Roman provincial lifeworlds **The Greeks and Romans in the Black Sea and the Importance of the Pontic Region for the Graeco-Roman World (7th century BC-5th century AD): 20 Years On (1997-2017)** Gocha R.

Tsetskhladze, Alexandru Avram, James Hargrave, 2021-05-20 The proceedings of the Sixth International Congress on Black Sea Antiquities Constan a 2017 is dedicated to the 90th birthday of Prof Sir John Boardman President of the Congress since its inception The central theme returns to that considered 20 years earlier the importance of the Pontic Region for the Graeco Roman World *Soldiering for God* John F. Shean, 2010-08-23 This new study argues that the religious attitude of the Roman army was a crucial factor in the Christianization of the Roman world Specifically by the end of the third century there was a significant Christian presence within the army which was ready to act in the interests of the faith Conditions at this time were thus ripe for the coming to power of a Christian emperor when Constantine converted to Christianity he could rely upon the enthusiastic support of his Christian soldiers Constantine strengthened his Christian base by initiating policies which accelerated the Christianization of the army The continuation of these policies by Christian Roman emperors eventually allowed them to use the military as a vehicle for the suppression of paganism and heretical Christian sects

The Roman Lower Danube Frontier Emily Hanscam, John Karavas, 2023-11-16 Over the past few decades there has been a significant amount of research on the Roman Lower Danube frontier by international teams focusing on individual forts or broader landscape survey work collectively this volume represents the best of this collaboration with the aim of elevating the Lower Danube within broader Roman frontier scholarship **The First Millennium AD in Europe and the Mediterranean** Klavs Randsborg, 1991-01-25 Modern archaeology with its huge methodological repertoire its interdisciplinary orientation and its rapidly expanding basis in excavations is beginning to rewrite history and to reshape our views of the development of Europe prior to the present millennium Archaeological evidence draws attention to processes on which the written record is silent or which were not fully appreciated by contemporaries in the literate centres This book deals with the rise of medieval western Europe as the Roman Empire crumbled and the integration of hitherto barbarian societies into the new mainstream of European society Archaeological material is the main focus but information derived from written sources especially those illuminating the economic and the associated social circumstances is also taken into account *Rome and the Black Sea Region* Tonnes Bekker-Nielsen, 2006-09-01 In 89 BC Roman legionaries intervened in the Black Sea region to curb the ambitions of Mithridates VI of Pontus Over the next two centuries the Roman presence on the Black Sea coast was slowly but steadily increased This volume deals with the Roman impact on the indigenous population in the Black Sea region and touches on the theme of romanisation of that area Nine different contributors discuss several aspects of Roman identity and the cultural interaction one article even compares the situation to the American presence in Iraq though at the same time it also looks at the resistance to the Roman Empire and the Roman problems of creating peace in the region after the colonisation Romanisation and becoming Roman in a Greek world is a very popular field of discussion

about which a lot has already been written This book however encircles three important themes the domination the romanisation and the resistance It covers two different sides of the Roman presence in the area and shows both the perspective of a Roman just arrived Pliny the Younger and a native seeing the Romans coming the historian Memnon of Herakleia Furthermore it describes how multi identity cultures manage to live together because becoming Roman not necessarily means becoming less Greek or less Gaulish less Scythian less Bosporan etc The diversity of the different chapters in this book creates reflection on the cultural change in the traditionalist yet cosmopolitan environment that was the Roman Black Sea Region

Failure of Empire Noel Lenski, Noel Emmanuel Lenski, 2014-06-26 Failure of Empire is the first comprehensive biography of the Roman emperor Valens and his troubled reign A D 364 78 Valens will always be remembered for his spectacular defeat and death at the hands of the Goths in the Battle of Adrianople This singular misfortune won him a front row seat among history s great losers By the time he was killed his empire had been coming unglued for several years the Goths had overrun the Balkans Persians Isaurians and Saracens were threatening the east the economy was in disarray and pagans and Christians alike had been exiled tortured and executed in his religious persecutions Valens had not however entirely failed in his job as emperor He was an admirable administrator a committed defender of the frontiers and a ruler who showed remarkable sympathy for the needs of his subjects In lively style and rich detail Lenski incorporates a broad range of new material from archaeology to Gothic and Armenian sources in a study that illuminates the social cultural religious economic administrative and military complexities of Valens s realm Failure of Empire offers a nuanced reconsideration of Valens the man and shows both how he applied his strengths to meet the expectations of his world and how he ultimately failed in his efforts to match limited capacities to limitless demands

