The Art Circle A Theory Of Art:

The Art Circle George Dickie, 1984 **Art and Value** George Dickie, 2001-10-08 Art and Value focuses on the questions of history methods and nature of art theories and on the value and evaluation of art It serves as a valuable primer to aesthetics as well as a summary and extension of Dickie's contribution to the field **Evaluating Art** George Dickie, 2010-05-18 A theory about how to judge a work of art as opposed to a theory that explains why a particular work is defined as art *Art Theory for a Global Pluralistic Age* Steven Félix-Jäger, 2019-12-02 This book extends a theory of art that addresses the present era's shift towards global pluralism By focusing on extrinsic rather than intrinsic qualities of art this book helps viewers evaluate art across cultural boundaries Art can be universally classified by an evaluation of its guiding narrative and can be understood and judged through hermeneutical methods Since artists engage culture through various local transnational and emerging global narratives it is difficult to decipher what standards are used for evaluation and which authoritative body evaluates the work This book implements a narrative hermeneutical approach to properly classify an artwork and establish its meaning and value Aesthetics, Disinterestedness, and Effectiveness in Political Art Maria-Alina Asavei, 2018-09-15 Should politically concerned and engaged artistic production disregard questions or requirements of aesthetic reception and value Whether art should be aesthetic or political is not a new question Therefore in spite of those several contemporary approaches of this issue the answer is not set in stone and the debate is still going on This volume aims to broaden these debates and it stems from numerous conversations with politically engaged artists and artist collectives on issues related to the aesthetization of politics versus the politicization of art as well as the phenomenon of the so called unhealthy aestheticism in political art Thus this study has three interrelated aims Firstly it aims to offer an interdisciplinary account of the relationship between art and politics and between aesthetics and the political Secondly it attempts to explore what exactly makes artistic production a strong yet neglected field of political critique when democratic political agency history from below and identity politics are threatened Finally to illuminate the relationship between critical political theory on the one hand and the philosophy of art on the other by highlighting artworks moral political and epistemic abilities to reveal criticize problematize and intervene politically in our political reality *Institutions of Art* Robert J. Yanal, 2010-11 George Dickie has been one of the most innovative influential and controversial philosophers of art working in the analytical tradition in the past twenty five years Dickie's arguments against the various theories of aesthetic attitude aesthetic perception and aesthetic experience virtually brought classical theories of the aesthetic to a halt His institutional theory of art was perhaps the most discussed proposal in aesthetics during the 1970s and 1980s inspiring both supporters who produced variations on the theory as well as passionate detractors who thought the theory thoroughly wrongheaded Dickie has also written widely on the history of aesthetics and his work ranks among the best examples of analytic aesthetics The philosophy of George Dickie continues to provoke reaction and reflection The essays in this collection pay homage not only to

Dickie's ideas but also to his influence. A brief biography of George Dickie and a bibliography of his works complete the volume.

A Companion to Aesthetics Stephen Davies, Kathleen Marie Higgins, Robert Hopkins, Robert Stecker, David E. Cooper, 2009-04-27. A COMPANION TO AESTHETICS. This second edition of *A Companion to Aesthetics* examines questions that were among the earliest discussed by ancient philosophers such as the nature of beauty and the relation between morality and art while also addressing a host of new issues prompted by recent developments in the arts and in philosophy including coverage of non-Western art traditions and of everyday and environmental aesthetics. The volume also canvases debates regarding the nature of representation, the relation between art and truth, and the criteria for interpretation which are among the most hotly discussed topics in contemporary philosophy. In this extensively revised and updated edition, 168 alphabetically arranged articles provide comprehensive treatment of the main topics and writers in aesthetics. Major additions include historical overviews from the prehistoric to the present and a section on the individual arts. *A Companion to Aesthetics* will serve students of philosophy, literary criticism, and cultural studies as well as the educated general reader both as a work of reference and with its many substantial essays as a guide to the best thinking about the arts from the ancient Greeks to the dawn of the twenty-first century.

Key Concepts in Cultural Theory Andrew Edgar, Lecturer in Philosophy in the School of English Studies. Andrew Edgar, Peter Sedgwick, 2005-10-09. This work presents a survey of over 350 of the key terms encountered in cultural theory today, each entry providing explanations for students in a wide range of disciplines. These include literature, cultural studies, sociology, and philosophy.

A Theory of Cultural Heritage Salvador Muñoz-Vinas, 2023-06-07. *A Theory of Cultural Heritage* provides a structured and comprehensive picture of the concept of cultural heritage (CH) and its theoretical and practical derivatives. Arguing that the expanded notion of CH brings with it a number of unresolved conceptual tensions, Muñoz-Vinas summarizes the strong and weak points of the current discourse. Gathering together a range of existing views on cultural heritage and its practices, the book provides a dynamic overview of the theoretical underpinnings behind the notion and also considers how these could evolve in the future. By analyzing the conflicting meanings of the term cultural heritage and establishing a more nuanced ontological taxonomy, this book challenges some well-established views and outlines a framework that will allow the reader to better grasp the theoretical and practical complexities of this fascinating notion. *A Theory of Cultural Heritage* is a thought-provoking and valuable contribution to the existing literature, written in an engaging, clear style that will make it accessible to academics, students, and heritage professionals alike.

Subjects and Objects Jeffrey Strayer, 2007-04-30. The subject matter of *Subjects and Objects* is the limits of Abstraction in art. The notion of Abstraction, its development in art history, and the relation of art and philosophy regarding Abstraction are considered in addition to identifying and examining things that are essential to artworks. Any artwork has an identity, and comprehension of that identity depends on a perceptual object. A subject's apprehension of such an object creates an artistic complex of which the object, the subject, and the apprehension are

constituents The essential elements of this kind of complex are the subject of the final part of the work Its concluding section considers these elements as material to be used to determine the limits of Abstraction
