Deadly Developments Stephen and Downs Reyna, 2005-08-04 Ten anthropologists trace the machinations of war and the effects of violence in capitalist states from their formation to the present This collection the newest volume in the War and Society series questions the foundations of classical social theory while investigating local and international conflict through the critical and cross cultural lens of social theory history and anthropology The essays combine to challenge the notion developed by social theorists such as Comte Spencer Durkheim and Engels that war will diminish with the formation and the perpetuation of a capitalist economy and industry The development of capitalist states and the nefarious and violent processes which must occur to reproduce capitalism are rarely realized and then infrequently analyzed Many western and ethnocentric scholarly representations of war succeed in hiding the deadly developments that occur as a result of capitalist state formation and relations

Crisis of the State Bruce Kapferer, Bjørn Enge Bertelsen, 2009-04-01 Analyzing both historical contexts and geographical locations this volume explores the continuous reformation of state power and its potential in situations of violent conflict The state otherwise understood as an abstract and transcendent concept in many works on globalization in political philosophy is instead located and analyzed here as an embedded part of lived reality This relationship to the state is exposed as an integral factor to the formation of the social whether in Africa the Middle East South America or the United States Through the examination of these particular empirical settings of war or war like

situations the book further argues for the continued importance of the state in shifting social and political circumstances In doing so the authors provide a critical contribution to debates within a broad spectrum of fields that are concerned with the future of the state the nature of sovereignty and globalization *Fieldwork Under Fire* Carolyn Nordstrom, Antonius C. Lubkemann, 2010-03-15 Fought in the wake of a decade of armed struggle against colonialism the Mozambican civil war lasted from 1977 to 1992 claiming hundreds of thousands of lives while displacing millions more As conflicts across the globe span decades and generations Stephen C Lubkemann suggests that we need a fresh perspective on war when it becomes the context for normal life rather than an exceptional event that disrupts it *Culture in Chaos* calls for a new point of departure in the ethnography of war that investigates how the inhabitants of war zones live under trying new conditions and how culture and social relations are transformed as a result Lubkemann focuses on how Ndaou social networks were fragmented by wartime displacement and the profound effect this had on gender relations Demonstrating how wartime migration and post conflict return were shaped by social struggles and interests that had little to do with the larger political reasons for the war Lubkemann contests the assumption that wartime migration is always involuntary His critical reexamination of displacement and his engagement with broader theories of agency and social change will be of interest to anthropologists political scientists historians and demographers and to anyone who works in a war zone or with refugees and migrants

Deliberative Democracy and Human Rights Harold Hongju Koh, 1999-01-01 In this important collection of writings leading legal and political thinkers address a wide array of issues that confront societies undergoing a transition to democratic rule Bridging the gap between theory and practice in international human rights law and policy the contributors

continue discussions that were begun with the late Argentine philosopher lawyer Carlos Santiago Nino then extend those conversations in new directions inspired by their own and Nino's work. The book focuses on some of the key questions that confront the international human rights movement today: What is the moral justification for the concept and content of universal human rights? What is the relationship among nation building, constitutionalism and democracy? What are the political implications for a conception of universal human rights? What is the relationship between moral principles and political practice? How should a society confront what Kant called radical evil? And how does a successor regime justly and practically hold a prior regime accountable for gross violations of human rights?

Death Squad Jeffrey A. Sluka, 2010-08-03

There is real personal danger for anthropologists who dare to speak and write against terror by doing so they potentially and sometimes actually bring the terror down on themselves. Jeffrey A. Sluka from the Introduction. *Death Squad* is the first work to focus specifically on the anthropology of state terror. It brings together an international group of anthropologists who have done extensive research in areas marked by extreme forms of state violence and who have studied state terror from the perspective of victims and survivors. The book presents eight case studies from seven countries: Spain, India, Punjab and Kashmir, Argentina, Guatemala, Northern Ireland, Indonesia and the Philippines to demonstrate the cultural complexities and ambiguities of terror when viewed at the local level and from the participants' point of view. Contributors deal with such topics as the role of Loyalist death squads in the culture of terror in Northern Ireland, the three tier mechanism of state terror in Indonesia, the complex role of religion in violence by both the state and insurgents in Punjab and Kashmir and the ways in which disappearances are used to destabilize and demoralize opponents of the state in Argentina, Guatemala and India.

The Intercultural Campus Gregory Kazuo Tanaka, 2003

In a post 9/11 nation that is gripped by race fear, this book presents an approach to diversity that promotes peace and understanding across difference. Discussing studies conducted over an eight year period, *The Intercultural Campus* reveals the underlying sources of racial fragmentation on college and university campuses and outlines a new framework for diversity. Citing the results from an innovative four year project that completely transformed the culture of a university, Greg Tanaka describes specific programs that all campuses should implement when admitting diverse classes. Signaling a larger shift for progressives away from binary essentialized notions of identity to individual agency or subjectivity, this book advances a social change philosophy based in interdependence and highlights the skills that future U.S. leaders will need to interact successfully with others in our diverse global society.

