Common Forest Trees of Hawaii Elbert Luther Little, 1989 *Trees and Shrubs* Charles Sprague Sargent, 1903

Trees of New York State Donald J. Leopold, 2003-09-01 Leopold's botanical descriptions for each species include a summary of its key identification characteristics and extensive information on its leaves, flowers, fruit, winter characteristics, and bark. Additional material is provided on each tree's habit, habitat, and range and uses, including wood properties and value, landscaping, and restoration projects. Also provided are summer keys to each genus and numerous other aids to identifying these species. Line drawings depict the many fine diagnostic characteristics of each species. Of the 350 color photographs, those of bark should readily facilitate field identification of mature specimens of most tree species. Color photos show the beautiful ornamental attributes that make so many native species excellent landscape choices. This book offers much to both the tree novice and the expert, casual and accomplished outdoor enthusiasts alike.