Corruption and the Decline of Rome Ramsay MacMullen, 1988-01-01 Argues that bureaucrats and military leaders acting for their own gain caused Rome to lose control of its government and decline

Theodosius Gerard Friell, Stephen Williams, 2005-08-08 Emperor Theodosius 379 95 was the last Roman emperor to rule a unified empire of East and West and his reign represents a turning point in the policies and fortunes of the Late Roman Empire In this imperial biography Stephen Williams and Gerry Friell bring together literary archaeological and numismatic evidence concerning this Roman emperor studying his military and political struggles which he fought heroically but ultimately in vain Summoned from retirement to the throne after the disastrous Roman defeat by the Goths at Adrianople Theodosius was called on to rebuild the armies and put the shattered state back together He instituted a new policy towards the barbarians in which diplomacy played a larger role than military might at a time of increasing frontier dangers and acute manpower shortage He was also the founder of the established Apostolic Catholic Church Unlike other Christian emperors he suppressed both heresy and paganism and enforced orthodoxy by law The path was a difficult one but Theodosius and his successor Stilicho had little choice This new study convincingly demonstrates how a series of political misfortunes led to the

separation of the Eastern and Western empires which meant that the overlordship of Rome in Europe dwindled into mere ceremonial. The authors examine the emperor and his character and the state of the Roman empire putting his reign in the context of the troubled times. **Aufstieg und Niedergang der römischen Welt: Principat.** v Hildegard

Temporini, Wolfgang Haase, 1991 **A Companion to Ancient Agriculture** David Hollander, Timothy Howe, 2020-11-10 The first book length overview of agricultural development in the ancient world. A Companion to Ancient Agriculture is an authoritative overview of the history and development of agriculture in the ancient world. Focusing primarily on the Near East and Mediterranean regions, this unique text explores the cultivation of the soil and rearing of animals through centuries of human civilization from the Neolithic beginnings of agriculture to Late Antiquity. Consisting of thirty-one chapters, the Companion presents essays on a range of topics that include economic, political, anthropological, zooarchaeological, ethnobotanical, and archaeobotanical investigation of ancient agriculture. Chronologically organized, chapters offer in-depth discussions of agriculture in Bronze Age Egypt and Mesopotamia, Hellenistic Greece, and Imperial Rome, Iran, and Central Asia, and other regions. Sections on comparative agricultural history discuss agriculture in the Indian subcontinent and prehistoric China, while an insightful concluding section helps readers understand ancient agriculture from a modern perspective. Fills the need for a full-length biophysical and social overview of ancient agriculture. Provides clear accounts of the current state of research, written by experts in their respective areas. [Danorum Regum Heroumque Historia, Books X-XVI](#) Saxo (Grammaticus), 1978 **Experiencing the Frontier and the Frontier of Experience: Barbarian perspectives and Roman strategies to deal with new threats** Alexander Rubel, Hans-Ulrich Voß, 2020-12-17 This book considers the Roman Empire's responses to the threats which were caused by the new geostrategic situation brought on by the crisis of the 3rd century AD, induced by the barbarians who often already part of Roman military structures as mercenaries and auxiliaries, became a veritable menace for the Empire. [La caída del Imperio Romano](#) Arther Ferrill, 2007-06-05 Qu ocasión la caída de Roma. Desde los días de Gibbon los eruditos han debatido la cuestión con vehemencia y llegan a respuestas que van desde la

decadencia racial hasta la extendida inmoralidad y una excesiva burocratización. En los últimos años la explicación más probable ha sido olvidada. No fue por encima de todo un derrumbamiento militar. El autor lo cree así y lo argumenta en este interesante libro. En la última década del siglo IV d. C. el emperador Teodosio gobernaba sobre un Imperio tan extenso como el del gran Augusto y dirigía un imponente ejército de cientos de miles de hombres. Menos de ochenta años después tanto el Imperio como el ejército habían sido destruidos. ¿Cómo sucedió? Las invasiones bárbaras desempeñaron desde luego su papel pero la causa fundamental recae en el interior del mismo ejército. Una inmensa reserva móvil creada por Constantino (306-307) debilitó fatalmente las fuerzas fronterizas y reforzó a la caballería a expensas de la infantería. La introducción de aliados bárbaros como refuerzo del ejército bajó la moral y la disciplina de la infantería. Todavía en las batallas cruciales contra los godos y los hunos fue la infantería, no la caballería, la que decidió la suerte del Imperio. La derrota de la infantería romana condujo a la caída de la misma Roma.
