After the Flying Saucers Came Greg Eghigian, 2024 After the Flying Saucers Came is a comprehensive account of the stories the people and the strange events that went into making the fascination with UFOs and aliens a worldwide phenomenon among believers skeptics and the simply curious It traces how an odd sighting of flying saucers by an American pilot in 1947 inspired governments the media scientists writers and the general public to consider the possibility that extraterrestrials were visiting earth

Fifty Years of Medieval Technology and Social Change Steven A. Walton, 2019-08-22 This volume brings together a series of papers at Kalamazoo as well as some contributed papers inspired by the fiftieth anniversary of the publication of Lynn White Jr s Medieval Technology and Social Change 1962 a slim study which catalyzed the study of technology in the Middle Ages in the English speaking world While the initial reviews and decades long fortune of the volume have been varied it is still in print and remains a touchstone of an idea and a time The contributors to the volume therefore both investigate the book itself and its fate and look at new research furthering and inspired by White s work The book opens with an introduction surveying White s career with a bibliography of his work as well as some opening thoughts on the study of medieval technology in the last fifty years Three papers then deal explicitly with the reception and longevity of his work and its impact on medieval studies more generally Then five papers look at new cast studies areas where White s work and approach has had a particular impact namely medieval technology studies and medieval rural ecological studies

DeCorse, 2019-12-20 Integrating historical biological archaeological and applied approaches with ethnographic data from around the world Anthropology A Global Perspective is founded on four essential themes the diversity of human societies the similarities that tie all humans together the interconnections between the sciences and humanities and a new theme addressing psychological essentialism

The Oxford Handbook of Philosophical Methodology Herman Cappelen, Tamar Gendler, John P. Hawthorne, 2016 This is the most comprehensive book ever published on philosophical methodology A team of thirty eight of the world s leading philosophers present original essays on various aspects of how philosophy should be and is done The first part is devoted to broad traditions and approaches to philosophical methodology including logical empiricism phenomenology and ordinary language philosophy The entries in the second part address topics in philosophical methodology such as intuitions conceptual analysis and transcendental arguments The third part of the book is devoted to essays about the interconnections between philosophy and neighbouring fields including those of mathematics psychology literature and film and neuroscience

Willa Cather's Ecological Imagination Susan J. Rosowski, 2003-01-01 The wide ranging essays collected in this volume of Cather Studies examine Willa Cather s unique artistic relationship to the environment Under the theoretical rubric of ecocriticism these essays focus on Cather s close observations of the natural world and how the environment proves for most of these contributors to be more than simply a setting for her characters While it is certain that Cather s novels and short

stories are deeply grounded in place literary critics are only now considering how place functions within her narratives and addressing environmental issues through her writing These essays reintroduce us to a Cather who is profoundly identified with the places that shaped her and that she wrote about Glen A Love offers an interdisciplinary reading of The Professor's House that is scientifically oriented Joseph Urgo argues that My Antonia models a preservationist aesthetic in which landscape and memory are inextricably entangled Thomas J Lyon posits that Cather had a living sense of the biotic community and used nature as the standard of excellence for human endeavors and Jan Goggans considers the ways that My Antonia shifts from nativism toward a flexible notion of place based community

Reading Faces Edward Higgs, 2025-10-20 *Reading Faces* is the first book to discuss the historical contexts and theoretical underpinnings of the artificial intelligence AI systems that identify individuals or purport to ascribe emotions and characteristics to them based on their facial features It examines the direct impact of past research on the development of AI systems the way in which the past provides contexts which have predisposed people to accept outputs of AI systems as common sense how the role of politics and the changing nature of the state have led to the introduction of AI systems and their precursors how previous technologies led to the acceptance of the introduction of superficially similar AIs and how the outputs and biases such as purported associations between race and criminality of facial biometrics systems have been determined by the historical nature of the underlying datasets they analyze *Reading Faces* approaches these issues within the sweep of Western History how it has shaped conceptual categories about the application and ethics of AI and tried to foist those ideas and values on the Global South This book is essential reading for postgraduates scholars as well as non specialist readers such as booksellers and librarians interested in modern AI technology
