The Paradigm Of Greed And Its Impact On African Americans:

The Paradigm of Greed and Its Impact on African Americans Dr C E Pender,2005-08 These United States were founded on the religion of greed until this day it continues to have divesting impacts on the African American population The Paradigms of Greed is the result of the CRABS cognitive retrogression affecting the black society which is an internal destruction switch imbedded in most African Americans from the days of slavery which for the most part never really ended This self destruction is directly linked to assimilation so therefore in this spell book you will understand why there is such an alarming rate of black on black crime character killing jealousy and envy Now and only now the author has masterfully uncovered the sinister plot of how the whole psychological program encourages black to be there own worst enemies Read how it works and more importantly hunt and expose the real enemy which is secular greed Read of America s new cash crop and how dependency is the new hangman Understand being rich and wealthy are not the same in short it is all about who control the money The author has woven his argument into a colorful disciplinary program which could prove to reduce the impact of the CRABS created by the obsession of pure greed which is green money African American this book is monitory Americans truly this is the Paridigm of Greed The reversal of this CRABS disorder is lodged in this volume so one can truly began the process of emancipation completed with the God factor *Encyclopedia of African American Music* Tammy L. A Greedy Society Charles Henry Orr, 2012-01-09. A Greedy Society will show the poor working and middle class people hoping for the American dream being sadly disappointed in America. They have been lied to, cheated, and discriminated against not only in housing but in employment opportunities as well. This is an investigation of the impact of mortgage foreclosures on African American families and communities in urban areas like Chicago, Illinois. There were one million foreclosures in 2010 in the United States while Wall Street executives and banks received huge profits from real estate transactions. In this study, the author has covered all aspects of the real estate industry. The main coverage was the problems of foreclosures. The secondary issue in this piece was the African American family's quality of life. How do foreclosure problems affect African Americans' future? Why are African American families and communities more vulnerable? What will the future be like in homeownership for African American families in the United States? These questions were researched and analyzed in this academic book. The subjects of business, sociology, politics, and economics will be used in this discussion. The direct connection to my first book is deliberate: Foreclosures will increase the homeless population and poverty in the United States.

The SAGE Encyclopedia of African Cultural Heritage in North America Mwalimu J. Shujaa, Kenya J. Shujaa, 2015-07-13. The Encyclopedia of African Cultural Heritage in North America provides an accessible ready reference on the retention and continuity of African culture within the United States. Our conceptual framework holds first that culture is a form of self-knowledge and knowledge about self in the world as transmitted from one person to another. Second, that African people continuously create their own cultural history as they move through time and space. Third, that African-descended people living outside of Africa are also contributors to and participate in the creation of African cultural history. Entries focus on illuminating Africanisms, cultural retentions traceable to an African origin, and cultural continuities, ongoing practices and processes through which African culture continues to be created and formed. Thus, the focus is more culturally specific and less concerned with the broader transatlantic demographic, political, and geographic issues that are the focus of similar recent reference works. We also focus less on biographies of individuals and political and economic ties and more on processes and manifestations of African cultural heritage and continuity.

FEATURES A two-volume A to Z work available in a choice of print or electronic formats. 350 signed entries, each concluding with cross-references and Further Readings. 150 figures and photos. Culturcide and Non-Identity across American Culture Daniel S. Traber, 2017-06-23 It goes without saying that identity has long been a recurrent topic in studies of American culture The struggle between group sameness and individual uniqueness is a common issue in understanding diversity in the United States on several levels including how our differences have not always resulted in national celebration Terms such as hybridity performativity transnationalism and border zones are part of the current theoretical vocabulary and for some deploy a fresh language of possibility one promising to undermine the conformist values of monocultural perspectives To that end *Culturcide and Non Identity across American Culture* explores theories and practices of identity from a broad perspective to grasp how varied diffuse and distorted they can be especially when that identity seems boringly familiar The subjects range from hip hop parodies to punk preppies to pachuco ska thus crossing the lines of genre medium and discipline to blur the borderline dividing the kinds of texts to which these theories can legitimately be applied [Afrocentricity in AfroFuturism](#) Aaron X. Screens Fade to Black David J. Leonard,2006-06-30 The triple crown of Oscars awarded to Denzel Washington Halle Berry and Sidney Poitier on a single evening in 2002 seemed to mark a turning point for African Americans in cinema Certainly it was hyped as such by the media eager to overlook the nuances of this sudden embrace In this new study author David Leonard uses this event as a jumping off point from which to discuss the current state of African American cinema and the various genres that currently compose it Looking at such recent films as Love and Basketball Antwone Fisher Training Day and the two Barbershop films all of which were directed by black artists and most of which starred and were written by blacks as well Leonard examines the issues of representation and opportunity in contemporary cinema In many cases these films which walk a line between confronting racial stereotypes and trafficking in them made a great deal of money while hardly playing to white audiences at all By examining the ways in which they address the American Dream racial progress racial difference blackness whiteness class capitalism and a host of other issues Leonard shows that while certainly there are differences between the grotesque images of years past and those that define today s era the consistency of images across genre and time reflects the lasting power of racism as well as the black community s response to it
