The Arctic Imperative An Overview Of The Energy Crisis:

The Arctic Imperative Richard H. Rohmer, 1975 **Arctic Doom, Arctic Boom** Barry Scott Zellen, 2009-10-13 An expert examination of the way climate change is transforming the Arctic environmentally economically and geopolitically and how the challenges of that transformation should be met A growing number of scientists estimate that there will be no summer ice in the Arctic by as soon as 2013 Are we approaching the End of the Arctic as journalist Ed Struzik asked in 1992 or fully entering the Age of the Arctic as Arctic expert Oran Young predicted in 1986 Arctic Doom Arctic Boom The Geopolitics of Climate Change in the Arctic looks at the uncertainty at the top of the world as the shrinking of the polar ice cap opens up new sea lanes and the vast hydrocarbon riches of the Arctic seafloor to commercial development and creates environmental disasters for Arctic biota and indigenous peoples Arctic Doom Arctic Boom explores the geopolitics of the Arctic from a historical as well as a contemporary perspective showing how the warming of the Earth is transforming our very conception of the Arctic In addition to addressing economic and environmental issues the book also considers the vital strategic role of the region in our nation's defenses **The Arctic Imperative** Richard Rohmer, 1973 *The Palgrave Handbook of Arctic Policy and Politics* Ken S. Coates, Carin Holroyd, 2019-11-14 The Arctic has for some forty years been among the most innovative policy environments in the world The region has developed impressive systems for intra regional cooperation responded to the challenges of the rapid environmental change empowered and engaged with Indigenous peoples and dealt with the multiple challenges of natural resource development The Palgrave Handbook on Arctic Policy and Politics has drawn on scholars from many countries and academic disciplines to focus on the central theme of Arctic policy innovation The portrait that emerges from these chapters is of a complex fluid policy environment shaped by internal national and global dynamics and by a wide range of political legal economic and social transitions The Arctic is a complex place from a political perspective and is on the verge of becoming even more so Effective proactive and forward looking policy innovation will be required if the Far North is to be able to address its challenges and capitalize on its opportunities

Breaking the Ice Barry Scott Zellen, 2008-01-01 Breaking the Ice is a comparative study of the movement for native land claims and indigenous rights in Alaska and the Western Arctic and the resulting transformation in domestic politics as the indigenous peoples of the North gained an increasingly prominent role in the governance of their homeland This work is based on field research conducted by the author during his nine year residency in the Western Arctic Zellen discusses the major conflicts facing Alaskan Natives from the struggle to regain control over their land claims to the Native alienation from the corporate structure and culture and the resulting resurgence in tribalism He shows that while the forces of modernism and traditionalism continued to clash these conflicts were mediated by the structures of co management corporate development and self government created by the region's comprehensive land claims settlements Breaking the Ice gives testimony to the achievements of Alaskan Natives through peaceful negotiation and argues that the age of land claims has