The Border Multiple Dorte Jaegtic Andersen, Martin Klatt, Marie Sandberg, 2016-03-23

Addressing and conceptualizing the changing character of borders in contemporary Europe, this book examines developments occurring in the light of European integration processes and an on going tightening of Europe's external borders. Moreover, the book suggests new ways of investigating the nature of European borders by looking at border practices in the light of the mobility turn and thus as dynamic, multiple, diverse and best expressed in everyday experiences of people living at and with borders rather than

focusing on static territorial divisions between states and regions at geopolitical level It provides border scholars and researchers as well as policymakers with new empirical and theoretical evidence on the de and re bordering processes going on in diverse border regions in Europe both within and outside of the EU Violence, Coercion, and State-Making in Twentieth-Century Mexico Wil G. Pansters, 2012-05-30 Mexico is currently undergoing a crisis of violence and insecurity that poses serious threats to democratic transition and rule of law This is the first book to put these developments in the context of post revolutionary state making in Mexico and to show that violence in Mexico is not the result of state failure but of state making While most accounts of politics and the state in recent decades have emphasized processes of transition institutional conflict resolution and neo liberal reform this volume lays out the increasingly important role of violence and coercion by a range of state and non state armed actors Moreover by going beyond the immediate concerns of contemporary Mexico this volume pushes us to rethink longterm processes of state making and recast influential interpretations of the so called golden years of PRI rule Violence Coercion and State Making in Twentieth Century Mexico demonstrates that received wisdom has long prevented the concerted and systematic study of violence and coercion in state making not only during the last decades but throughout the post revolutionary period The Mexican state was built much more on violence and coercion than has been acknowledged until now Cocaleros. Violence, drugs and social mobilization in the post-conflict Upper Huallaga Valley, Peru, 2009

Enduring Violence Cecilia Menjívar, 2011-04-01 Drawing on revealing in depth interviews Cecilia Menj var investigates the role that violence plays in the lives of Ladina women in eastern Guatemala a little visited and little studied region While much has been written on the subject of political violence in Guatemala Menj var turns to a different form of suffering the violence embedded in institutions and in everyday life so familiar and routine that it is often not recognized as such Rather than painting Guatemala or even Latin America as having a cultural propensity for normalizing and accepting violence Menj var aims to develop an approach to examining structures of violence profound inequality exploitation and poverty and gender ideologies that position women in vulnerable situations grounded in women s experiences In this way her study provides a glimpse into the root causes of the increasing wave of femicide in Guatemala as well as in other Latin American countries and offers observations relevant for understanding violence against women around the world today

The Anthropology of Ireland Hastings Donnan, Thomas M. Wilson, 2020-08-04 Where and what is Ireland What are the identities of the people of Ireland How has European Union membership shaped Irish people s lives and interests How global is local Ireland This book argues that such questions can be answered only by understanding everyday aspects of Irish culture and identity Such understanding is achieved by paying close attention to what people in Ireland themselves say about the radical changes in their lives in the context of wider global transformation As notions of sex religion and politics are radically reworked in an Ireland being re imagined in ways inconceivable just a generation ago anthropologists have been at the forefront of recording the results The first comprehensive book length introduction to anthropological research on the

island as a whole The Anthropology of Ireland considers the changing place in a changing Ireland of religion sex sport race dance young people the Travellers St Patrick s Day and much more *Game Without End* Jaime E. Malamud Goti, 1996 This book is the first written by an insider about the tragic outcome of Argentina s human rights trials Jaime Malamud Goti was one of two advisers asked by President Raul R Alfonsin to organize the trials This was not an assignment without risk Malamud Goti received constant threats But did the trials further the cause of democracy as the prosecutors so fervently had hoped Even though he was an architect of the proceedings Malamud Goti argues that they did not In fact he says they may have contributed to the new mode of authoritarianism and bigotry now rising in Argentina What most profoundly interests Malamud Goti is that his nation persists in turning logic on its head multitudes of Argentineans respond to authoritarianism by playing political and judicial hardball inciting a response in kind They are playing a game without end *Game Without End* is an honest attempt to express deeply assimilated experience the effort of a scholar who while serving as secretary of state encouraged his compatriots to turn over a new leaf but who by his own assessment failed Returning to Argentina later as a Guggenheim scholar and a MacArthur peace scholar Malamud Goti researched much of this book in Buenos Aires where he interviewed former opponents a few of them in military prisons He hopes that other nations struggling to make the transition from authoritarianism to democracy can learn from Argentina s experience In a passionate foreword his late wife Libbet draws particular attention to former Yugoslavia
