The Other Side of Silence James Willis, 2007-12 When CSA Lieutenant William Joseph Butler or Billy as family and friends know him becomes a target of revenge for a wealthy planter on the Mississippi Billy s father allows him to follow his brother into the army Seventeen year old Billy finds his brother and regiment at Corinth just before the battle of Shiloh in April of 1862 War is not what young Billy imagined it to be Educated and inquisitive he questions much of what he sees and experiences and Billy finds himself contemplating the true nature and validity of the war he s fighting and losing After his first battle Billy realizes glory is not a holy grail to be sought or bought glory is made when soldiers are brutally slain unable to strike the heroic pose Yet Billy still finds reason to continue the war effort at each junction risking losses beyond anything he has

known in his short life From the fragrant stalls of a livery stable to the bloodstained battlefields of the Civil War *The Other Side of Silence* vividly portrays the life of a soldier who becomes disillusioned with war and the quest for glory

Textual Studies and the Enlarged Eighteenth Century Kevin L. Cope, Robert C. Leitz III, 2012-05-18 Scholars librarians students and database vendors have all applauded the increase in access to rare old venerated and obscure texts that has resulted from the rise of electronic resources Almost everyone associated with any branch of cultural history has heard the claims about unlimited research opportunity and the rediscovery of overlooked sources But are these claims true Have high tech systems and methods enhanced or inhibited scholarship Nowhere is this question more pressing than in the area of eighteenth century studies where so much of the subject matter relates to the first wave of informational abundance to that great period of profuse printing during which presses produced a mass market full of diverse readers *Textual Studies and the Enlarged Eighteenth Century* probes the assumptions about the advanced tools that may be replicating this period of profusion among contemporary scholars How much access to period information do current cost and present institutional support really allow Who is accessing what and who is not Which authors and which topics get lost in the processor driven shuffle How do electronic tools bias scholarship What are the disadvantages of databases These and many more questions receive a brisk and robust review in this first critique of new wave research A variety of acclaimed scholars from an interdisciplinary array of specialties look at topics ranging from legacy bibliographical projects to standards for online editions to para textual materials to the appropriateness of importing electronic research techniques into the study of a low tech period and on to the transatlantic exchange of information in both the early modern and the present periods Scholars in all fields will benefit from this vigorous analysis of the assumptions underlying the tools and the methods of twenty first century humanities scholarship

Slavery in the Age of Memory Ana Lucia Araujo, 2020-10-15 Exploring notions of history collective memory cultural memory public memory official memory and public history *Slavery in the Age of Memory Engaging the Past* explains how ordinary citizens social groups governments and institutions engage with the past of slavery and the Atlantic slave trade It illuminates how and why over the last five decades the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade The book draws on a variety of case studies to investigate its central questions How have social actors and groups in Europe Africa and the Americas engaged with the slave past of their societies Are there any relations between the demands to rename streets of

Liverpool in England and the protests to take down Confederate monuments in the United States How have black and white social actors and scholars influenced the ways slavery is represented in George Washington's Mount Vernon and Thomas Jefferson's Monticello in the United States How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington DC Why have artists used their works to confront the debates about slavery and its legacies The important debates addressed in this book resonate in the present day Arguing that memory of slavery is racialized and gendered the book shows that more than just attempts to come to terms with the past debates about slavery are associated with the persistent racial inequalities racism and white supremacy which still shape societies where slavery existed Slavery in the Age of Memory Engaging the Past is thus a vital resource for students and scholars of the Atlantic world the history of slavery and public history
