**The Penumbra Unbound** Brook Ziporyn, 2012-02-01 The Penumbra Unbound is the first English language book length study of the Neo Taoist thinker Guo Xiang d 312 C E commentator on the classic Taoist text the Zhuangzi The author explores Guo s philosophy of freedom and spontaneity explains its coherence and importance and shows its influence on later Chinese philosophy particularly Chan Buddhism The implications of his thought on freedom versus determinism are also considered in comparison to several positions advanced in the history of Western philosophy notably those of Spinoza Kant Schopenhauer Fichte and Hegel Guo s thought reinterprets the classical pronouncements about the Tao so that it in no way signifies any kind of metaphysical absolute underlying appearances but rather means literally nothing This absence of anything beyond appearances is the first premise in Guo s development of a theory of radical freedom one in which all phenomenal things are self so creating and transforming themselves without depending on any justification beyond their own temporary being

**Literary Information in China** Bruce Rusk, Anatoly Detwyler, Christopher Nugent, Xiao Liu, Jack W. Chen, 2021-05-11 Information has become a core concept across the disciplines yet it is still often seen as a unique feature of the Western world that became central only in the digital age In this book leading experts turn to China s textual tradition to show the significance of information for reconceptualizing the work of literary history from its beginnings to the present moment Contributors trace the organization of literary information across China s three millennia of history examining the forms and

practices of information management that have evolved alongside the increasing scale and complexity of textual production. They reimagine literary history as information processing detailing the many kinds of storage, encoding, sorting, and transmission that constitute and feed back into China's long and ever-growing cultural tradition. The volume features state-of-the-field essays on all major forms of literary information management from graphs to internet literature and from commentaries to literary museums and archives. By shifting focus from individual works and their authors to the informatic schemata of literature, it identifies three scales of information management: the word, the document, and the collection, and surveys the forms that operate at each level such as the dictionary, the anthology, and the library. *Literary Information in China* is a groundbreaking work that provides a systematic and innovative reassessment of literary history with implications that extend beyond the particular Chinese context, revealing how informatic practices shape literary tradition.

It includes the *Analects of Confucius*, *Mengzi*, *Xunzi*, *Mozzi*, *Laozi*, *Dao De Jing*, *Zhuangzi*, and *Han Feizi*, as well as short chapters on the *Da Xue* and the *Zhong Yong*. The translations aim to be true to the originals yet accessible, with the goal of opening up these rich and subtle philosophical texts to modern readers without

prior training in Chinese thought      *The Political Philosophy of Zhang Taiyan* Viren Murthy, 2011-02-28 Zhang Taiyan 1868-1936 is famous for being one of the first thinkers in China to promote revolution in the early twentieth century. Scholars have addressed Zhang's revolutionary and nationalist thought but until this work there has not been any sustained engagement with Zhang's Buddhist writings which aimed to understand and criticize the world from the perspective of consciousness. These philosophical works are significant because they exemplify how as Chinese intellectuals entered the global capitalist world they constantly tried to find resources to create an alternative. As the author argues in the conclusion, this desire to create an alternative to capitalism remained throughout twentieth century China and continues today in the works of critical intellectuals such as Wang Hui. Thus this work is important not only to understand our past but to hope for a better future.

**Daoism and Environmental Philosophy** Eric S. Nelson, 2020-10-01 Daoism and Environmental Philosophy explores ethics and the philosophy of nature in the Daodejing, the Zhuangzi, and related texts to elucidate their potential significance in our contemporary environmental crisis. This book traces early Daoist depictions of practices of embodied emptying and forgetting and communicative strategies of undoing the fixations of words, things, and the embodied self. These are aspects of an ethics of embracing plainness and simplicity, nourishing the asymmetrically differentiated yet shared elemental body of life of the myriad things and being responsively attuned in encountering and responding to things. These critical and transformative dimensions of early Daoism provide exemplary models and insights for cultivating a more expansive ecological ethos, environmental culture of nature, and progressive political ecology. This work will be of interest to students and scholars interested in philosophy, environmental ethics, and philosophy, religious studies, and intellectual history.      **Daoist**

**Philosophy and Literati Writings in Late Imperial China** Zuyan Zhou, 2013-05-30 This volume first explores the transformation of Chinese Daoism in the late imperial period through the writings of prominent intellectuals of the times. In such a cultural context, it then launches an in-depth investigation into the Daoist dimensions of the Chinese narrative masterpiece *The Story of the Stone*, the inscriptions of Quanzhen Daoism in the infrastructure of its religious framework, the ideological ramifications of the Daoist concepts of chaos, purity, and the natural, as well as the Daoist images of the gourd, fish, and bird. Zhou presents the central position of Daoist philosophy both in the ideological structure of *The Stone* and the literati culture that engenders it.      **The Philosophical Challenge from China** Brian Bruya, 2015-05-01 Rigorously argued and

meticulously researched, an investigation of current topics in philosophy that is informed by the Chinese philosophical tradition. For too long, analytic philosophy discounted insights from the Chinese philosophical tradition. In the last decade or so, however, philosophers have begun to bring the insights of Chinese thought to bear on current philosophical issues. This volume brings together leading scholars from East and West who are working at the intersection of traditional Chinese philosophy and mainstream analytic philosophy. They draw on the work of Chinese philosophers ranging from early Daoists and Confucians to twentieth-century Chinese thinkers, offering new perspectives on issues in moral psychology, political

