Karen Bradley,2018-08-06 Rudolf Laban was one of the leading dance theorists of the twentieth century His work on dance analysis and notation raised the status of dance as both an art form and a scholarly discipline This is the first book to combine an overview of Laban s life work and influences an exploration of his key ideas including the revolutionary Laban Movement Analysis system analysis of his works Die Gr nen Clowns and The Mastery of Movement and their relevance to dance theater from the 1920s onwards a detailed exercise based breakdown of Laban s key teachings As a first step towards critical understanding and as an initial exploration before going on to further primary research Routledge Performance Practitioners are unbeatable value for today s student **Laban - Aristotle** Kiki Selioni,2020-12-20 The focus of this book

rests on an investigation into the links between Laban and Aristotle and aims at proposing a new approach to movement training for the actor In contrast to the standard Platonic reading Laban s development is best understood through the conceptual framework of Aristotle This not only provides a more secure theoretical approach but a practical one as well

which establishes the art of movement as a science This investigation intends to establish Laban's philosophical foundation upon a reading of Aristotle's Poetics and in particular on the reading of the Poetics by contemporary Greek philosopher Stelios Ramfos in his two volume book I MIMESIS VERSUS FORM Exegesis about Aristotle's Poetics 1991 1992 What is significant about Stelios Ramfos exegesis is that he attempts an analysis and interpretation of the concepts of the Poetics in terms of theatre performance it is this emphasis on performance that makes the task I have embarked upon possible The discussion will serve as a critical framework that will propose a new way of applying Laban's movement concepts to the movement training for actors in practice The research methodology is also practical I will therefore also develop and present a performance that attempts to apply Laban's terms as these are discussed in relation to Aristotle and in relation to the new methodology as well as a syllabus of practical classes addressing actor movement training in both kinaesthesia and characterization The ultimate goal of the project is to contribute an approach that can inform the way Laban's concepts are taught and provide suggestions for structuring technical movement classes for actors
