

Apportionment in Lost Profits Cases: *Mentor Graphics v. EVE-USA*

March 2017 – Fed. Cir. affirms lost profit award

- “In this case, apportionment was properly incorporated into the lost profits analysis and in particular through the *Panduit* factors. *Panduit*’s requirement that patentees prove demand for the product as a whole and the absence of non-infringing alternatives ties lost profit damages to specific claim limitations and ensures that damages are commensurate with the value of the patented features.”

The Apportionment Cases:

Supreme Court Cases on Political Representation, 1787-2001 Christopher A. Anzalone, 2016-07-08 This book includes every Supreme Court case relevant to elections and political representation from the Court's beginnings to 2001 including the 2001 decision in *Cook v Gralike* that limited citizens' rights to instruct Federal representatives. It is a primary document reference book organized topically in sixteen chapters. Every case is included either as a full edited opinion, extensive excerpts of the opinion, or a detailed description of the case. As with the companion volume on gender and sexual equality, using this single volume a researcher can see how American legal history on the topic played out in its entirety.
