Stein, 2011-12 I am a Chironic astrologer You won t find that word in the dictionary but there are quite a few of us and our number is increasing day by day We are astrologers who believe that discovering the truth is more important than personal theories and also that we should always keep our minds open to the ideas of others By the time you finish reading this book you will know even more about what a Chironic astrologer is Perhaps you too may like to become one Who

knows perhaps you already are one Zane Stein Symbolic Directions in Modern Astrology Charles E O Carter,2010-04 In this book Charles Carter 1887 1968 seeks a method of astrological forecasting that produces accurate results without the complicated calculations of Primary Directions To quote Carter an ideal directional system should fulfil four criteria 1 No important event should pass without a direction 2 No direction should pass without an event 3 Events and directions should correspond narrowly in time 4 Events and directions should correspond in character from page 10 To achieve these goals Carter examined a number of symbolic systems Symbolic because they were not based on any actual planetary movement but rather were arcs arbitrarily chosen and then uniformly applied to all factors in the natal chart In this book he presents the best of his research Among the systems of exceptional merit are the One degree the Naibod 59 8 the Duodenary 20/30 the Sub duodenary 12/30 the Septenary 4 2 7 0 Novenary 30/20 and the Fractional Measure which is based on natal aspects Along the way Carter's restless mind tackled the subject of death Here he discovered what he termed the Measure of Death He says while it does not always forecast death the Measure of Death is always present at death Carter found symbolic directions to have real value in astrological forecasting His work remains unique This book was first published in 1929

The Zodiac and the Soul Charles E.O. Carter,2010-05 In this book Charles Carter 1887 1968 shows how the Zodiac of twelve constellations describes an ideal world In other words how the soul the ideal reveals itself in astrological terms In the process Carter invents a new form of rulerships based on the traditional exaltations which includes the outer planets Carter also teases us with his unpublished system of numerology which was based on 12 rather than the usual 10 As astrology is based around the numbers 2 3 4 and 12 not 5 or 10 a base 12 number system is of immediate interest Realizing his subject was abstract and unlikely to appeal to all Carter also includes innovative ideas on directing and on transits The result is a book that fascinates on many levels Charles E O Carter one of the leading astrologers of the 20th century was President of the Astrological Lodge at the Theosophical Society from 1920 to 1952 He was first Principal of the Faculty of Astrological Studies which he helped found in 1948 He edited *The Astrologer's Quarterly* from 1926 until 1959 *The Zodiac and the Soul* was first published in 1928 with revisions in 1947 1960 and 1968 the year of his death *Essays on the Foundations of Astrology* Charles E.O. Carter,2010-05 Charles Carter 1887 1968 wrote this book in London during World War II It was his first book in more than a dozen years In this book Carter turns his attention to fundamentals Why the planets are what they are How the Sun differs from the Moon How Jupiter and Mercury are interrelated Having had his fill of aspects in terms of the planets in this book Carter tells us of aspects in terms of signs and the elements they represent A planet in a fire sign in square to a planet in an earth sign Carter says is an obviously difficult combination Fire consumes earth or earth smothers fire On the other hand air water squares are much less stressful Carter was particularly fascinated by the nativities of Benito Mussolini and Adolf Hitler his contemporaries Charts for both men are given Mussolini he declares to be a bombastic Italian dictator but Hitler remained a puzzle _____ Charles E O Carter one of the leading astrologers of the 20th

century was President of the Astrological Lodge at the Theosophical Society from 1920 to 1952 He was first Principal of the Faculty of Astrological Studies which he helped found in 1948 He edited The Astrologer's Quarterly from 1926 until 1959 Essays on the Foundations of Astrology was first published in 1947