philosophy and ethics and metaphysics and epistemology Taken together these essays show that serious engagement with Chinese philosophy can not only enrich modern philosophical discussion but also shift the debate in a meaningful way Each essay challenges a current position in the philosophical literature including views expressed by John Rawls Peter Singer Nel Noddings W V Quine and Harry Frankfurt The contributors discuss topics that include compassion as a developmental virtue empathy human worth and democracy ethical self restriction epistemological naturalism ideas of oneness know how and action without agency Contributors Stephen C Angle Tongdong Bai Brian Bruya Owen Flanagan Steven Geisz Stephen Hetherington Philip J Ivanhoe Bo Mou Donald J Munro Karyn L Lai Hagop Sarkissian Bongrae Seok Kwong loi Shun David B Wong Brook A Ziporyn **Vital Post-Secular Perspectives on Chinese Philosophical Issues** Lauren F.

Park,2009-08-13 Merleau Ponty and Buddhism explores a new mode of philosophizing through a comparative study of Maurice Merleau Ponty s phenomenology and philosophies of major Buddhist thinkers such as Nagarjuna Chinul Dogen Shinran and Nishida Kitaro Challenging the dualistic paradigm of existing philosophical traditions Merleau Ponty proposes a philosophy in which the traditional opposites are encountered through mutual penetration Likewise a Buddhist worldview is articulated in the theory of dependent co arising or the middle path which comprehends the world and beings in the third space where the subject and the object or eternalism and annihilation exist independent of one another The thirteen essays in this volume explore this third space in their discussions of Merleau Ponty s concepts of the intentional arc the flesh of the world and the chiasm of visibility in connection with the Buddhist doctrine of no self and the five aggregates the Tiantai Buddhist concept of threefold truth Zen Buddhist huatou meditation the invocation of the Amida Buddha in True Pure Land Buddhism and Nishida s concept of basho In his philosophical project Merleau Ponty makes vigorous efforts to challenge the boundaries that divide philosophy and non philosophy the East and the West experience and concepts the subject and the object and body and mind Combining the Eastern philosophical tradition of Buddhism with Merleau Ponty s phenomenology

Merleau Ponty and Buddhism offers an intercultural philosophy in which opposites intermingle in a chiasmic relationship and which brings new understanding regarding the self and the self's relation with others in a globalized and multicultural world

**Cultivating Perfection** Louis Komjathy, 2007 Employing a comparative religious studies approach this book provides a comprehensive discussion of early Quanzhen as a Daoist religious movement characterized by asceticism alchemical transformation and mystical experiencing Emphasis is placed on the complex interplay among views of self religious praxis and religious experience Chinese Walls in Time and Space Roger Des Forges, Minglu Gao, Chiao-mei Liu, Haun Saussy, 2010-03-31 Are walls remnants of ancient and medieval societies destined to become anachronistic in modern and post modern times Or will they persist shaping as well as adjusting to new conditions Do walls necessarily constrain and even isolate those who live within them or can they act as a medium of support and communication for people on both sides This volume addresses these questions Authors from six disciplines history art law medicine communication and film provide multiple perspectives on various kinds of walls material ones around and within states cities and towns as well as virtual ones regulating the administration of justice the flow of pathogens and the transmission of information **Imitations of the**

**Self: Jiang Yan and Chinese Poetics** Nicholas Morrow Williams, 2014-11-06 Imitations of the Self reevaluates the poetry of Jiang Yan 444 505 long underappreciated because of its pervasive reliance on allusion by emphasizing the self conscious artistry of imitation In context of imitation poetry the popular genre of the Six Dynasties era Jiang's work can be seen as the culmination of central trends in Six Dynasties poetry His own life experiences are encoded in his poetry through an array of literary impersonations reframed in traditional literary forms that imbue them with renewed significance A close reading of Jiang Yan's poetry demonstrates the need to apply models of interpretation to Chinese poetry that do justice to the multiplicity of authorial self representation New Life for Old Ideas Yanming An, Brian J. Bruya, 2019-05-15 Munro was

more than an intellectual mentor He has been an unfailing source of wisdom inspiration and support Over five decades Donald J Munro has been one of the most important voices in sinological philosophy His rapprochement with contemporary cognitive and evolutionary science helped bolster the insights of Chinese philosophers and set the standard for similar explorations today In this festschrift volume students of Munro and scholars influenced by him celebrate Munro's body of work in essays that extend his legacy exploring their topics as varied as the ethics of Zhuangzi's autotelicity the teleology of nature in Zhu Xi and family love in Confucianism and Christianity **Appreciating the Chinese Difference** Jim

Behuniak, 2018-07-11 In this volume prominent philosophers working in Chinese thought and related areas critically reflect upon the work of Roger T Ames one of the most significant contemporary figures working in the field of Chinese philosophy Through his decades of collaborative work in comparative methodology and cross cultural interpretation along with a number of pathbreaking translations of Chinese philosophical texts Ames has managed to challenge standing paradigms and open fresh avenues of research into the Chinese tradition His work will be read and studied for years to come The original essays

presented here which are substantive philosophical contributions in their own right cover the full range of Ames's scholarly output. They address methodological questions as well as specific issues in textual interpretation including ample discussion of Ames's most recent and provocative contribution, Confucian role ethics. In the final section of the book, Ames responds to each essay. The result is a conversation and engagement that both underscores the vitality of his thinking and indicates the directions it may take in the future. Altogether, this work provides a snapshot of a remarkable career and an invitation to continue reflecting upon its meaning and importance.
