and works of Russia's women writers. Based on original and archival research, this volume forces a re-examination of many of the traditionally held assumptions about Russian literature and women's role in the tradition. In setting about the process of reintegrating women writers into the history of Russian literature, contributors have addressed the often surprising contexts within which women's writing has been produced. Chapters reveal a flourishing literary tradition where none was thought to exist. They redraw the map defining Russia's literary periods; they look at how Russia's women writers articulated their own experience and they reassess their relationship to the dominant male tradition. The volume is supported by extensive reference features including a bibliography and guide to writers and their works.
