The Perennial Scope Of Philosophy:

The Perennial Scope of Philosophy Karl Jaspers,1960 *The Perennial Scope of Philosophy* Reinhold Niebuhr (1892),

The Perennial Scope of Philosophy. Translated by Ralph Manheim Karl Jaspers,1968 **Karl Jaspers.** Richard Wisser,1993 Existentialism, Authenticity, Solidarity Stephen Eric Bronner,2020-12-30 What makes individuals what they are How should they judge their social and political interaction with the world What makes them authentic or inauthentic This original and provocative study explores the concept of authenticity and its relevance for radical politics Weaving together close readings of three 20th century thinkers Martin Heidegger Karl Jaspers and Jean Paul Sartre with the concept of authenticity Stephen Eric Bronner illuminates the phenomenological foundations for self awareness that underpin our sense of identity and solidarity He claims that different expressions of the existential tradition compete with one another in determining how authenticity might be experienced but all of them ultimately rest on self referential judgments The author s own new framework for a political ethic at once serves as a corrective and an alternative Wonderfully rich insightful and nuanced Stephen Eric Bronner has produced another bookshelf staple that speaks to crucial issues in politics philosophy psychology and sociology Existentialism Authenticity Solidarity will appeal to scholars students and readers from the general public alike **The Theology of Ronald Gregor Smith** Clements,2023-09-20 **The Anthem Companion to Karl Jaspers** Hans Joas,Matthias Bormuth,2025-04-15 This collection of articles by an international group of leading experts has its special focus on the relevance of Karl Jaspers s philosophy for the social sciences It also includes classical evaluations of Jaspers s thinking by renowned authors Talcott Parsons and J rgen Habermas Several chapters are devoted to the relationship between Jaspers and his teacher Max Weber his famous student Hannah Arendt and crucial figures in his intellectual world Wilhelm Dilthey Georg Simmel Others deal with his relevance for disciplines from psychiatry to the study of religion and the historico sociological research about the Axial Age a term coined by Jaspers In his introduction editor Hans Joas tries to systematise Jaspers s relevance for the contemporary social sciences and to explain why Parsons had called him a social scientist s philosopher The book promises to become an indispensable source in the re evaluation of Jaspers s thinking in the years to come **Aspects of Doctoral Research at the Maryvale International Catholic Institute (Volume One)** Andrew B. Morris,2019-04-04 Established at Old Oscott in Birmingham England in 1980 the Maryvale Institute provides a variety of part time and distance learning courses to the lay faithful consecrated religious and ministers of the Roman Catholic Church Maryvale s doctoral research programme in Catholic Studies is conducted in collaboration with and accredited by Liverpool Hope University Successful students receive an award of a Doctor of Philosophy PhD degree from the University This book is concerned with the outcomes of that doctoral research programme It provides an overview of the breadth of work by its students in the UK USA and Africa and their contribution to new knowledge in the area of Catholic studies a wide field including history literature philosophy spirituality and theology [A](#)

Critique of Jean-Paul Sartre's Ontology M.A. Natanson, 2012-12-06 Why is my pain perpetual and my wound incurable which refuseth to be healed Jeremiah Existentialism today refers to faddism decadentism morbidity the philosophy of the graveyard to words like fear dread anxiety anguish suffering aloneness death to novelists such as Jean Paul Sartre Dostoevski Camus Kafka to philosophers like Kierkegaard Heidegger Marcel Jaspers and Sartre and because it refers to and is concerned with all of these ideas and persons existentialism has lost any clearer meaning it may have originally possessed Because it has so many definitions it can no longer be defined As Sartre writes Most people who use the word existentialism would be embarrassed if they had to explain it since now that the word is all the rage even the work of a musician or painter is being called existentialist A gossip columnist signs himself The Existentialist so that by this time the word has been so stretched and has taken on so broad a meaning that it no longer means anything at all 2 This state of definitional confusion is not an accidental or negligible matter An attempt will be made in this introduction to account for the confusion and to show why any definition of existentialism involves us in a tangle First however it is necessary to state in a tentative and very general manner what points of view are here intended when reference is made to existentialism

The Infinite A.W. Moore, 2018-10-09 We are all captivated and puzzled by the infinite in its many varied guises by the endlessness of space and time by the thought that between any two points in space however close there is always another by the fact that numbers go on forever and by the idea of an all knowing all powerful God In this acclaimed introduction to the infinite A W Moore takes us on a journey back to early Greek thought about the infinite from its inception to Aristotle He then examines medieval and early modern conceptions of the infinite including a brief history of the calculus before turning to Kant and post Kantian ideas He also gives an account of Cantor's remarkable discovery that some infinities are bigger than others In the second part of the book Moore develops his own views drawing on technical advances in the mathematics of the infinite including the celebrated theorems of Skolem and Godel and deriving inspiration from Wittgenstein He concludes this part with a discussion of death and human finitude For this third edition Moore has added a new part Infinity superseded which contains two new chapters refining his own ideas through a re-examination of the ideas of Spinoza Hegel and Nietzsche This new part is heavily influenced by the work of Deleuze Also new for the third edition are a technical appendix on still unresolved questions about different infinite sizes an expanded glossary and updated references and further reading The Infinite Third Edition is ideal reading for anyone interested in an engaging and historically informed account of this fascinating topic whether from a philosophical point of view a mathematical point of view or a religious point of view

