Ronnes, N.H. Bijleveld, J.C.C.F.M. van den Borne, 2016 **Noble Strategies in an Early Modern Small State** Charles T. Lipp, 2011 Examining the societies of the hundreds of small states that made up most of Europe before the 19th century this text takes as its focus the Duchy of Lorraine A History of the European Restorations Michael Broers, Ambrogio A. Caiani, 2019-11-14

Europe's Restorations were characterised by their evolving dialectics. The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective. From the re-ordering of the European world through the tools of intervention, occupation and diplomacy to the creation of new constitutional monarchies across France, Scandinavia and Germany, the volume outlines the processes that realigned national priorities and the accompanying dynamics of social and political identity. In a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post-Napoleonic Europe, this collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European Restorations.

Go-Betweens for Hitler Karina Urbach, 2015-07-24 This is the untold story of how some of Germany's top aristocrats contributed to Hitler's secret diplomacy during the Third Reich, providing a direct line to their influential contacts and relations across Europe, especially in Britain, where their contacts included the press baron and Daily Mail owner Lord Rothermere and the future King Edward VIII. Using previously unexplored sources from Britain, Germany, the Netherlands, the Czech Republic and the USA, Karina Urbach unravels the story of top-level go-betweens such as the Duke of Coburg, grandson of Queen Victoria, and the seductive Stephanie von Hohenlohe, who rose from a life of poverty in Vienna to become a princess and an intimate of Adolf Hitler. As Urbach shows, Coburg and other senior aristocrats were tasked with some of Germany's most secret foreign policy missions from the First World War onwards, culminating in their role as Hitler's trusted go-betweens as he readied Germany for conflict during the 1930s and later in the Second World War. Tracing what became of these high-level go-betweens in the years after the Nazi collapse in 1945, from prominent media careers to sunny retirements in Marbella, the book concludes with an assessment of their overall significance in the foreign policy of the Third Reich.

Twilight of the Titans Paul K. MacDonald, Joseph M. Parent, 2018-04-15 In *Twilight of the Titans*, Paul K. MacDonald and Joseph M. Parent examine great power transitions since 1870 to determine how declining powers choose to behave, identifying the strong incentives to moderate their behavior when the hierarchy of great powers is shifting. Challenging the conventional wisdom that such transitions push declining great powers to extreme measures, this book argues that intimidation, provocation and preventive war are not the only alternatives to the loss of relative power and prestige. Using numerous case studies, MacDonald and Parent show how declining states tend to behave, the policy options they have, how rising states respond to those in decline, and what conditions reward particular strategic choices.

Modernizing Europe's Imperial Monarchies Heidi Hein-Kircher, Frederik Frank Sterkenburgh, 2025-05-28 Up until recently, Europe's three imperial monarchies—the German, Austrian, and Russian Empires—were seen as moribund political entities unable to accommodate the forces of political, social, economic, and cultural modernization, and as a result collapsed collectively during or shortly after the First World War. More recently, scholars have underlined the viability of these polities, including as frameworks for democratic experiments and fixed points for supra-national identification, notwithstanding the suppression of minorities and colonial

undertakings of these empires This book takes a different approach it demonstrates that these three imperial monarchies were capable of and willing to initiate and steer the modernization of their institutions and polities Rather than understanding modernization as a linear and teleological process this contributed volume draws instead on Samuel Eisenstadt s notion of multiple modernities to demonstrate how these empires sought to modernize on their own terms By drawing on this concept it becomes possible to challenge notions of inevitable decline and instead demonstrate how these imperial monarchies sought to forge modernization on their own terms in the nineteenth and early twentieth century The China Question T. G. Otte,2007-04-05 A global study of British policy over the China Question from 1894 1905 emphasizing the connections between European and overseas developments and encompassing diplomatic commercial financial and strategic factors as well as the politics of foreign policy **Science, Medicine, and Aristocratic Lineage in Victorian Popular Fiction** Abigail Boucher,2023-08-31 Science Medicine and Aristocratic Lineage in Victorian Popular Fiction explores the dialogue between popular literature and medical and scientific discourse in terms of how they represent the highly visible an pathologized British aristocratic body This books explores and complicates the two major portrayals of aristocrats in nineteenth century literature that of the medicalised frail debauched and diseased aristocrat and that of the heroic active beautiful noble both of which are frequent and resonant in popular fiction of the long nineteenth century Abigail Boucher argues that the concept of class in the long nineteenth century implicitly includes notions of blood lineage and bodily correctness and that class was therefore frequently portrayed as an empirical scientific and medical certainty Due to their elevated and highly visual social positions both historical and fictional aristocrats were frequently pathologized in the public mind and watched for signs of physical excellence or deviance Using popular fiction Boucher establishes patterns across decades genres and demographics and considers how these patterns react to normalise or feed into the advent of new scientific and medical understandings Labour, Coercion, and Economic Growth in Eurasia, 17th-20th Centuries ,2012-09-28 The history of the forms of free labour is intimately linked to that of coerced labour In this book worldwide acknowledged specialists of Russia China Russia Japan India the Indian Ocean France and Britain show that between the seventeenth and the twentieth century forms of labour and bondage were defined and practised in reference to each other Labour relationships found their sources not only in the global circulation of models peoples goods and institutions but also in market dynamics Proto industry agriculture trade and manufacturing experienced unprecedented growth throughout Eurasia Mostly labour intensive this long term growth put considerable pressure on labour resources and contributed to increased coercion and legal constraints on labour mobility in both Asia and Europe Abolitions as a Global Experience Hideaki Suzuki,2015-11-16 The abolition of slavery and similar institutions of servitude was an important global experience of the nineteenth century Considering how tightly bonded into each local society and economy were these institutions why and how did people decide to abolish them This collection of essays examines the ways this globally shared experience

appeared and developed Chapters cover a variety of different settings from West Africa to East Asia the Indian Ocean and the Caribbean with close consideration of the British French and Dutch colonial contexts as well as internal developments in Russia and Japan What part of the abolition decision was due to international pressure and what part due to local factors Furthermore this collection does not solely focus on the moment of formal abolition but looks hard at the aftermath of abolition and also at the ways abolition was commemorated and remembered in later years This book complicates the conventional story that global abolition was essentially a British moralizing effort among the three or four perfectly virtuous pages comprised in the history of nations Using comparison and connection this book tells a story of dynamic encounters between local and global contexts of which the local efforts of British abolition campaigns were a part Looking at abolitions as a globally shared experience provides an important perspective not only to the field of slavery and abolition studies but also the field of global or world history

Nobility and Business in History Silvia A. Conca Messina, Takeshi Abe, 2023-03-31 This book reconsiders the role of nobility as influential economic players and provides new insights into the business activities of noblemen in Europe and Asia during the nineteenth century thus offering up opportunities for comparison in an age of economic expansion and globalisation What was the contribution of the nobility to the economy Can we consider noblemen to have been endowed with an entrepreneurial spirit Research shows that far from being passive throughout the century the European nobility were widely involved in business carried on innovations refined management strategies and diversified their investments from agriculture to transport industry and finance Both in Europe and Asia businesses were embedded in social networks and personal relationships In modern Japan after the Meiji Restoration the unique case in Asia where a Western style nobility was created business trust personal connections and aristocratic marriages were intertwined and Japanese noblemen especially the richer ones acted as promoters of industrialisation even though their role was certainly limited in time and space This volume will be of great interest to scholars and researchers in the fields of economics management political science sociology public management and history The chapters in this book were originally published as a special issue of Business History
