The Army Air Forces In World War II Volume 7 Services Around The World:

The Army Air Forces in World War II: Services around the world, 1948 *The Army Air Forces in World War II, Vol. 7: Services Around the World* W.f Craven, 1950 The Army Air Forces in World War II. Volume 7. Services Around the World, 1983 This monograph is Volume 7 of a 7 volume history entitled *The Army Air Forces in World War II* The first five volumes told the story of combat operations in the several theaters the sixth described the means by which men were recruited and trained and machines were provided to insure victory in those operations The present volume deals with certain services which were common to the whole of the Army Air Forces In part these were the non Air Corps organizations which in the Army Air Forces AAF were subsumed under the ambiguous designation of Arms and Services but the Table of Contents will show both additions and deletions from that AGO listing There is inevitably some repetition for the services herein described were so inextricably a part of air combat that they have received due attention in the account of each air campaign There however the focus was on the activities of the tactical units comprising the theater air force here it is upon the services as each in its unique way contributed to the fulfillment of the AAF mission Section I contains chapters on Air Transport including the Air Transport Command Airway to the Middle East North Africa and the Mediterranean the North Atlantic Route Airline to China the Northwest Air Route to Alaska Across the Pacific and Traffic Homeward Bound Section II contains chapters on Aviation Engineers in Africa and Europe and Aviation Engineers in the War with Japan Section III contains chapters on the AAF Weather Service and the Army Airways Communication System Section IV contains chapters on the Medical Service of the AAF Morale and Air Sea Rescue Section V focuses on Women in the AAF and Section VI examines Redeployment and Mobilization **Blacks in the Army Air Forces During World War II: The Problems of Race**

Relations, 1977 Blacks in the Army Air Forces During World War II Alan M. Osur, 1977 This book is based upon a PH D dissertation written by an Air Force officer who studied at the University of Denver Currently an Associate Professor of History at the Air Force Academy Major Osur s account relates how the leadership in the War Department and the U S Army Air Forces USAAF tried to deal with the problem of race and the prejudices which were reflected in the bulk of American society It tells a story of black racial protests and riots which such attitudes and discrimination provoked The author describes many of the discriminatory actions taken against black airmen whose goal was equality of treatment and opportunities as American citizens He also describes the role of black pilots as they fought in the Mediterranean theater of operations against the Axis powers In his final chapters he examines the continuing racial frictions within the Army Air Forces which led to black servicemen protests and riots in 1945 at several installations Despite these problems the author concludes that the Army Air Forces made substantial progress in race relations and in opening up additional career opportunities for black airmen in the post 1945 period Foreword by USAF Major General John W Huston Office of Air Force History Chief **MacArthur's Air Force** Bill Yenne, 2019-09-19 General Douglas MacArthur is one of the towering figures

of World War II and indeed of the twentieth century but his leadership of the second largest air force in the USAAF is often overlooked When World War II ended the three numbered air forces the Fifth Thirteenth and Seventh under his command possessed 4004 combat aircraft 433 reconnaissance aircraft and 922 transports After being humbled by the Japanese in the Philippines in 1942 MacArthur and his air chief General George Kenney rebuilt the US aerial presence in the Pacific helping Allied naval and ground forces to push back the Japanese Air Force re take the Philippines and carry the war north towards the Home Islands Following the end of World War II MacArthur was the highest military and political authority in Japan and at the outbreak of the Korean War in June 1950 he was named as Commander in Chief United Nations Command In the ten months of his command his Far East Air Forces increased dramatically and saw the first aerial combat between jet fighters Written by award winning aviation historian Bill Yenne this engrossing and widely acclaimed book traces the journey of American air forces in the Pacific under General MacArthur s command from their lowly beginnings to their eventual triumph over Imperial Japan followed by their entry into the jet age in the skies over Korea