Systematic Theology Paul Tillich, 2012-11-30 A great voyage of discovery into a rich and deep and inclusive vision and understanding of human life in the presence of the mystery of God H Richard Niebuhr author of Christ and Culture This is the first part of Paul Tillich's three volume Systematic Theology one of the most profound statements of the Christian message ever composed and the summation and definitive presentation of the theology of the most influential and creative American theologian of the

twentieth century In this path breaking volume Tillich presents the basic method and statement of his system his famous correlation of man s deepest questions with theological answers Here the focus is on the concepts of being and reason Tillich shows how the quest for revelation is integral to reason itself In the same way a description of the inner tensions of being leads to the recognition that the quest for God is implied in finite being Here also Tillich defines his thought in relation to philosophy and the Bible and sets forth his famous doctrine of God as the Ground of Being Thus God is understood not as a being existing beside other beings but as being itself or the power of being in everything God cannot be made into an object religious knowledge is therefore necessarily symbolic Beyond doubt the richest most suggestive and most challenging philosophical theology our day has produced John Herman Randall Jr author of *The Making of the Modern Mind*

The Philosophical Foundations of Management Thought Jean-Etienne Joullié, Robert Spillane, 2020-10-06 The book s premise is that the theories taught in management schools are based on unacknowledged philosophical perspectives that are significant not so much for what they explain but for what they assume Rarely made explicit these perspectives cannot be reconciled with the result that the study of management has been dominated by contradictions and internecine intellectual warfare However the ability critically to analyze these diverse perspectives is essential to practicing and aspiring managers if they are to evaluate expert opinion Moreover since management is primarily an exercise in communication managing is impossible in the darkness of an imprecise language in the absence of moral references or in the senseless outline of a world without intellectual foundations Managing is a prime example of applied philosophy

Philosophical Faith and the Future of Humanity Helmut Wautischer, Alan M. Olson, Gregory J. Walters, 2012-01-03 Karl Jaspers who died in 1969 had a profound impact on 20th century theology and philosophy His central thesis called for among other things a de centering of philosophy from its Eurocentric roots and a renewal of its dialogue with other traditions especially Asian ones This collection of essays includes unpublished work by Jaspers himself as well as testimonies to his life and career by colleagues associates and translators some of who knew Jaspers personally Readers will also find commentary and interpretation by researchers who have explored Jaspers work for decades and a biographical account of Jaspers student Leonard Ehrlich who handled much of Jaspers English translation The book interrogates Jaspers conceptions of philosophical faith his philosophy of communication and the prospects for world philosophy in the future Focusing on philosophical faith it assesses Jaspers interpretations of key philosophers such as Kant Hegel Schelling Kierkegaard Nietzsche and Rosenzweig as well as examining his personal relationships with Bultmann and Heidegger Contributors also look at Jaspers philosophies of religion and history his hypothesis of the axial age *Achsenzeit* and his contributions to metaphysics periechontology and economics Finally chapters cover Jaspers philosophy of communication and world history The latter are informed by a burgeoning interest in Kantian *Freiheitphilosophie* that influenced Jaspers as well as concerns over the future of humanity These concerns in part account for Jaspers growing popularity in the Middle East Eastern Europe Central South America and Asia

Also included are lucid clarifications of the difference between religious and philosophical faith and the relevance of certainty trust and communication for a future of mankind Trained as a psychiatrist Jaspers practiced this profession before becoming a philosopher and thus had a keen insight into the workings of the human mind even as he challenged the philosophical establishment of his time It is perhaps this depth to his background that adds to the contemporary relevance of his work

Naturalism and Subjectivism Marvin Farber,1959-06-30 This book will assist readers of philosophical literature to understand and to appraise a large section of the controversial philosophical thought of our time The central theme is the conflict between naturalism and idealism The idealist philosophy is considered in its historical outcome of subjectivism as developed in the phenomenological movement The use of phenomenology is discussed as a general philosophy as well as with respect to representative philosophies of human existence The naturalistic view of experience as represented by Dewey is contrasted with the subjectivistic treatment of pure experience which is taken to be somehow prior to nature **Confessing**

and Commending the Faith Alan P.F. Sell,2006-09-01 Since Christianity is a way and not simply a theory commending the faith to others is an activity in which every Christian participates Confessing and Commending the Faith discusses the presuppositions which underlie the intellectual commendation of Christianity in the face of the philosophical challenges of the present day Following his earlier books John Locke and the Eighteenth Century Divines and Philosophical Idealism and Christian Belief Alan Sell proposes a way of proceeding with Christian apologetics in the twenty first century He discusses what Christians wish to proclaim asks whether these claims are reasonable and examines what is involved in the intellectual commendation of the Christian faith Confessing and Commending the Faith makes extensive use of the historical tradition of apologetics and brings this work to bear on contemporary questions such as the meaning use and reference of religious language and the question of transcendence in relation to history Alan Sell argues that if the intellectual commendation of Christianity's claim to truth is to be viable contemporary apologetics must draw upon reason revelation and experience to do justice to Christianity's basic confession of Christ as Saviour and Lord **The Life and Teaching of Naropa** ,2022-10-04

