## **The Past:**

The Past is a Foreign Country David Lowenthal, 1985-11-14 Lowenthal looks at the benefits and burdens of the past how we study the past and how we change it      **The Presence of the Past** Roy Rosenzweig, David Thelen, 1998-11-05 Some people make photo albums collect antiques or visit historic battlefields Others keep diaries plan annual family gatherings or stitch together patchwork quilts in a tradition learned from grandparents Each of us has ways of communing with the past and our reasons for doing so are as varied as our memories In a sweeping survey Roy Rosenzweig and David Thelen asked 1 500 Americans about their connection to the past and how it influences their daily lives and hopes for the future The result is a surprisingly candid series of conversations and reflections on how the past infuses the present with meaning Rosenzweig and Thelen found that people assemble their experiences into narratives that allow them to make sense of their personal histories set priorities project what might happen next and try to shape the future By using these narratives to mark change and create continuity people chart the courses of their lives A young woman from Ohio speaks of giving birth to her first child which caused her to reflect upon her parents and the ways that their example would help her to become a good mother An African American man from Georgia tells how he and his wife were drawn to each other by their shared experiences and lessons learned from growing up in the South in the 1950s Others reveal how they personalize historical events as in the case of a Massachusetts woman who traces much of her guarded attitude toward life to witnessing the assassination of John F Kennedy on television when she was a child While the past is omnipresent to Americans history as it is usually defined in textbooks leaves many people cold Rosenzweig and Thelen found that history as taught in school does not inspire a strong connection to the past And they reveal how race and ethnicity affects how Americans perceive the past while most white Americans tend to think of it as something personal African Americans and American Indians are more likely to think in terms of broadly shared experiences like slavery the Civil Rights Movement and the violation of Indian treaties Rosenzweig and Thelen's conclusions about the ways people use their personal family and national stories have profound implications for anyone involved in researching or presenting history as well as for all those who struggle to engage with the past in a meaningful way      The Politics of the Past in an Argentine Working-Class Neighbourhood Lindsay DuBois, 2008-05-15 The Argentine dictatorship of 1976 to 1983 set out to transform Argentine society Employing every means at its disposal including rampant violation of human rights union busting and regressive economic policies the dictatorship aimed to create its own kind of order Lindsay DuBois's *The Politics of the Past* explores the lasting impact of this authoritarian transformative project for the people who lived through it DuBois's ethnography centres on Jos Ingenieros a Buenos Aires neighbourhood founded in a massive squatter invasion in the early 1970s and describes how the military government's actions largely subdued a politically engaged community DuBois traces how state repression and community militancy are remembered in Jos Ingenieros and how the tangled and ambiguous legacies of the past continued to shape ordinary people's lives years after the

collapse of the military regime This rich and evocative study breaks new ground in its exploration of the complex relationships between identity memory class formation neoliberalism and state violence

**The Representation of the Past** Kevin Walsh,2002-09-11 The 1980s and early 1990s have seen a marked increase in public interest in our historic environment The museum and heritage industry has expanded as the past is exploited for commercial profit In The Representation of the Past Kevin Walsh examines this international trend and questions the packaging of history which serves only to distance people from their own heritage A superficial unquestioning portrayal of the past he feels separates us from an understanding of our cultural and political present Here Walsh suggests a number of ways in which the museum can fulfill its potential by facilitating our comprehension of cultural identity

What Is the Present? Michael North,2025-06-17 A provocative new look at concepts of the present their connection to ideas about time

and their effect on literature art and culture The problem of the present what it is and what it means is one that has vexed generations of thinkers and artists Because modernity places so much value on the present many critics argue that people today spend far too much time in the here and now but how can we tell without first knowing what the here and now actually is What Is the Present takes a provocative new look at this moment in time that remains a mystery even though it is always with us Michael North tackles puzzles that have preoccupied philosophy neuroscience psychology history and aesthetic theory and examines the complex role of the present in painting fiction and film He engages with a range of thinkers from Aristotle and Augustine to William James and Henri Bergson He draws illuminating examples from artists such as Fra Angelico and Richard McGuire filmmakers like D W Griffith and Christopher Nolan and novelists such as Elizabeth Bowen and Willa Cather North offers a critical analysis of previous models of the present from the experiential present to the historical period we call the contemporary He argues that the present is not a cosmological or experiential fact but a metaphor a figurative relationship with the whole of time Presenting an entirely new conception of the temporal mystery Georg Lukacs called the unexplained instant What Is the Present explores how the arts have traditionally represented the present and also how artists have offered radical alternatives to that tradition Global Competitiveness: Business

