Professional Journal of the United States Army ,1990 Learning In U.s. And Soviet Foreign Policy George
Breslauer,2019-03-07 Are policymakers capable of learning about the complex international environment they must deal with when formulating foreign policy Interest in the phenomenon of learning has been growing driven in part by the advent of Gorbachev and by prospects for ending the Cold War In this book leading scholars explore the theoretical and practical imp

The Treaty on Conventional Armed Forces in Europe Mark Wilcox, 2024-03-04 This work examines the CFE Treaty as a factor in Russia's foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow's foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia's national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of de coupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia's approach to arms control as an element of military security Russian Negotiating Strategy Paul R. Bennett, 1997 Russian Negotiating Strategy Analytic Case Studies From Salt Start Military Review ,1990 **Hostage to Revolution** Coit D. reform arms control regional and international security and civil military relations **Resolving Security Dilemmas** Brian Frederking, 2018-10-24 This title was first published 2000 The book applies constructivist arguments about culture norms and identity to explain the superpower negotiations that produced the INF Treaty It contributes to the constructivist research program in two ways First it develops a speech act model of social interaction to illustrate constructivist arguments and second it develops a constructivist theory of security dilemmas that suggests practical ways to resolve them The substantive conclusion of the book is that the dominant understanding of the end of the Cold War the buildup argument is not correct as it advocates policies that tend to perpetuate conflicts Instead this book argues that the new thinking explanation is more coherent and suggests improved practical ways to resolve other security dilemmas The Making of Détente Keith L. Nelson, 2019-12-01 Originally published in 1995 In the early 1970s largely as a result of the debilitating struggle in Vietnam the United States began to reassess and redefine its basic approach to East West relations At the same time the Soviet Union was awakening to the liabilities that a continuing and unregulated state of hostility would impose on its own internal and external agenda Keith Nelson details the circumstances and traces the steps that led to the first significant accommodation and easing of tension between the superpowers during the Cold War In this important study Keith Nelson explains the detente period in an imaginative convincing and impressively scholarly manner Although there have been scores of books and memoirs on the subject none have done the job quite like Nelson's In particular he has used post glasnost Russian memoirs and monographs and especially his own interviews with such key players as Dobrynin and Arbatov to present one of the most intelligent Kremlinological studies I have ever seen Melvin Small Wayne State University Science, (Anti-)Communism and Diplomacy, 2019-10-01 From 1957 onwards the Pugwash Conferences brought together elite scientists from across ideological and political divides to work towards disarmament Through a series of national case studies Austria China Czechoslovakia East and West Germany the US and USSR this volume offers a critical reassessment of the development and work of Pugwash nationally internationally and as a transnational forum for Track II diplomacy This major new collection reveals the difficulties that Pugwash scientists encountered as they sought to reach across the blocs create a channel for East West dialogue and realize the project's founding aim of influencing state actors Uniquely the book affords a sense of the contingent and contested process by which the network like organization took shape around the conferences Contributors are Gordon Barrett Matthew Evangelista Silke Fengler Alison Kraft Fabian L scher Doubravka Ol kov Geoffrey Roberts Paul Rubinson and Carola Sachse Problems of Communism ,1989 Review of Arms Control and Disarmament Activities, 99th Congress, 1st Session United States.