Some Principles of Horoscopic Delineation

Charles E.O. Carter, 2009-06 Most text books including the one for which I am personally responsible are mainly of an analytical character and do not attempt to guide the reader far along the path that leads to proficiency in horoscopic delineation In fact few attempts have been made to attack this problem and for a good reason it is so difficult Delineation is an art and it cannot be taught as one teaches merely factual knowledge It comes with experience if the student have the right inborn aptitudes that is all that can be said However there seems to me to be a sort of border land that lies beyond the realms of purely text book teaching and yet is within the scope of instruction No one can make a student into a good delineator and on the other hand almost anyone with moderate teaching ability can inculcate the alphabet of astrology between these two extremes there is a field wherein I think experience can help inexperience and some general principles can be formulated and explained This is what I have attempted here illustrating my ideas in separate chapters that deal with important classes of psychological condition This book is designed to follow The Principles of Astrology and may be read in conjunction with The Astrological Aspects and The Encyclopaedia of Psychological Astrology Charles E O Carter

The Astrology of Accidents Charles E.O. Carter, 2010-04 People often ask if there is proof for astrology Astrologers are not so much worried about proving astrology as they are in using it to reveal nuance and detail In 1929 after writing four previous books Charles Carter 1887 1968 set his sights on discovering the astrological reasons why accidents happen and which people are most prone to them In part he wanted to test if astrological fundamentals were true or not Carter knew that astrology works but does it work the way it has long claimed or if it does not can the real rules be discovered by analysis This book is divided into two broad sections In the first Carter compiles raw sign and house placements of Sun Moon and planets along with the angular separation of pairs of planets to determine which planets in which signs in which houses and which specific angles produce the most accidents overall The results are surprising In the second section Carter analyzes specific accidents for common traits Sixteen different classes of accidents are analyzed among them drowning gunshots burns falls and railway accidents While the number of individual cases were limited Carter was able to determine critical degree areas New in this edition a list of local influences derived from Carter's work and a useful index This book was first published in 1932

A Student's Text-Book of Astrology Vivian Robson Memorial Edition Vivian Erwood Robson, 2010-09 The year before he wrote his famous book on fixed stars Vivian Robson 1890 1942 wrote this one In it he put the distillation of four years intense work spent in the British Museum Reading Room where he studied very nearly every astrology book ever written in English and Latin To this day he is virtually the only man to have ever undertaken a study of this magnitude What makes the Student's Text Book of Astrology unique is its unparalleled wealth of detail Topics include Personal Appearance Character

and Mind Health and Accidents Finance Occupation and much more For each Robson gives specific rules of judgment and then supplies aphorisms collected from many ancient sources The result is one of the most comprehensive astrology books ever written In private conversation he would talk for hours on the science of which he was a master Indeed his knowledge not only of astrology but of many other sciences was phenomenal and few who enjoyed his conversation could fail to go away with an enhanced knowledge of whatever subject had been under discussion He will be remembered best by his two chief books *A Student's Text book of Astrology* and *The Fixed Stars and Constellations in Astrology* Of these the former is deservedly popular and the latter is a classic containing as it does a mass of information dating from the days of Greek mythology up to modern times C E O Carter I have heard him converse knowledgeably on a dozen and one different subjects I really believe he knew something about everything but so far as astrology was concerned his versatility showed forth in a phenomenal knowledge of his subject To converse on astrology with him even if only for one short hour was inevitably to gain something new and valuable in the way of experience and information Dorothy Ryan In this Memorial Edition Obituaries by Charles Carter and George H Bailey Prof Hugh S Torrens monograph Curator Turned Astrologer an Appreciation by Dorothy Ryan an Afterword by the publisher David R Roell a newly prepared index Robson's Death Certificate and more The finest of all of Vivian Robson's books back in print at last