transmuted this same tribal force into something else altogether in the North a peaceful force to spawn the emergence of new structures of Aboriginal self governance NASA Technical Memorandum ,1975 On Thin Ice Barry Scott Zellen,2009-01-01 On Thin Ice explores the shifting relationship between the Inuit and the modern state in the North American Arctic and it pays tribute to pioneering IR theorist Ken Waltz s elucidation of the Three Images with the addition of a new Fourth Image to describe a tribal level of analysis that remains salient in not only the Arctic but in other conflict zones where tribal peoples retain many attributes of their indigenous sovereignty *Arctic Systems* P. Amaria,2013-03-09 For the purpose of publication of these Proceedings the original conference programme has been rearranged to provide a more logical sequence of presentation The beginning sections give the inaugural speech and the six keynote addresses which were delivered at the opening plenary session Following these are the working papers published more or less in the same sequence in which they were presented in the original programme The order of presentation does not necessarily emphasise the importance of any one aspect of the Arctic Systems over others The final reports of the six working groups and their conclusions and recommendations are edited in such a manner as to present them in a standardised format for easy comprehension The editors accept responsibility for any distortion inadvertently introduced in the summarising and editing processes Later sections of the Proceedings give a background to the Conference organization and deliberations and an independent critique of the meeting The directors and those who attended the Conference were conscious of the debt of gratitude owed by them to the Conference chairmen rapporteurs authors of working papers and many individuals for their contributions to the success of the meeting We wish to thank them and it is a pleasure to record their names in these Proceedings Inaugural Speaker Dr J Rennie Whitehead Canada Banquet Guest Speaker Honourable Mr T Alex Hickman Canada Keynote Addresses Mr C Bornemann Denmark Dr A E Collin Canada Dr R E Francois U S A **Engineering Project Management** Louis Goodman,2019-03-14 This book presents IPQMS Integrated Planning and Quality Management System as a powerful management methodology This system ensures cost effectiveness as well as quality in the constructed project environmental cleanups and other sectors providing an integrative force for essential teamwork in industry and government This book contains business and engineering case studies illustrating a principle issue or approach in making a decision Each case study examines the spectrum of a particular project demonstrating the interrelationships among policy makers planners designers implementers and managers in creating a project Competing Arctic Futures Nina Wormbs,2018-08-06 This edited collection explores how narratives about the future of the Arctic have been produced historically up until the present day The contemporary deterministic and monolithic narrative is shown to be only one of several possible ways forward This book problematizes the dominant prediction that there will be increased shipping and resource extraction as the ice melts and shows how this seemingly inevitable future has consequences for the action that can be taken in the present This collection looks to historical projections about the future of the Arctic evaluating why some

voices have been heard and championed while others remain marginalised It questions how these historical perspectives have shaped resource allocation and governance structures to understand the forces behind change in the Arctic region Considering the history of individuals and institutions their political and economic networks and their perceived power the essays in this collection offer newperspectives on how the future of the Arctic has been produced and communicated **The Canada Year Book** ,1974 *People Pollution* Milton M.R. Freeman,1974-01-01 Examines the relationship between population related phenomena such as waste disposal and environmental problems *War Is Here* Robert McGill,2017-09-01 Canada did not fight in the Vietnam War but the conflict seized the Canadian imagination with an energy that has persisted In *War Is Here* Robert McGill explains how the war contributed to a golden age for writing in Canada As authors addressed the conflict they helped to construct an enduring myth of Canada as liberal hospitable and humanitarian For many writers the war was one that Canadians could and should fight against if not in person then on the page In this pioneering account of war related Canadian literature McGill observes how celebrated books of the era channel Vietnam sometimes in subtle but pervasive ways He examines authors attempts to educate their readers about American imperialism and Canadian complicity and he discusses how writers repeatedly used language evoking militarism and violence from the figure of the United States as a rapist to the notion of Canada as a peaceable kingdom in order to make Canadians feel more intensely about their country McGill also addresses the recent spate of prize winning Canadian novels about the war that have renewed Vietnam s resonance in the wake of twenty first century conflicts involving America *War Is Here* vividly revisits a galvanizing time in world history and Canadian life offering vital insights into the Vietnam War s influence on how people think about Canada its place in the world and the power of the written word to make a difference [The Writers Directory 2008](#) Michelle Kazensky,2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication Entries include name pseudonyms addresses citizenship birth date specialization career information and a bibliography [Twentieth-century Science Fiction Writers](#) ,1986 *Ojibway - Cree Resource Centre ... Bibliography* ,1978 **Combined Retrospective Index to Book Reviews in Scholarly Journals, 1886-1974** ,1979 **Cry Crisis!** Harvey Manning,1974 Examines the 1974 American oil crisis and possible solutions *Nationalism and National Ideologies in Canada and Quebec* Ronald D. Lambert,1975 *National Union Catalog* ,1978 Includes entries for maps and atlases
