Meeting, 1984 A collection of papers presented at the Fifteenth Annual Meeting of the Middle East Studies Association of North America held at Seattle in November 1981 *Oil and Development in the Arab Gulf States* Walid I. Sharif, 2023-10-12 Oil and Development in the Arab Gulf States 1985 brings together in one volume the manifold sources of information on the Arab Gulf region especially the impact of oil revenues on its economic political and social development It provides a balanced core of primary and secondary sources on various aspects of the economics of Arab oil between 1973 and 1983 **Bands, Tribes, & First Peoples and Nations** Richard Barrington, 2014-07-15 Anthropology politics and history come together to form an insightful blend in this authoritative title covering kinship tribalism and nonurban cultures the world over Both the theory and practical examples of tribal cultures are presented with several chapters dedicated to the various schools of anthropological thought on nonurban societies accompanied by a survey of tribal and indigenous cultures both historically and in modern times American Indians the indigenous peoples of South America nomadic tribes of the Middle East and Aboriginal Australians are a few of the societies explored in this extensive text *Historical Dictionary of Yemen* Robert D. Burrowes, 2009-12-22 A small and extremely poor Islamic country Yemen is located on the edge of the Arab world in the southernmost corner of the Arabian Peninsula It was the product of the unification of the Yemen Arab Republic and the People's Democratic Republic of Yemen in May 1990 The location of the two Yemens on the world's busiest sea lane at the southern end of the Red Sea where Asia almost meets Africa gave them strategic significance from the start of the age of imperialism through the Cold War More vital today is the fact that Yemen shares a long border with oil rich Saudi Arabia and is a key to efforts both to spread and to end global revolutionary Islam and its use of terror The second edition of the Historical Dictionary of Yemen has been thoroughly updated and greatly expanded Through its list of acronyms and abbreviations a chronology an introductory essay a bibliography and over 800 cross referenced dictionary entries greater attention has been given to foreign affairs economic institutions and policies social issues religion and politics International Comparisons of Information Communication Technologies: Advancing Applications Tan, Felix B., 2011-12-31 This book offers perspectives on international information management with particular emphasis on the strategies for the implementation and application of information technology in developed and developing countries Provided by publisher **Political Modernization in the Gulf** Shahid Jamal Ansari, 1998 The entire Gulf is passing through a transitional phase The member states of the Gulf Cooperation Council GCC are witnessing change in varying degrees The change has become too evident from the 1960s It was oil more than any other factor which was responsible for a rapid transition Control over oil production and marketing have led to the strengthening of governmental role as owner and distributor of oil income The regions tribal society is being transformed into a modern society Political modernization is a recent phenomenon if the nature and extent of structural and informal transformations

are taken into account Three broadly defined phases of political change can be discerned in the Arabian Peninsula the traditional the neo traditional and the modernizing or post traditional The modernizing phase was initiated by radical policies of socio economic development including the necessary restructuring of replacement of regimes and a redefinition or expansion of the scope and role of the state However the pace and direction of change is not clear enough The coming few decades are crucial in this regard **A Restless Mind** Benjamin Frankel,2013-11-05 Amos Perlmutter has devoted his academic career to the study of comparative politics international relations and modern authoritarianism He has written 14 books and more than 70 articles in academic journals He has also been a prolific contributor to newspapers in the United States and abroad and offered commentary on TV and radio shows These essays analyse and explain some of his thinking

comes at a time when the world's attention is riveted on the Middle East. The small states covered in this volume Bahrain, Kuwait, Oman, Qatar, and the United Arab Emirates (UAE) possess about 20 percent of the world's total oil reserves. Beyond the strategic and economic importance conferred upon them by their vast oil reserves, the Gulf Arab states are worthy of attention for the inherent interest of their history and culture. No area of the world has yielded more revealing and exciting archaeological finds in the past few decades than these states. Investigations have brought to light extensive evidence of an important culture as old as Egypt of the Pharaohs or ancient Babylon, which was virtually unknown previously except through rare references in the records of other civilizations. This expanded second edition covers the history of the five countries through a chronology broken down by country, a list of acronyms and abbreviations, an introductory essay, a bibliography, and several hundred cross-referenced dictionary entries on important persons, places, and events of each country. Everything from the Abbasids to Zubarah is covered in this essential reference on this increasingly important region of the world.