Six Air Forces Over the Atlantic Joseph T. Molyson Jr.,2024-04-16 The Battle of the Atlantic was the longest campaign of World War II lasting the entirety of the war in Europe from September 1939 to May 1945 It was also one of the war s most complex campaigns involving strategy operations tactics logistics politics diplomacy and alliances During the war s first two years the United States was drawn deeper into partnership with Great Britain and closer toward conflict with Germany in the waters of the North Atlantic Franklin Roosevelt realized this theater s importance I believe the outcome of this struggle is going to be decided in the Atlantic And so American British and Canadian forces battled Germans at sea and in the air to protect the flow of first materiel and then men from the United States to the United Kingdom The sea part has been well covered how German U boats and other warships hunted Allied convoys and how the Allies ultimately turned the tide Not so much the air war In *Six Air Forces over the Atlantic* Joseph Molyson tells the story of the Battle of the Atlantic from the perspective of the air forces and airmen who waged it from the skies above the icy waters of the North Atlantic He blends big picture attention to strategy and tactics with dramatic episodes of air to air and air to sea combat including the engagement in which a British light bomber captured a German U boat near Iceland He details the close eye Franklin Roosevelt kept on the campaign the effect B 24 Liberator bombers had and the rise of the Royal Air Force Coastal Command as a true U boat busting force The result was victory in the Atlantic as well as a significant contribution to victory in World War II

Heinrichs,Marc Gallicchio,2017 Award winning historians Waldo Heinrichs and Marc Gallicchio offer a full account and a provocative re examination of the last year of World War II in the Pacific Masters of the Air MTI Donald L. Miller,2024-01-23 A history recounting the events and experiences of the World War II bomber pilots of the U S Eighth Air Force the armed forces group that conducted

daytime bombing of Germany in advance of the Allied soldiers arrival on the ground

Master of Airpower David Mets, 2009-04-02 A valuable and long overdue biography of one of America's greatest soldiers Parameters The story of Gen Carl Tooe Spaatz's life is more than a biography of one of America's great military leaders It is a history of the development of airpower and a fascinating inside look at the long difficult struggle to win autonomy for the U S Air Force Spaatz earned his wings in 1918 when flying was a new and dangerous occupation aviation school mortality rates were 18 percent After gaining experience as a fighter pilot during the Great War he became one of the Air Corps top pursuit commanders during the 1920s During the 1930s he moved over to bombers just as modern long range aircraft were coming into service As a senior bomber commander Spaatz significantly influenced the emerging strategic bomber doctrine By the time of the outbreak of the Second World War Spaatz was one of America's most experienced aviators He was at the helm of the evolution of the new American military strategic airpower doctrine which proved to be a decisive factor in World War II After the Allied victory planning and launching an independent Air Force would occupy Spaatz for the remainder of his career Today's Air Force bears his indelible stamp Tooe Spaatz was a low profile leader who was known for his open mind and pragmatic approach and who was influential in a quiet forceful way Possessed of absolute integrity even when his beliefs were unpopular he pressed them at the risk of his career Air Force Officers Vance O. Mitchell, 1996 Air Force History Publications Air Force History and Museums Program (U.S.), 2008 *Monthly Catalog of United States Government Publications*, 2004-08 *War of Shadows* Gershom Gorenberg, 2021-01-19 In this World War II military history Rommel's army is a day from Cairo a week from Tel Aviv and the SS is ready for action Espionage brought the Nazis this far but espionage can stop them if Washington wakes up to the danger As World War II raged in North Africa General Erwin Rommel was guided by an uncanny sense of his enemies plans and weaknesses In the summer of 1942 he led his Axis army swiftly and terrifyingly toward Alexandria with the goal of overrunning the entire Middle East Each step was informed by detailed updates on British positions The Nazis somehow had a source for the Allies' greatest secrets Yet the Axis powers were not the only ones with intelligence Brilliant Allied cryptographers worked relentlessly at Bletchley Park breaking down the extraordinarily complex Nazi code Enigma From decoded German messages they discovered that the enemy had a wealth of inside information On the brink of disaster a fevered and high stakes search for the source began War of Shadows is the cinematic story of the race for information in the North African theater of World War II set against intrigues that spanned the Middle East Years in the making this book is a feat of historical research and storytelling and a rethinking of the popular narrative of the war It portrays the conflict not as an inevitable clash of heroes and villains but a spiraling series of failures accidents and desperate triumphs that decided the fate of the Middle East and quite possibly the outcome of the war **Air Mobility** Robert C. Owen, 2013 Global air mobility is an American invention During the twentieth century other nations developed capabilities to transport supplies and personnel by air to support deployed military forces But only the United

States mustered the resources and will to create a global transport force and aerial refueling aircraft capable of moving air and ground combat forces of all types to anywhere in the world and supporting them in continuous combat operations. Whether contemplating a bomber campaign or halting another surprise attack, American war planners have depended on transport and tanker aircraft.
