English Fiction of the Early Modern Period Douglas Hewitt, 2014-05-22 This is an ambitious and fascinating analysis of early twentieth century English literature from Kipling Conrad Lawrence and Forster through figures like Joyce and Woolf to writers such as Evelyn Waugh There are chapters on the younger writers of the age as well as the more popular minor writers like Buchan and Dornford Yates *Literary Realism and the Ekphrastic Tradition* Mack Smith, 2010-11-01 Literary Realism and the Ekphrastic Tradition examines representative texts and the theories of realism upon which they are based It studies the foundations of these theories in the philosophies of language contemporaneous with them Beginning with Adamicism Mack Smith looks at the way humanist rationalist empiricist Kantian positivist and poststructuralist theories of language are textually dramatized He considers the cultural and personal influences that affect historical notions of realism and reality He also demonstrates the rhetorical basis of realism by considering a mimetic device used by novelists in rendering a faithful version of reality ekphrasis the narrative description of a work of art Smith seeks a middle ground between the extremes of theory and interpretation discourse and reality and textualism and history thus making an important contribution to the revaluation of literary studies Resources in Education , 2001-10 Kamala Markandaya : A Literary Exploration Dr. Arjun R. Masal, 2018-11-02 The ethos and essence of every culture is seen marked and reflected in all the forms of literature practised during the period in the society The issues and elements related to human life which affect and shape human life are of a great importance They include society social issues like faith superstition religion intra personal interpersonal and man woman relationships war peace love hatred cruelty design cultural conflict hunger survival assertion of suppressed classes etc have been focused and interpreted in the creative literary works **New Approaches to Popular Romance Fiction** Sarah S.G. Frantz, Eric Murphy Selinger, 2014-01-10 Despite the prejudices of critics popular romance fiction remains a complex dynamic genre It consistently maintains the largest market share in the American publishing industry even as it welcomes new subgenres like queer and BDSM romance Digital publishing originated in erotic romance and savvy online communities have exploded myths about the genre s readership Romance scholarship now reflects this diversity transformed by interdisciplinary scrutiny new critical approaches and an unprecedented international dialogue between authors scholars and fans These eighteen essays investigate individual romance novels authors and websites rethink the genre s history and explore its interplay of convention and originality By offering new twists in enduring debates this collection inspires further inquiry into the emerging field of popular romance studies Black Writers From South Africa