In the history of Tibetan Buddhism the eleventh century Indian mystic N ropa occupies an unusual position for his life and teachings mark both the end of a long tradition and the beginning of a new and rich era in Buddhist thought N ropa's biography translated by the world renowned Buddhist scholar Herbert V Guenther from hitherto unknown sources describes with great psychological insight the spiritual development of this scholar saint It is unique in that it also contains a detailed analysis of his teaching that has been authoritative for the whole of Tantric Buddhism This modern translation is accompanied by a commentary that relates Buddhist concepts to Western analytic philosophy psychiatry and depth psychology thereby illuminating the significance of Tantra and Tantrism for our own time Yet above all it is the story of an individual whose years of endless toil and perseverance on the Buddhist path will serve as an inspiration to anyone who aspires to spiritual practice The Right to Resist Mario Wenning,Thomas Byrne,2023-01-12 While the idea of total

revolution seems anachronistic today there is increasing consensus about the importance of new forms of political ethical and aesthetic resistance In the past resistance was often motivated as a form of protest against specific institutions Increasingly dissent has become integrated into the fabric of modern life This volume addresses new forms of resistance at a level that combines a rootedness in the philosophical tradition and a sensitivity to rethinking the possibility of emancipation in today's age The work focuses on contemporary social and political philosophy from a perspective informed by critical theory The text specifically addresses three challenges 1 Critical theorists need to investigate in which ways resistance conformism and oppression oppose and constitute each other 2 The relationship between the theory and the practice of resistance needs to be posed anew given recent protest movements and media of protest 3 It needs to be shown in which ways different areas of society such as the arts religion and social media establish divergent practices of resistance The chapters are written by scholars from Asia Europe and North America These experts in resistance discourse focus on practices of dissent ranging from traditional forms of civil disobedience to more recent practices such as guerrilla protest art and resistance in digital networks including social media What unites them is a shared concern for the dimensions of political acts of resistance in an age that is characterized by a tendency to integrate and thereby neutralize those very acts Reflections on Jewish

Mysticism Josef Bláha, 2013 This book deals with the Kabbalah and also with Hebrew literature and poetry The book also deals with modern issues of philosophy Levinas and Heidegger and the relationship between philosophy and Kabbalah back cover *Logos of Phenomenology and Phenomenology of the Logos. Book One* Anna-Teresa Tymieniecka, 2006-06-30 During its century long unfolding spreading in numerous directions Husserlian phenomenology while loosening inner articulations has nevertheless maintained a somewhat consistent profile As we see in this collection the numerous conceptions and theories advanced in the various phases of reinterpretations have remained identifiable with phenomenology What conveys this consistency in virtue of which innumerable types of inquiry scientific social artistic literary may consider themselves phenomenological Is it not the quintessence of the phenomenological quest namely our seeking to reach the very foundations of reality at all its constitutive levels by pursuing its logos Inquiring into the logos of the phenomenological quest we discover indeed all the main constitutive spheres of reality and of the human subject involved in it and concurrently the logos itself comes to light in the radiation of its force Tymieniecka **Nagarjuna and the Art of Negation** Mathew

Varghese, 2020-12-01 Reading the philosophy of Nagarjuna in retrospective his method of Nagarjuna is variously explained in this book How the application of tetralemma four value structure catuskoti would give us enough resources to expand our thoughts and how that could help us negate the binary either/or structure of thought that demands theoretical postulations Notably the art of logical negation used by Nagarjuna employing neither/nor structure would help us understand the Middle Path Madhyamika philosophy clearly Most of the philosophies use the structure of two value logical interpretations to introduce their metaphysics and ethics Metaphysical conception of soul God is the basis of virtue ethics centred on

transcendentals of goodness truth beauty unity justice being etc of the classical Greeks later being followed by Christians Jews and Islamic thinkers The conception of atman Brahman is the foundation of Vedic philosophers understanding of transcendentals as truth sat consciousness cit and bliss ananada Nagarjuna on the other hand employs negative dialectics to confute the logical structure of either or that demands metaphysical concepts and by employing the four value logical structure he introduces the transcendentals as wisdom and compassion This book uses Nagarjunian art of negation to reread his philosophy differently to discern the concept of emptiness sunyata as the co dependent evolution of various elements of the subjective self and the elements of objective experiences in the dominion of the subjective self and the elements of objective experiences in the dominion of the subjective self therein it is possible to redefine no soul nairatmya as self being and dominion of subjectivity for replacing a metaphysical postulation and the transcendentals as wisdom and compassion
