Lyons, 2005-06-17 The hero cycles of Arabic belong to the literary tradition of The Arabian Nights and can be seen as the popular epics of their civilisation The Arabian epic covers eleven of the main representatives of this genre Each of these has been developed through the processes of accretive oral story telling by means of an accumulation of narrative and folklore motifs many of which belong to what can be seen as a universal tradition The work is published in three volumes The first volume introduces the background and the dimensions in which the cycles are set while the second volume analyses their contents and the literary formulae used in their construction as well as listing analogues found in other literatures The epitomes surveyed in the final volume provide non Arabists with a more immediate insight into the contents of the cycles drawing attention to their narrative colouring and texture

The Oral Epic Karl Reichl, 2021-07-26 This book focuses on the performance of oral epics and explores the significance of performance features for the interpretation of epic poetry. The leading question of the book is how the socio-cultural context of performance and the various performance elements contribute to the meaning of oral epics. This is a question which not only concerns epics collected from living oral tradition but which is also of importance for the understanding of the epics of antiquity and the Middle Ages which originated and flourished in an oral milieu. The book is based on fieldwork in the still vibrant oral traditions of the Turkic peoples of Central Asia and Siberia. The discussion combines fieldwork with theory; it is not limited to Turkic epics but branches out into other oral traditions.

Prominent Murder Victims of the Pre- and Early Islamic Periods Including the Names of Murdered Poets Muḥammad ibn Ḥabīb (d. AH 245/AD 860), 2021-01-11 Muḥammad ibn al-Bāḍ 860 a specialist in Arab history, tribal genealogy and poetry who lived in Baghdad collected in his *Prominent Murder Victims* many stories of murderers and murder victims from the legendary pre-Islamic past such as how Bilqis the Arabic name for the Queen of Sheba came to power to the assassinations ordered by viziers or caliphs in the early Islamic centuries. A lengthy appendix deals with poets from pre and early Islamic times who were killed. The stories are entertaining as well as informative. Strikingly the author refrains from explicit moralising. The present book offers a richly annotated English translation together with an improved Arabic text and indexes of persons, places and rhymes.

The Penguin Dictionary of Islam Azim Nanji, 2008-04-24 Islam today is a truly global faith yet it remains somewhat of an enigma to many of us. Are we in fact misunderstanding? The Penguin Dictionary of Islam provides complete, impartial answers. It includes extensive coverage of the historical formations of the worldwide Muslim community and highlights key modern Muslim figures and events. Understanding Islam is vital to understanding our world and this text is the definitive authority designed for both general and academic readers.

Crusading and Masculinities Natasha R. Hodgson, Katherine J. Lewis, Matthew M. Mesley, 2019-03-05 This volume presents the first substantial exploration of crusading and masculinity focusing on the varied ways in which the symbiotic relationship between the two was made manifest in a range of medieval settings and sources and to what ends. Ideas about masculinity formed an inherent part of the mindset of societies in which crusading happened and of the conceptual framework informing both those who recorded the events and those who participated. Examination and interrogation of these ideas enables a better contextualised analysis of how those events were experienced, comprehended and portrayed. The collection is structured around five themes: sources and models contrasting masculinities, emasculation and transgression, masculinity and religiosity, and kingship and chivalry. By incorporating masculinity within their analysis of the crusades and of crusaders, the contributors demonstrate how such approaches greatly enhance our understanding of crusading as an ideal, an institution and an experience. Individual essays consider western

campaigns to the Middle East and Islamic responses events and sources from the Iberian peninsula and Prussia are also interrogated and re examined thus enabling cross cultural comparison of the meanings attached to medieval manhood The collection also highlights the value of employing gender as a vital means of assessing relationships between different groups of men whose values and standards of behaviour were socially and culturally constructed in distinct ways

Hebrew Manuscripts at Cambridge University Library Cambridge University Library,Stefan C. Reif,Shulamit Reif,1997-01-09 For some five hundred years Hebrew books have been counted among the treasures of the University of

Cambridge and Cambridge University Library's current holdings of Hebrew manuscripts excluding most of the 140 000 fragments in its Genizah collections are in excess of a thousand items. A wide range of Hebrew literature is represented with substantial numbers in Bible, Bible Versions and Commentaries, Talmud, Halakhah, Liturgy, Science, Poetry, Philosophy and Kabbalah. The bulk of the material is late mediaeval but there are also earlier items among them, the famous Nash Papyrus from the second pre-Christian century. Although this collection is among the world's most important, attempts beginning in the mid-Victorian period to describe it in detail and to publish the results have never met with success. In this volume Stefan Reif, assisted by Shulamit Reif, has attempted to set the situation right by providing careful descriptions that will guide researchers in codicological matters and will alert them to data of special scholarly significance without overwhelming them with the kind of prolix treatment that characterised manuscript study in the nineteenth century. The volume has benefited not only from local Cambridge expertise but also from world-wide scholarly co-operation and includes many references to recent publications as well as a representative selection of photographed folios. There are essays on the history of Hebraists and Hebraic at Cambridge that will interest historians as well as extensive indexes that will provide easy access to the rich and varied contents of the descriptions.

Between Memory and Power Antoine Borrut, 2023-07-17. *Between Memory and Power* intends to demonstrate that a robust culture of historical writing existed in 2nd-8th century Syria and to offer new methodological approaches to access this now lost history torn between memory and oblivion. By studying the making of Umayyad heroes or Abbasid origins myths, this book aims to reveal the successive meanings granted to Syrian history and to identify the various layers of historical writing and rewriting during the first centuries of Islam. Taken together, these elements make possible a history of meanings of the very space of Syria articulated around power and its expression which grants a clear coherence to the period extending well beyond the dynastic caesura of 132-750.