Man and the Zodiac David Anrias, 2010-10 In Astrology it has long been known that the sign of the zodiac rising in the east at birth the ascending sign largely determines physical appearance In this book David Anrias shows what each sign looks like when rising He goes further and dividing each sign into 10 degree sections known as decanates shows how appearance changes from early degrees to middle degrees to late degrees of the same sign All 36 drawings are by the author himself who was an accomplished artist and a keen observer Twelve of these you will find in the frontispiece the remaining 24 are in Book 1 chapter 7 While other artists have sketched the twelve basic types and one or two have given variations on some of them Anrias is the only astrological artist writer to make systematic sketches of all 36 variations Anrias follows this with deft character sketches If a given decanate the third decanate of Libra for example produces a distinct face it also produces a distinct personality Of this book Dr H of Regulus Astrology LLC author of *A Rectification Manual* America is Born writes I find Anrias use of the decans based on triplicities more accurate than Chaldean decans for application in physiognomy judgments DAVID ANRIAS the pen name of Brian Ross served with the British forces in World War I A natural sensitive after the war he joined the Theosophical Society studied in India and was associated with Jiddu Krishnamurti's ill fated Order of the Star in the East He strenuously disagreed with Krishnamurti's decision to dissolve it Anrias's intense study of theosophy and metaphysics enlivens his astrology making his book most fascinating reading

Alan Leo's Dictionary of Astrology Alan Leo, 2010-12 In 1917 at the height of his fame Alan Leo was charged with fortune telling which was illegal and taken to court He had been tried on similar charges in 1914 which had been dismissed But the charges brought in 1917 stuck Leo was given a hefty fine As winning on appeal seemed unlikely Leo

paid the fine and went to Cornwall for a rest where on 30 August 1917 he unexpectedly died of a cerebral hemorrhage aged 57 His friends blamed it on the strain of the court proceedings At the time of his death this Dictionary was one of Leo s unfinished projects Installments of the Dictionary had appeared in Leo s monthly magazine Modern Astrology up to the end of the article Horoscope pgs 130 136 That the project was long standing is hinted by the article on Hindu Astrology pgs 76 101 written by Sepharial some years before and which Leo had presumably purloined More material was in preparation but Leo s untimely death brought matters to a halt By the early 1920 s Vivian Robson had succeeded Leo as editor of Modern Astrology a post he shared with Bessie Leo the widow An intense scholarly type Robson stumbled across bound copies of Leo s incomplete book while he was compiling his own astrological dictionary At the suggestion of Bessie Robson abandoned his dictionary and set about to complete Leo s using the many notes and fragments that Leo had left Which was published in 1929 as Alan Leo s final book Shortly thereafter Bessie and Vivian had a falling out whereupon Vivian left This book was to be an orphan Like its precursor James Wilson s Dictionary of Astrology of 1819 Leo s book contains several full blown monographs Both books have lengthy entries on Horary Astrology for example These articles tend to break the flow of the book For this reason the current publishers Astro America have added headings to each page that the reader may know whereabouts in the book he may be The publishers have also added a list of principal articles to the front as well as a complete list of entries forming an index in the back Alan Leo s Dictionary of Astrology is again in print Profit from the wealth of knowledge it contains

The Manual of Astrology, the Standard Work Sepharial, 2010-09 First published in 1898 this is a very different astrology book from what we have now There are extensive delineations for the signs of the zodiac especially when found on the ascendant There are delineations of planets in signs when they are in the first house or are the chart ruler in both cases describing the physical appearance There are delineations of planets in the various houses which will also serve for the planetary rulerships of the houses There are only sketchy notes on aspects So far as the pure astrology of planets in signs in houses in aspect there is almost nothing at all The reason is found in the second part of the book We are not reading the chart as a psychological abstraction We are instead looking for specific traits attempting to answer specific questions Will we have a profession What kind of marriage What kind of children Will we vanquish our enemies or submit to them What kind of illness We then find the house s of the horoscope which rule the question and then delineate the signs planets we find there These are by the way the sort of questions that clients would ask if they only knew we could give answers The sort of things that astrologers themselves want to know In the process we learn how to read a chart get real meaning from it We get ideas from one section and then apply them to other sections There are hundreds and hundreds of useful aphorisms except that Sepharial doesn t label them as such Get this book study it underline key passages scribble in the margins You will learn more from this book than most all others put together

Duels at Dawn David R. Roell, 2012-07 From the Introduction You have economic hard times to thank for this book I am by profession a bookseller In

