Deaccessioning and Its Discontents Martin Gammon,2018-11-06 The first history of the deaccession of objects from museum collections that defends deaccession as an essential component of museum practice Museums often stir controversy when they deaccession works formally remove objects from permanent collections with some critics accusing them of betraying civic virtue and the public trust In fact Martin Gammon argues in *Deaccessioning and Its Discontents* deaccession has been an essential component of the museum experiment for centuries Gammon offers the first critical history of deaccessioning by museums from the seventeenth to the twenty first century and exposes the hyperbolic extremes of deaccession denial the assumption

that deaccession is always wrong and deaccession apology when museums justify deaccession by finding some fault in the object as symptoms of the same misunderstanding of the role of deaccessions in proper museum practice He chronicles a series of deaccession events in Britain and the United States that range from the disastrous to the beneficial and proposes a typology of principles to guide future deaccessions Gammon describes the liquidation of the British Royal Collections after Charles I's execution when masterworks were used as barter to pay the king's unpaid bills as establishing a precedent for future deaccessions He recounts among other episodes U S Civil War veterans who tried to reclaim their severed limbs from museum displays the 1972 Hoving affair when the Metropolitan Museum of Art sold a number of works to pay for a Velázquez portrait and Brandeis University's decision later reversed to close its Rose Art Museum and sell its entire collection of contemporary art An appendix provides the first extensive listing of notable deaccessions since the seventeenth century Gammon ultimately argues that vibrant museums must evolve embracing change loss and reinvention

The Macedonian Empire James R. Ashley, 2024-12-02 The Macedonian Empire lasted only 36 years beginning with Philip II's assumption of the throne in 359 B C and ending with the death of his son Alexander the Great in 323 B C In that span the two leaders changed the map in the known world Philip established new tactics that forever ended the highly stylized mode that had characterized Classic Greek warfare and Alexander's superb leadership made the army an unstoppable force This work first examines the 11 great armies and three great navies of the era along with their operations and logistics The primary focus is then on each campaign and significant battle fought by Philip or Alexander detailing how the battles were fought the tactics of the opposing armies and how the Macedonians were able to triumph

Afghanistan Ali Ahmad Jalali, 2021-12-15 *Afghanistan A Military History from the Ancient Empires to the Great Game* covers the military history of a region encompassing Afghanistan Central and South Asia and West Asia over some 2 500 years This is the first comprehensive study in any language published on the millennia long competition for domination and influence in one of the key regions of the Eurasian continent Jalali's work covers some of the most important events and figures in world military history including the armies commanded by Cyrus the Great Alexander the Great the Muslim conquerors Chinggis Khan Tamerlane and Babur Afghanistan was the site of their campaigns and the numerous military conquests that facilitated exchange of military culture and technology that influenced military developments far beyond the region An enduring theme throughout Afghanistan is the strong influence of the geography and the often extreme nature of the local terrain Invaders mostly failed because the locals outmaneuvered them in an unforgiving environment Important segments include Alexander the Great remembered to this day as a great victor though not a grand builder the rise of Islam in the early seventh century in the Arabian Peninsula and the monumental and enduring shift in the social and political map of the world brought by its conquering armies the medieval Islamic era when the constant rise and fall of ruling dynasties and the prevalence of an unstable security environment reinforced localism in political social and military life the centuries long impact of the destruction caused by

Chinggis Khan's thirteenth century early eighteenth century when the Afghans achieved a remarkable military victory with extremely limited means leading to the downfall of the Persian Safavid dynasty and the Battle of Panipat 1761 where Afghan Emperor Ahmad Shah Abdali decisively routed the Hindu confederacy under Maratha leadership widely considered as one of the decisive battles of the world. It was in this period when the Afghans founded their modern state and a vast empire under Ahmad Shah Durrani which shaped the environment for the arrival of the European powers and the Great Game. *All Our Own Work [by Art] Evans & [John Yardley-] Jones* Art Evans, 1962 **Teacher of the Nations** Devin L. White, 2017-11-20

This study examines educational motifs in 1 Corinthians 1-4 in order to answer a question fundamental to the interpretation of 1 Corinthians: Do the opening chapters of 1 Corinthians contain a Pauline apology or a Pauline censure? The author argues that Paul characterizes the Corinthian community as an ancient school; a characterization Paul exploits both to defend himself as a good teacher and to censure the Corinthians as poor students.
