10-01 This is the history of the founding in 1882 and operation through two world wars of America's first permanent intelligence agency the Office of Naval Intelligence In this study Dr Jeffery M Dorwart shows how and why a tiny late 19th century U S Navy bureau created to collect information about foreign warship design became during two world wars a complex and sometimes troubled domestic and worldwide intelligence agency More significantly this history of O N I demonstrates how the founders and first generations of U S naval officers trained to man warships at sea confronted what seemed an inherent dilemma in new missions that interfered with providing technical and operational information to their navy Dorwart explains the forces that created this dilemma and how ONI officers responded in different ways to their intelligence mission This history recounts how from the very beginning ONI duty during the last decades of the 19th century seemed conflicting Some found the new assignment very rewarding in collecting and collating data for the U S to build a New Navy of steel and steam powered warships armed with the latest rifled ordnance But other naval officers saw assignment to this tiny office as a monotonous dead end assignment endangering their careers as shipboard operators Dorwart shows how the first and second world wars and interwar period dramatically accelerated the naval intelligence office's dilemma The threats in both oceans from powerful enemy navies equipped with the latest technology and weaponry gave an urgency to the collection of information on the strategies warships submarines and aircraft development of potential and actual naval enemies But at the same time ONI was asked to provide information of possible domestic threats from suspected enemy spies terrorists saboteurs or anti war opponents This led ONI officers to wiretap break and enter pursue surveillance of all types of people from foreign agents to Americans suspected of opposition to strengthening the U S Navy or becoming involved in world wars This history explains that many ONI directors and officers were highly motivated to collect as much information as possible about the naval military capabilities and strategies of Germany Italy Japan and even allies ONI officers understood that code breaking was part of their job as well But this all led some to become deeply involved in domestic spying wiretapping breaking and entering on private property These extralegal and at times illegal operations Dorwart argues confused some ONI officers leading to too much information that clouded vital intelligence such as Japanese plans to attack American naval bases In the