Nichols Jr., 2007-08-29 Nichols examines the major writings of Alexandre Kojève and clarifies the character and brings to light the importance of his political philosophy While emphasizing the political dimension of Kojève's thought Nichols treats all his major published writings and shows how the remarkably varied parts of Kojève's intellectual endeavor go together This is an essential assessment of Kojève which considers the works that preceded his turn to Hegel seeks to articulate the character of his Hegelianism and reflects in detail on the two different meanings that the end of history had in two different periods of his thought *Time and Action in the Scottish*

*Independence Referendum* Michael Gardiner, 2015-07-19 This book describes the recent Scottish independence referendum as the latest incarnation of a contest between two times on one hand an ideally continuous time beyond determination underpinning financial sovereignty on the other the interruptions to this ideal continuity inherent in human action Memories in the Service of the Hindu Nation Pranav Kohli, 2023-11-16 This book is based on fourteen months of

ethnographic fieldwork with Partition survivors from west Punjab and the North West Frontier Province in Delhi and its surroundings between 2017-18. It locates the global rise of far right nationalism within globalisation and memories of victimhood. Focussing on Hindu nationalism in India, this book is an important and timely contribution to the literature on South Asian Partition Studies that shows how tragedy begets tragedy. It tries to answer an urgent provocative but nevertheless necessary question: What does it mean to remember the Partition in the time of fascism? The author shows what makes up cycles of violence by connecting the reinscription of trauma in Partition memories to the self-serving justifications of the contemporary violence of Hindu nationalism. It analyses how the hegemony of Hindu nationalism has structured the narratives of Hindu Partition survivors and recruited them in service of a putative Hindu nation. *Military Intelligence*, 1987

**Overcoming Woundedness: Lessons From The Life of Joseph** Sally Meredith, 2017-03-28. Everyone has been wounded. Some wounds recall childhood hurts; some are more recent. They may be personal through family or close friends or they can be generated by workplace issues with a boss or coworker. No matter where they originate, woundedness is a human malady stemming from our brokenness, and it makes us question the very purpose of the hurts we experience. Come along with the author as she takes us into one man's journey of being wounded and how his story affects ours. Joseph was a man just like us who experienced the depth of painful circumstances and went on to a height he never dreamed. As we study his life, we learn that God was after his heart just as He is after ours and mine. Where there is adversity, there is fear. But God desires to transform our fear into faith. He pursues us in the depths of pain in order to bring us to His glory. Even though our hearts have been wounded by people, we have a God who heals our wounds and through the process of fellowship with Him shows us His heart.

**The Animation Studies Reader** Nichola Dobson, Annabelle Honess Roe, Amy Ratelle, Caroline Ruddell, 2018-10-18. The Animation Studies Reader brings together both key writings within animation studies and new material in emerging areas of the field. The collection provides readers with seminal texts that ground animation studies within the contexts of theory and aesthetics, form and genre, and issues of representation. The first section collates key readings on animation theory on how we might conceptualise animation and on some of the fundamental qualities of animation. New material is also introduced in this section, specifically addressing questions raised by the nature, style, and materiality of animation. The second section outlines some of the main forms that animation takes, which includes discussions of genre. Although this section cannot be exhaustive, the material chosen is particularly useful as it provides samples of analysis that can illuminate some of the issues the first section of the book raises. The third section focuses on issues of representation and how the medium of animation might have an impact on how bodies, gender, sexuality, race, and ethnicity are represented. These representations can only be read through an understanding of the questions that the first two sections of the book raise: we can only decode these representations if we take into account form and genre and theoretical conceptualisations such as visual pleasure, spectacle, the uncanny, realism, etc. *Progress in Physics*, vol. 2/2017.
