Dead Shot Annie Solomon, 2008-12-14 Famous for her depictions of violence photographer Gillian Gray is no stranger to controversy When demonstrators protest the opening of an exhibit of her work Detective Ray Pearce is hired as her bodyguard Soon murdered victims start to turn up posed in scenes from Gillian's horrific photos Original **They Shot, He Scored** James K. Wright, 2019-04-30 Eldon Davis Rathburn 1916-2008 one of the most multi-dimensional prolific and endlessly fascinating composers of the twentieth century wrote more music than any other Canadian composer of his generation During a long and productive career that spanned seventy-five years Rathburn served for thirty years as a staff composer with the National Film Board of Canada 1947-76 scored the first generation of IMAX films and created a diverse catalogue of orchestral and chamber works With the aid of extensive archival and documentary materials They Shot He Scored chronicles Rathburn's life and works beginning with his formative years in Saint John New Brunswick and his breakthrough in Los Angeles in connection with Arnold Schoenberg and the LA Philharmonic Orchestra The book follows his work at the NFB his close encounters with some of the most celebrated international figures in his field and his collaboration with the team of innovators who launched the IMAX film corporation James Wright undertakes a close analytical reading of Rathburn's film and concert scores to outline his methods compositional techniques influences and idiosyncratic approach to instrumentation as well as his proto-postmodern proclivity for borrowing from diverse styles and genres Authoritative and insightful They Shot He Scored illuminates the extraordinary career of an unsung creative force in the film and music industry **Cultures of War** John W. Dower, 2012-05-28 Finalist for the 2010 National Book Award in Nonfiction The Pulitzer Prize-winning historian returns with a groundbreaking comparative study of the dynamics and pathologies of war in modern times Over recent decades John W. Dower one of America's preeminent historians has addressed the roots and consequences of war from multiple perspectives In War Without Mercy 1986 winner of the National Book Critics Circle Award he described and analyzed the brutality that attended World War II in the Pacific as seen from both the Japanese and the American sides Embracing Defeat 1999 winner of numerous honors including the Pulitzer Prize and the National Book Award dealt with Japan's struggle to start over in a shattered land in the immediate aftermath of the Pacific War when the defeated country was occupied by the U.S.-led Allied powers Turning to an even larger canvas Dower now examines the cultures of war revealed by four powerful events Pearl Harbor Hiroshima 9/11 and the invasion of Iraq in the name of a war on terror The list of issues examined and themes explored is wide-ranging failures of intelligence and imagination wars of choice and strategic imbecilities faith-based secular thinking as well as more overtly holy wars the targeting of noncombatants and the almost irresistible logic and allure of mass destruction Dower's new work also sets the U.S. occupations of Japan and Iraq side by side in strikingly original ways One of the most important books of this decade Cultures of War offers comparative insights into individual and institutional behavior and pathologies that transcend cultures in the

more traditional sense and that ultimately go beyond war making alone **Countdown 1945** Chris Wallace, 2020-06-09 The 1 national bestselling riveting The New York Times propulsive Time behind the scenes account that reads like a tense thriller The Washington Post of the 116 days leading up to the American attack on Hiroshima by Chris Wallace veteran journalist and CNN anchor and Max host April 12 1945 After years of bloody conflict in Europe and the Pacific America is stunned by news of President Franklin D Roosevelt's death In an instant Vice President Harry Truman who has been kept out of war planning and knows nothing of the top secret Manhattan Project to develop the world's first atomic bomb must assume command of a nation at war on multiple continents and confront one of the most consequential decisions in history Countdown 1945 tells the gripping true story of the turbulent days weeks and months to follow leading up to August 6 1945 when Truman gives the order to drop the bomb on Hiroshima In Countdown 1945 Chris Wallace the veteran journalist and CNN anchor and Max host takes readers inside the minds of the iconic and elusive figures who join the quest for the bomb each for different reasons the legendary Albert Einstein who eventually calls his vocal support for the atomic bomb the one great mistake in my life lead researcher J Robert Oppie Oppenheimer and the Soviet spies who secretly infiltrate his team the fiercely competitive pilots of the plane selected to drop the bomb and many more Perhaps most of all Countdown 1945 is the story of an untested new president confronting a decision that he knows will change the world forever But more than a book about the atomic bomb Countdown 1945 is also an unforgettable account of the lives of ordinary American and Japanese civilians in wartime from Calutron Girls like Ruth Sisson in Oak Ridge Tennessee to ten year old Hiroshima resident Hideko Tamura who survives the blast at ground zero but loses her mother and later immigrates to the United States where she lives to this day as well as American soldiers fighting in the Pacific waiting in fear for the order to launch a possible invasion of Japan Told with vigor intelligence and humanity Countdown 1945 is the definitive account of one of the most significant moments in history

Laurence, 2017-06-28 On August 6 1945 the world was electrified by the news that an American Army bomber had dropped an atomic bomb with an explosive power equivalent to 20 000 tons of TNT on the important Japanese military center of Hiroshima Three days later another bomb of improved design and even greater power was dropped on Nagasaki The following day Aug 10 the Japanese sued for peace Newspapers and magazines throughout the world printed many thousands of words about the new weapon and the scientific developments that had made it possible These stories were based largely

on official War Department releases prepared by William L Laurence science reporter for The New York Times At the request of the War Department Mr Laurence had been granted a leave by The Times several months earlier Mr William L Laurence was the only newspaper man permitted by the War Department to go to all the plants and inspect the processes of production of the atomic bomb the only newspaper man allowed to witness the secret trial of the bomb in New Mexico and the only newspaper man who witnessed the actual dropping of one of the bombs on Japan from a plane above Nagasaki This book first published in 1946 is the full story so far as it may yet be revealed of the atom bomb written by the man who is unquestionably the best qualified to write it for the layman A Merry Crusade to the Golden Gate Edmund Frederick Erk,1906 **Fifty-two stories of pluck and peril for boys, by G.A. Henty and other writers, ed. by A.H. Miles** Alfred Henry Miles,1896 *Transforming American Science* Jonathan Engel,2023-04-11 Transforming American Science documents the ways in which federal funds catalyzed or accelerated changes in both university culture and the broader system of American higher education during the post World War II decades The events of the book lie within the context of the Cold War when pressure to maintain parity with the Soviet Union impelled more generous government spending and a willingness of some universities to reorient their missions in the service of country and of science The book draws upon a substantial amount of archival research conducted in various university archives MIT Berkeley Stanford as well as at the Library of Congress the National Archives and various presidential libraries Author Jonathan Engel considers the repurposing of the wartime Manhattan Engineering District and the Office of Naval Research to robust peacetime roles in supporting the nation s expanding research efforts along with the birth of the National Science Foundation space exploration and atoms for peace among other topics This volume is the perfect resource for all those interested in Cold War history and in the history of American science and technology policy