2007 a friend suggested a newsletter as a way of enhancing book sales I think she had monthly specials promo sheets and upcoming new titles in mind but I was too dense for that Instead I wrote on topics of my own fancy The first two years 2007 9 when the newsletter appeared monthly were well dreadful The week that Venus went retrograde in March 2009 with the stock market stabilizing after months of plunging I shifted from a monthly single page newsletter to a weekly three pager I followed a three page format for a couple of years Most of the worth while essays were compiled in my first book Skeet Shooting for Astrologers Two years later in March 2011 with the economy ever more bleak and myself running out of ideas I started writing celebrity delineations and in the process broke out of a rigid format The delineation of Jon Stewart of the Daily Show was the first of these Retrograde Venus has turned up in a surprising number of the charts I ve written about given its rarity among them the chart for the Republican Party as well as the charts for Rep Ron Paul Mayor Michael Bloomberg Jon Stewart and some others No my Venus is not retrograde Essays are in order of publication in part as I think organizing by topic makes for a boring block of reading The book starts with the last of the 2 column essays from the original 3 page weekly Meanwhile the economy is now in the fifth year of straight decline I do wish the people in charge of the country would just send us all envelopes stuffed with cash I can live on barter just as well as money but when that happens there will be no authors there will be no books there will be no commerce Money has its uses **Medical Astrology**

Heinrich Daath, 2013-03 This is one of the most sophisticated medical astrology books ever written Many of the finer points are dealt with You know the head is ruled by Aries but did you know the nasal bones are co ruled by Scorpio There are references to Vedic principles A helpful diagram explains the subtle division of the urinary tract between Libra and Scorpio Rulerships are given not only for areas of the body and its organs but also for bones muscles arteries and veins Terminology in the book is modern Gemini s rulership of muscles includes the deltoid biceps supinator radii subclavians triceps serratus anticus minor pectoralis palmaris etc Many chapters are unique such as Chapter 5 on crystallization and Chapter 6 on tonicity atonicity and perversion This chapter also tells how pairs of planets mirror each other Sun Moon Mars Saturn Jupiter Venus Uranus Neptune with Mercury as a receiver Chapter 11 concerns many different kinds of planetary strengths among them aspect strength mundane strength natural strength the planet in its natal sign and directional strength Chapter 13 gives astrological indicators for some specific diseases a foretaste of what Charles Carter would expand upon in his famous Encyclopaedia of Psychological Astrology This book was originally published as Alan Leo s Astrological Manual No 9 in 1908 This is the second edition of 1914 There are references in this book to other books in the Alan Leo series dealing with chart construction This book is highly recommended by H L Cornell in his Encyclopaedia of Medical Astrology Heinrich Daath s Medical Astrology is part of a comprehensive series of classic astro medical texts published by Astrology Classics Other books in the series include Joseph Blagrave Astrological Practice of Physick 1671 C E O Carter An Encyclopaedia of Psychological Astrology 1954 H L Cornell Encyclopaedia of Medical Astrology 1933 Nicholas Culpeper Astrological

Judgement of Diseases from the Decumbiture of the Sick 1655 and Urinalia 1658 Richard Saunders The Astrological
Judgement and Practice of Physick 1677 Luke Broughton The Elements of Astrology 1898 *Astrological Practice of Physick*
Joseph Blagrave, 2010-02 Contrary to modern beliefs the medieval world was not one of superstition and ignorance True they
lacked what we know as science but on the other hand they were in possession of a coherent philosophy of life handed down
to them from the Greeks and Romans which had been further hammered out in a thousand ways over the course of centuries
When luck was with them the period was above all poor medieval peoples were surprisingly successful in dealing with the
problems of everyday life With minds open we come to the medieval world as if it was a strange alien planet Because their
philosophy was different their observations were different and therefore their solutions were different Some were good Some
were not The best of them are worthy of our attention for they can teach us much The author Joseph Blagrave 1610 1682 was
a country doctor who lived in Reading England in part as he lacked the license that would let him practice openly in London
Fundamentally he was an astrological herbalist To this he brought an eclectic mix of observation experimentation folk
knowledge and his own unique genius Free of modern conceptions he was able to view and treat the diseases of his day in
ways that were revolutionary **Old Moore's Monthly Messenger** ,1912
